"It's been twenty years since 9/11, two decades since the United States was attacked on home soil and set out to make the guilty pay with their lives. In the shadows, the enemy has been patient--learning, and adapting. And the enemy is ready to strike again. A new president offers hope to a country weary of conflict. He's a young, popular, self-made visionary...but he's also a man with a secret. Halfway across the globe a regional superpower struggles with sanctions imposed by the United States and her European allies, a country whose ancient religion spawned a group of ruthless assassins. Faced with internal dissent and extrajudicial targeted killings by the United States and Israel, the Supreme Leader puts a plan in motion to defeat the most powerful nation on earth. Meanwhile, a young PhD student has gained access to a bioweapon thought to be confined to a classified military laboratory known only to a select number of officials. A second-generation agent, he has been assigned a mission that will bring his adopted homeland to its knees."--Back

In the beginning, there's a boy standing in the trees . . . Clara Gardner has recently learned that she's part angel. Having angel blood run through her veins not only makes her smarter, stronger, and faster than humans (a word, she realizes, that no longer applies to her), but it means she has a purpose, something she was put on this earth to do. Figuring out what that is, though, isn't easy. Her visions of a raging forest fire and an alluring stranger lead her to a new school in a new town. When she meets Christian, who turns out to be the boy of her dreams (literally), everything seems to fall into place—and out of place at the same time. Because there's another guy, Tucker, who appeals to Clara's less angelic side. As Clara tries to find her way in a world she no longer understands, she encounters unseen dangers and choices she never thought she'd have to make—between honesty and deceit, love and duty, good and evil. When the fire from her vision finally ignites, will Clara be ready to face her destiny? *Unearthly* is a moving tale of love and fate, and the struggle between following the rules and following your heart.

Our fast-paced world is forcing us to become more and more aware of the dangers posed by stress to our mental and physical well-being. In the search for natural and healthy stress relieving techniques, people are increasingly turning to the skills and wisdom of ancient Eastern cultures, such as is the case with hand reflexology. Hand reflexology is a technique which employs self-massage of certain focal points in the hands that can directly and immediately boost your health and revitalize your energy and bloodflow. In this book, I'm going to help you thoroughly understand hand reflexology and exactly how it works. You'll learn all about the benefits, apart from just tension relief, including improved blood circulation, cell growth, relaxation of muscles, reduced pain, a better functioning digestion and immune system, and overall detoxification of the body. I'll also show you how to perform this massage technique on yourself or others, including a diagram of pressure points and the corresponding organs, and I'll point out the safety measures that must be practiced along the way. I hope that you decide to take full advantage of this quick, easy, and inexpensive - yet powerful - method of staying healthy and eliminating stress.
