JAZMINE KRISTOPHER

"This book summarizes, analyzes, and critiques current influential portraits of Jesus. It concludes that any portrait of the historical Jesus must come to terms with Jesus as both an apocalyptic prophet and a prophet of social and economic justice for an oppressed people."--BOOK JACKET.

The Quest of the Historical Jesus BRILL
The introduction to this new guide sets out the sources (Graeco-Roman, Jewish and Christian), noting the problems connected with them, paying particular attention to the nature of the gospels, and the Synoptic versus the Johannine tradition. A substantial section will discuss scholarship on Jesus from the nineteenth century to the explosion of works in the present day, introducing and explaining the three different 'quests' for the historical Jesus. Subsequent chapters will analyse key themes in historical Jesus research:

Jesus' Galilean origins; the scope of his ministry and models of 'holy men', particularly that of prophet; Jesus' teaching and healing; his trial and crucifixion; the highly contentious question of his resurrection; and finally an exploration of the links between the Jesus movement and the early church. Throughout, the (often opposing) positions of a variety of key scholars will be explained and discussed (eg. Sanders, Crossan, Dunn, Wright, Brown).

Arguing that the way Jesus leads and the way we follow are symbiotic, Peterson begins with a study of how the ways of those who came before Christ revealed and prepared the way of the Lord that became complete in Jesus. He then challenges the ways of the contemporary American church, showing in stark relief how what we have chosen to focus on--consumerism, celebrity, charisma, and so forth--obliterates what is unique in the Jesus way.

The existence of the historical Jesus cannot be doubted. But who was Jesus of Nazareth? And who is he for us today? In this controversial work Schillebeeckx offers his 'experiment': an informative and sustained hermeneutical reflection on the story of Jesus. It became a bestseller, and would become the first volume of Schillebeeckx' trilogy on Jesus Christ. He presents a Christology 'from below', rooted in the synoptic gospels, but especially in Mark and in the Q tradition. At the same time he is clearly interested in portraying 'the historical Jesus' as both Proclaimer and Proclaimed. In this major work Schillebeeckx tries to answer questions such as: Is the promise of salvation only to be found in Jesus Christ because he was a gift from God, as the Gospels tell us? What can we say about the inspiration of so many who do not attend church or adhere to any believe they find in Jesus Christ? Schillebeeckx takes us into his promising quest that leads to the ultimate question of what religious truth actually is.

Noted New Testament scholar Bauckham challenges the prevailing assumption the accounts of Jesus circulated as "anonymous community traditions," instead asserting that they were transmitted in the name of the original eyewitness. **Jesus** Baker Academic Place yourself as a witness of the cross and determine what your own testimony will be! Experience Holy Friday from the perspective of those who watched Jesus die: Mary his mother; the Beloved Disciple from the Gospel of John; Mary Magdalene and the other women from Galilee; the two men, usually identified as thieves, crucified with Jesus; the centurion and the soldiers; Joseph of Arimathea and Nicodemus. Jews and Romans, friends and strangers, the powerful and the powerless, the hopeful and the despairing. The story of Jesus's death is not something we just read: we think about it, and we experience it; we hear the taunts of the soldiers, the priests, and the passersby even as we hear the famous "seven last words" from the cross. In *Witness at the Cross*, Amy-Jill Levine shows how

the people at the cross each have distinct roles to play. Each Evangelist presents a distinct picture of the death of Jesus. Each portrays different individuals and groups of people at the cross, each offers different images and dialogues, and so from each, we learn how those meanings and messages cross the centuries to any who would come to the cross today. Each Gospel has its own story to tell, all the witnesses have their own memories, and every reader comes away with a new insight. The witnesses at the Crucifixion watch Jesus die, and we watch with them, and we watch them. And we come away transformed. Additional components are available for a six-week study include a DVD featuring Dr. Levine and a comprehensive Leader Guide. *The Historical Figure of Jesus* HarperOne Who is Jesus? What did he do? What did he say? -Are the traditional answer to these questions still to be trusted? - Did the early church and tradition "Christianize" Jesus? - Was Christianity built on clever conceptions of the church, or on the character and actions of an actual

person? These and similar questions have come under scrutiny by a forum of biblical scholars called the Jesus Seminar. Their conclusions have been widely publicized in magazines such as *Time* and *Newsweek*. *Jesus Under Fire* challenges the methodology and findings of the Jesus Seminar, which generally clash with the biblical records. It examines the authenticity of the words, actions, miracles, and resurrection of Jesus, and presents compelling evidence for the traditional biblical teachings. Combining accessibility with scholarly depth, *Jesus Under Fire* helps readers judge for themselves whether the Jesus of the Bible is the Jesus of history, and whether the gospels' claim is valid that he is the only way to God. *Jesus of Nazareth* Wm. When world-class biblical scholar Bart Ehrman first began to study the texts of the Bible in their original languages he was startled to discover the multitude of mistakes and

intentional alterations that had been made by earlier translators. In *Misquoting Jesus*, Ehrman tells the story behind the mistakes and changes that ancient scribes made to the New Testament and shows the great impact they had upon the Bible we use today. He frames his account with personal reflections on how his study of the Greek manuscripts made him abandon his once ultraconservative views of the Bible. Since the advent of the printing press and the accurate reproduction of texts, most people have assumed that when they read the New Testament they are reading an exact copy of Jesus's words or Saint Paul's writings. And yet, for almost fifteen hundred years these manuscripts were hand copied by scribes who were deeply influenced by the cultural, theological, and political disputes of their day. Both mistakes and intentional changes abound in the surviving manuscripts, making the original words difficult to reconstruct. For the first time, Ehrman reveals where and why these changes were made and how scholars go about reconstructing the original words of the New

Testament as closely as possible. Ehrman makes the provocative case that many of our cherished biblical stories and widely held beliefs concerning the divinity of Jesus, the Trinity, and the divine origins of the Bible itself stem from both intentional and accidental alterations by scribes -- alterations that dramatically affected all subsequent versions of the Bible.

Studies of the Historical Jesus Wm. B. Eerdmans Publishing

This book features a learned and fascinating debate between two great Bible scholars about the New Testament as a reliable source on the historical Jesus. Bart Ehrman, an agnostic New Testament scholar, debates Craig Evans, an evangelical New Testament scholar, about the historical Jesus and what constitutes "history." Their interaction includes such compelling questions as: What are sound methods of historical investigation? What are reliable criteria for determining the authenticity of an ancient text? What roles do reason and inference play? And, of course, interpretation? Readers of this debate—regardless of

their interpretive inclinations and biases—are sure to find some confirmation of their existing beliefs, but they will surely also find an honest and well-informed challenge to the way they think about the historical Jesus. The result? A more open, better informed, and questioning mind, which is better prepared for discovering both truth and contrivance. The debate between Ehrman and Evans along with Stewart's introductory framework make this book an excellent primer to the study of the historical Jesus, and readers will come away with a deeper appreciation for the ongoing quest for the historical Jesus.

The Historical Jesus in Context InterVarsity Press

The New Testament contains a story about Jesus of Nazareth which has always been understood by the Church to be historically true. It is an account of the life, death, and resurrection of a real person, whose links with history are firmly signalled in the creeds of the early church. Contemporary historical scholarship, on the other hand, has called into question the reliability of the church's version of

this story, and thereby raised the question as to whether ordinary people can know its historical truth. In this book, a leading philosopher of religion argues that the historicity of the story still matters, and that its religious significance cannot be captured by the category of "non-historical myth." The commonly drawn distinction between the Christ of faith and the Jesus of history cannot be maintained. The Christ who is the object of faith must be seen as historical; the Jesus who is reconstructed by historical scholarship is always shaped by commitments to faith. Evans looks carefully at contemporary New Testament studies, and the philosophical and literary assumptions upon which it rests, to show that this scholarship does not undermine the confidence of lay people who believe that they can know that the church's story about Jesus is true. His accessible and controversial study will interest all thoughtful Christian readers. -- Publisher description.

The Historical Jesus
Zondervan Academic
Building on the work of biblical scholars—Rudolph Bultmann, Raymond

Brown, Jane Schaberg, and Robert Funk, among others—filmmaker Paul Verhoeven disrobes the mythical Jesus to reveal a man who has much in common with other great political leaders throughout history—human beings who believed that change was coming in their lifetimes. Gone is the Jesus of the miracles, gone the son of God, gone the weaver of arcane parables whose meanings are obscure. In their place Verhoeven gives us his vision of Jesus as a complete man, someone who was changed by events, the leader of a political movement, and, perhaps most importantly, someone who, in his speeches and sayings, introduced a new ethic in which the embrace of human contradictions transcends the mechanics of value and worth that had defined the material world before Jesus. "The Romans saw [Jesus] as an insurrectionist, what today is often called a terrorist. It is very likely there were 'wanted' posters of him on the gates of Jerusalem. He was dangerous because he was proclaiming the Kingdom of Heaven, but this wasn't the Kingdom of Heaven as we think of

it now, some spectral thing in the future, up in the sky. For Jesus, the Kingdom of Heaven was a very tangible thing. Something that was already present on Earth, in the same way that Che Guevara proclaimed Marxism as the advent of world change. If you were totalitarian rulers, running an occupation like the Romans, this was troubling talk, and that was why Jesus was killed." —Paul Verhoeven, from profile by Mark Jacobson in *New York Magazine*

Jesus the historical figure has intrigued some of the most interesting figures of modernity; such as Newton and Norman Mailer. In this revealing history and critique, the author enters the complex mental worlds of these researchers to show how our understanding of Jesus has influenced our culture

Jesus and the Eyewitnesses Lion Books
Historical Jesus asks two primary questions: What does historical mean? and How should we apply this to Jesus? Anthony Le

Donne begins with the unusual step of considering human perception how sensory data from sight, sound, touch, taste, and smell are interpreted from the very beginning by what we expect, what we've learned, and how we categorize the world. In this way Le Donne shows how historical memories are initially formed. He continues with the nature of human memory and how it interacts with group memories. Finally, he offers a philosophy of history and uses it to outline three dimensions from the life of Jesus: his dysfunctional family, his politics, and his final confrontation in Jerusalem. This little book is ideal for those with no background in religious studies even those with no faith who wish to better understand who Jesus was and how we can know what we do know about him.
