### **AMER STORY VOL 1**

**SET** America's Story  
During the 1976 Bicentennial celebration, millions of Americans engaged with the past in brand-new ways. They became absorbed by historical miniseries like *Roots*, visited museums with new exhibits that immersed them in the past, propelled works of historical fiction onto the bestseller list, and participated in living history events across the nation. While many of these activities were sparked by the Bicentennial, M. J. Rymza-Pawlowska shows that, in fact, they were symptomatic of a fundamental shift in Americans' relationship to history during the 1960s and 1970s. For the majority of the twentieth century, Americans thought of the past as foundational to, but separate from, the present, and they learned and thought about history in informational terms. But Rymza-Pawlowska argues that the popular culture of the 1970s reflected an emerging

desire to engage and enact the past on a more emotional level: to consider the feelings and motivations of historic individuals and, most importantly, to use this in reevaluating both the past and the present. This thought-provoking book charts the era's shifting feeling for history, and explores how it serves as a foundation for the experience and practice of history making today.

**History Alive!** Teachers Curriculum Institute Argues against educational practices that teach students to be ashamed of American history, offering a history of the United States that highlights the country's virtues while placing its darker periods in political and historical context.

[A Patriot's History of the United States](#) The New Press

Our nation began with the simple phrase, "We the People." But who were and are "We"? Who were we in 1776, in 1865, or 1968, and is there any continuity in character between the we of those years and the nearly 300 million people living in the radically different America of today? With *Made in America*, Claude S. Fischer draws on decades of historical,

psychological, and social research to answer that question by tracking the evolution of American character and culture over three centuries. He explodes myths—such as that contemporary Americans are more mobile and less religious than their ancestors, or that they are more focused on money and consumption—and reveals instead how greater security and wealth have only reinforced the independence, egalitarianism, and commitment to community that characterized our people from the earliest years. Skillfully drawing on personal stories of representative Americans, Fischer shows that affluence and social progress have allowed more people to participate fully in cultural and political life, thus broadening the category of "American" —yet at the same time what it means to be an American has retained surprising continuity with much earlier notions of American character. Firmly in the vein of such classics as *The Lonely Crowd* and *Habits of the Heart*—yet challenging many of their conclusions—*Made in*

America takes readers beyond the simplicity of headlines and the actions of elites to show us the lives, aspirations, and emotions of ordinary Americans, from the settling of the colonies to the settling of the suburbs.

**Bring Science Alive!** Educators Publishing Service, Incorporated *World History: Cultures, States, and Societies to 1500* offers a comprehensive introduction to the history of humankind from prehistory to 1500. Authored by six USG faculty members with advance degrees in History, this textbook offers up-to-date original scholarship. It covers such cultures, states, and societies as Ancient Mesopotamia, Ancient Israel, Dynastic Egypt, India's Classical Age, the Dynasties of China, Archaic Greece, the Roman Empire, Islam, Medieval Africa, the Americas, and the Khanates of Central Asia. It includes 350 high-quality images and maps, chronologies, and learning questions to help guide student learning. Its digital nature allows students to follow links to applicable sources and videos, expanding their

educational experience beyond the textbook. It provides a new and free alternative to traditional textbooks, making *World History* an invaluable resource in our modern age of technology and advancement.

A panoramic history of rules in the Western world Rules order almost every aspect of our lives. They set our work hours, dictate how we drive and set the table, tell us whether to offer an extended hand or cheek in greeting, and organize the rites of life, from birth through death. We may chafe under the rules we have, and yearn for ones we don't, yet no culture could do without them. In Rules, historian Lorraine Daston traces their development in the Western tradition and shows how rules have evolved from ancient to modern times. Drawing on a rich trove of examples, including legal treatises, cookbooks, military manuals, traffic regulations, and game handbooks, Daston demonstrates that while the content of rules is dazzlingly diverse, the forms that they take are surprisingly few and long-lived. Daston uncovers three enduring kinds of rules: the algorithms that

calculate and measure, the laws that govern, and the models that teach. She vividly illustrates how rules can change—how supple rules stiffen, or vice versa, and how once bothersome regulations become everyday norms. Rules have been devised for almost every imaginable activity and range from meticulous regulations to the laws of nature. Daston probes beneath this variety to investigate when rules work and when they don't, and why some philosophical problems about rules are as ancient as philosophy itself while others are as modern as calculating machines. Rules offers a wide-angle view on the history of the constraints that guide us—whether we know it or not.

This definitive history of American xenophobia is "essential reading for anyone who wants to build a more inclusive society" (Ibram X. Kendi,

New York Times-bestselling author of *How to Be an Antiracist*). The United States is known as a nation of immigrants. But it is also a nation of xenophobia. In *America for Americans*, Erika Lee shows that an irrational fear, hatred, and hostility toward immigrants has been a defining feature of our nation from the colonial era to the Trump era. Benjamin Franklin ridiculed Germans for their "strange and foreign ways." Americans' anxiety over Irish Catholics turned xenophobia into a national political movement. Chinese immigrants were excluded, Japanese incarcerated, and Mexicans deported. Today, Americans fear Muslims, Latinos, and the so-called browning of America. Forcing us to confront this history, Lee explains how xenophobia works, why it has endured, and how it threatens America. Now updated with an epilogue reflecting on how the coronavirus pandemic turbocharged xenophobia, *America for Americans* is an urgent spur to action for any concerned citizen.

One of the most intelligent and influential women in America reflects on her eight years as First Lady of the United States in a revealing book - personal, political and newsmaking. During her husband's two administrations, Hillary Rodham Clinton redefined the position of First Lady. How this intensely private woman not only survived but prevailed is the dramatic tale of her book. Hillary Clinton shares the untold story of her White House years and recalls the challenging process by which she came to define herself as a wife, a mother, and a formidable politician in her own right. Mrs Clinton was the first First Lady who played a direct role in shaping domestic policy; she was an unofficial ambassador for human rights and democracy around the world; and she helped save the Presidency during the impeachment crisis.

The Armenian Genocide of 1.5 million innocent Armenians was carried

out by the Ottoman Empire (modern-day Turkey) from 1915 to 1923. This book is a recollection of experiences and stories of those Armenians who survived recalled by their descendants. Turkey denies responsibility for the Armenian Genocide, which is why it is referred to as the Forgotten Genocide. In 2019, the United States Congress voted to officially recognize the Armenian Genocide, and also voted to formally reject all forms of denial accusations. Armenians around the world remember the Armenian Genocide every year on April 24th. The official symbol of the Armenian Genocide is the Forget-Me-Not Flower.

### **America's Story 3**

Rethinking Schools Normandy depicts the planning and execution of Operation Overlord in 96 full-color pages. The initial paratrooper assault is shown, as well as the storming of the five D-Day beaches: Utah, Omaha, Gold, Juno, and Sword. But the story does not end there. Once the Allies got ashore, they had to stay ashore. The Germans made every effort to push them back into the sea. This book depicts the such key events in the Allied

liberation of Europe as: 1. Construction of the Mulberry Harbors, two giant artificial harbors built in England and floated across the English Channel so that troops, vehicles, and supplies could be offloaded across the invasion beaches. 2. The Capture of Cherbourg, the nearest French port, against a labyrinth of German pillboxes. 3. The American fight through the heavy bocage (hedgerow country) to take the vital town of Saint-Lô. 4. The British-Canadian struggle for the city of Caen against the "Hitler Youth Division," made up of 23,000 seventeen- and eighteen-year-old Nazi fanatics. 5. The breakout of General Patton's Third Army and the desperate US 30th Division's defense of Mortaine. 6. The Falaise Pocket, known as the "Killing Ground," where the remnants of two German armies were trapped and bombed and shelled into submission. The slaughter was so great that 5,000 Germans were buried in one mass grave. 7. The Liberation of Paris, led by the 2nd Free French Armored Division, which had been fighting for four long years with this goal in mind. Normandy New Leaf

In this “ingenious, funny, and chilling” novel (Publishers Weekly, starred review) from the author of *Spaceman of Bohemia*, two long-lost siblings risk everything to save their mother from oblivion in an authoritarian near-future America obsessed with digital consciousness and eternal life—a story that “packs a wallop punch” (Esquire). When Adéla discovers she has a terminal illness, she leaves behind her native Czech village for a chance at reuniting in America with Tereza, the daughter she gave up at birth, decades earlier. But the country Adéla experienced as a young woman, when she eloped with a filmmaker and starred in his cult sci-fi movie, has changed entirely. In 2030, America is ruled by an authoritarian government increasingly closed off to the rest of the world. Tereza, the star researcher for VITA, a biotech company hellbent on discovering the key to immortality, is overjoyed to meet her mother, with whom she forms an instant, profound connection. But when their time together is cut short by shocking events,

Tereza must uncover VITA’s alarming activity in the wastelands of what was once Florida, and persuade the Czech brother she’s never met to join her in this odds-defying adventure. Narrated from the beyond by Adéla’s restless spirit, *A Brief History of Living Forever* is a high-wire act of storytelling from a writer “booming with vitality and originality,” whose “voice is distinct enough to leave tread marks” (New York Times). By turns insightful, moving, and funny, the novel not only confirms Jaroslav Kalfař’s boundless powers of invention but also exults in the love between a mother and her daughter, which neither space nor time can sever. “Kalfař is a wise, rapturous, and original writer . . . Eloquent, heart-stunning, and rich in awe-inspiring prose.” —San Francisco Chronicle “Relentlessly inventive . . . His writing has the same hyperactivity and fidgety contempt for generic boundaries as that of the young Safran Foer.” —The Guardian

**World History** Harper Perennial Modern Classics A much-needed and delightful book. It shows how history can be taught with the meaningful experiences of each child at its centre, making connections between the child, the locality and community, the national and global past and concepts of time. Throughout the authors empower teachers to

adopt their philosophy, by showing them how to plan, select resources and strategies and reflect on ideas and case studies.

Hilary Cooper, Emeritus professor of history and pedagogy, The University of Cumbria, UK. Bringing History Alive through Local People and Places puts the local environment and community at the heart of history, showing how it can be used as the context for successful history teaching across the primary age range. It considers how to develop children's concepts and skills through local history, how to link local, national and global aspects of history, and helps you develop your own historical knowledge, understanding and confidence in teaching the

subject. Practical topics explored include:  
Investigating children's cultural and geographical roots through fieldwork  
Finding and visiting local museums, archives and heritage sights  
Choosing and using resources  
Using significant people, events and buildings to link with national history  
Environmental education and sustainable development through local history  
Understanding the links between history and everyday life  
Planning and assessing history. Based on the latest research and practice in the field, Bringing History Alive through Local People and Places offers an exciting template of creative ideas and activities to show teachers how they can make history relevant to all children.
