"A stunningly

that doubles as an

unforgettable characters in this French runaway hit, Christelle Dabos' *The Mirror Visitor* quartet. Plain-spoken, headstrong Ophelia cares little about appearances. Her ability to read the past of objects is unmatched in all of Anima and, what's more, she possesses the ability to travel through mirrors, a skill passed down to her from previous generations. Her idyllic life is disrupted, however, when she is promised in marriage to Thorn, a taciturn and influential member of a distant clan. Ophelia must leave all she knows behind and follow her fiancé to Citaceleste, the capital of a cold, icy ark known as the Pole, where danger lurks around

every corner and nobody can be trusted. There, in the presence of her inscrutable future husband, Ophelia slowly realizes that she is a pawn in a political game that will have far-reaching ramifications not only for her but for her entire world. The World of the Arks Long ago, following a cataclysm called the Rupture, the world was shattered into many floating celestial islands, now known as arks. Over each, the spirit of an omnipotent and immortal ancestor abides. The inhabitants of these arks each possess a unique power. Ophelia, with her ability to read the pasts of objects, must navigate this fantastic, disjointed, perilous world using her trademark tenacity and

quiet strength.

**Unloved Again** Henry Holt and Company Technology doesn't flow smoothly; it's the big surprises that matter, and Yale computer expert David Gelernter sees one such giant leap right on the horizon. Today's small scale software programs are about to be joined by vast public software works that will revolutionize computing and transform society as a whole. One such vast program is the "Mirror World." Imagine looking at your computer screen and seeing reality--an image of your city, for instance, complete with moving traffic patterns, or a picture that sketches the state of an entire far-flung corporation at this second. These

representations are called Mirror Worlds, and according to Gelernter they will soon be available to everyone. Mirror Worlds are high-tech voodoo dolls: by interacting with the images, you interact with reality. Indeed, Mirror Worlds will revolutionize the use of computers, transforming them from (mere) handy tools to crystal balls which will allow us to see the world more vividly and see into it more deeply. Reality will be replaced gradually, piece-by-piece, by a software imitation; we will live inside the imitation; and the surprising thing is--this will be a great humanistic advance. We gain control over our world, plus a huge new

measure of insight and vision. In this fascinating book--part speculation, part explanation--Gelernter takes us on a tour of the computer technology of the near future. Mirror Worlds, he contends, will allow us to explore the world in unprecedented depth and detail without ever changing out of our pajamas. A hospital administrator might wander through an entire medical complex via a desktop computer. Any citizen might explore the performance of the local schools, chat electronically with teachers and other Mirror World visitors, plant software agents to report back on interesting topics; decide to run for the local school board, hire a campaign manager,

and conduct the better part of the campaign itself--all by interacting with the Mirror World. Gelernter doesn't just speculate about how this amazing new software will be used--he shows us how it will be made, explaining carefully and in detail how to build a Mirror World using technology already available. We learn about "disembodied machines," "trellises," "ensembles," and other computer components which sound obscure, but which Gelernter explains using familiar metaphors and terms. (He tells us that a Mirror World is a microcosm just like a Japanese garden or a Gothic cathedral, and that a computer program is translated by the computer in the same way a symphony

is translated by a violinist into music.) Mirror Worlds offers a lucid and humanistic account of the coming software revolution, told by a computer scientist at the cutting edge of his field.

A Guest in my House, this title is about having a guest or ghost-spirit in your house with you. It may take some time to figure this out, as you hear voices from nowhere, or see shadows lurking around with no explanation, maybe there are spirits that didn't cross over or lost. In this book many questions will be answered. What happens the moment we die? Is there a light? Are angels and demons real? Is Lucifer

real, can he appear? Of the guests that were in my house, I have collected their stories all of over 70 spirits, explaining exactly how they died and their personal experience, age, name, and year that they passed on. I also interviewed demons, angels, and yes, Lucifer, all real true stories, that I am sure you would love to read. This is a must read book that you just can't avoid to pick up.

Gavin Guile is missing, leaving Kip and his allies to face the White King's horde in the fourth novel of the NYT bestselling Lightbringer series by Brent Weeks. When does an empire fall? The Seven Satrapies have collapsed into four-and those are falling before

the White King's armies. Gavin Guile, ex-emperor, ex-Prism, ex-galley slave, formerly the one man who might have averted war, is now lost, broken, and trapped in a prison crafted by his own hands to hold a great magical genius. But Gavin has no magic at all. Worse, in this prison, Gavin may not be alone. Kip Guile will make a last, desperate attempt to stop the White King's growing horde. Karris White attempts to knit together an empire falling apart, helped only by her murderous and possibly treasonous father-in-law Andross Guile. Meanwhile, Teia's new talents will find a darker use-and the cost might be too much to bear.

Together, they will fight to prevent a tainted empire from becoming something even worse. Devour this blockbuster epic fantasy series that had Peter V. Brett saying, "Brent Weeks is so good, it's starting to tick me off!"

“The Mirror in the Mirror” – in the E-Book now also with illustrations by his father Edgar Ende, to whom Michael Ende dedicated this book. It is a fantastic story labyrinth of a very special kind. For the author himself, this work was of great importance: in interviews, he liked to call it his “never-ending story for adult readers.” The reader is taken into a mysterious narrative world, full of bizarre situations and mysterious fates, surreal images and philosophical thoughts.

Those who open themselves in amazement to these enigmatic visions and allow themselves to be drawn into the fantastic stories will emerge from Michael Ende's magic labyrinth with a new perspective. The core question is: What is reflected in a mirror that is reflected in a mirror? If two readers read the same book, they are still not reading the same thing. For both people immerse themselves into the reading. The book becomes a mirror in which the reader is reflected. But in the same way, the reader is also a mirror in which the book is reflected: The mirror in the mirror refers the reader back to himself. The FAZ, one of the major newspapers in

Germany, writes that Michael Ende shows with the book "how much darkness, wildness and rawness is inherent in dreams. He does not trivialize. His dreams make reference to reality because in dreams, Cicero wrote, 'the remnants of those objects roll and tumble about in the souls which we have thought and impelled while awake'."

By an author described by critics as 'the most accomplished Malaysian writer, full stop'. Lake Like a Mirror is a scintillating exploration of the lives of women buffeted by powers beyond their control. Squeezing themselves between the gaps of rabid urbanisation, patriarchal structures and a theocratic government, these women find their lives twisted in disturbing ways. In precise and disquieting prose, Ho Sok Fong draws her readers into a richly atmospheric world of

naked sleepwalkers in a rehabilitation centre for wayward Muslims, mysterious wooden boxes, gossip in unlicensed hairdressers, hotels with amnesiac guests, and poetry classes with accidentally charged politics - a world that is peopled with the ghosts of unsaid words, unmanaged desires and uncertain statuses, surreal and utterly true.

"A wise, lonely novel . . . [and an] honest reflection of exile."

—The New Yorker In the tradition of Roberto Bolaño's *Savage Detectives*, a celebrated classic and heart-wrenching story of a family torn apart by the forces of history, by one of Latin America's most celebrated writers The late Mario Benedetti's work was often ranked with "such esteemed Latin American writers as Gabriel García Márquez, Carlos Fuentes and Julio Cortázar" (The Washington Post) and his novel *The Truce* has sold millions of copies around the world. His extraordinary novel *Springtime in a Broken Mirror* revolves around Santiago, a political prisoner in Uruguay, who was jailed after a brutal military coup that saw many of his comrades flee

elsewhere. Santiago, feeling trapped, can do nothing but write letters to his family and try to stay sane. Far away, his nine-year-old daughter Beatrice wonders at the marvels of Buenos Aires, but her grandpa and mother—Santiago’s beautiful, careworn wife, Graciela—struggle to adjust to a life in exile. Published now for the first time in English, *Springtime in a Broken Mirror* tells with tenderness and fury of the indelible imprint politics leaves on individual lives. Generous and unflinching, it asks whether the broken bonds of family and history can ever truly be mended. Written by one of the masters of the Latin American

novel, this is the story of a fractured continent, chronicled through the lives of a single family.

Takaki traces the economic and political history of Indians, African Americans, Mexicans, Japanese, Chinese, Irish, and Jewish people in America, with considerable attention given to instances and consequences of racism. The narrative is laced with short quotations, cameos of personal experiences, and excerpts from folk music and literature. Well-known occurrences, such as the Triangle Shirtwaist Factory Fire, the Trail of Tears, the Harlem Renaissance, and the Japanese internment are included. Students

may be surprised by some of the revelations, but will recognize a constant thread of rampant racism. The author concludes with a summary of today's changing economic climate and offers Rodney King's challenge to all of us to try to get along. Readers will find this overview to be an accessible, cogent jumping-off place for American history and political science plus a guide to the myriad other sources identified in the notes.

Granta Books  
The brilliant #1 New York Times bestseller Named a best book of 2020 by The New York Times, The Washington Post, TIME, The Guardian, and many more With The Mirror & the Light, Hilary Mantel brings to a triumphant close the trilogy she began with her peerless, Booker Prize-

winning novels, *Wolf Hall* and *Bring Up the Bodies*. She traces the final years of Thomas Cromwell, the boy from nowhere who climbs to the heights of power, offering a defining portrait of predator and prey, of a ferocious contest between present and past, between royal will and a common man's vision: of a modern nation making itself through conflict, passion and courage. The story begins in May 1536: Anne Boleyn is dead, decapitated in the space of a heartbeat by a hired French executioner. As her remains are bundled into oblivion, Cromwell breakfasts with the victors. The blacksmith's son from Putney emerges from the spring's bloodbath to continue his climb to

power and wealth, while his formidable master, Henry VIII, settles to short-lived happiness with his third queen, Jane Seymour. Cromwell, a man with only his wits to rely on, has no great family to back him, no private army. Despite rebellion at home, traitors plotting abroad and the threat of invasion testing Henry's regime to the breaking point, Cromwell's robust imagination sees a new country in the mirror of the future. All of England lies at his feet, ripe for innovation and religious reform. But as fortune's wheel turns, Cromwell's enemies are gathering in the shadows. The inevitable question remains: how long can anyone survive under Henry's cruel and

capricious gaze?  
 Eagerly awaited and  
 eight years in the  
 making, *The Mirror &  
 the Light* completes  
 Cromwell's journey  
 from self-made man to  
 one of the most feared,  
 influential figures of his  
 time. Portrayed by  
 Mantel with pathos and  
 terrific energy,  
 Cromwell is as complex  
 as he is unforgettable:

a politician and a fixer,  
 a husband and a  
 father, a man who both  
 defied and defined his  
 age.
