After high school, I was not sure about whether I should pursue dance or a technical subject. Awaiting clarity, I spent many months considering my options. While I was in the midst of this confusion, someone asked me, "What brings you closer to yourself?" I didn't respond immediately, but in my mind the answer was clear. "Dance brings me closer to myself," I thought. It was such an odd question, yet strangely it influenced a life decision. How can one be closer to or farther from oneself? I knew that dance would begin to reveal something to me at some point in time, but I wasn't sure of what this thing would be. The act of dancing holds something within it that I

wanted to discover. What if I could imbibe my life with the clarity of thought, precision, control and simultaneous surrender that I am able to wield as a performer? Wouldn't life change inexplicably for the better? The applause bursts like rain clattering From a cloud too heavy to hold, My elation bathes me as sweat trickles Down my forehead a moment before It stings my eye to remind me to see, They applaud the dance, not me. If I were to fall prey, my dance entwined With only moments of applause to remind Of my days of yore. No never not. Dance is me and yet not at all... - Rukmini Vijayakumar

Gender, Sexuality and Colonial Modernities considers the ways in which modernity was constructed, in all its incompleteness, through colonialism. Using a variety of archival resources and equally diverse methodologies, the authors trace modernity's unstable foundations in the slippages and ruptures of colonial gender and sexual politics. As a whole, the essays illustrate that modern colonial regimes are never self-evidently hegemonic, but are always in process - subject to disruption and contest - and never finally accomplished; and are therefore unfinished business.

This book, elucidates the basic steps called Adavus of Bharata Natyam in the traditional Pandanallur style, as taught by the revered Gurus Sri Meenakshi Sundaram Pillai and Sri Muthukumara Pillai, to Sri T.K Narayan and Smt. Jayalakshmi Narayan, parents of the author. It is an honest attempt to explain the various steps with unerring and accurate execution technique. The book offers a visual representation of the Adavus with the help of stick diagrams in a sequential manner so that the beginners and practitioners can understand the finer points of each movement. The author has developed simple schematics to show the various moves, such as jump, stretch, turn, hit etc. The author endeavours to illustrate Adavus in a precise manner in this book. Classification and categorization of each step is the salient feature of this work. Gayathri Keshavan makes a humble effort to pass on the knowledge of this ancient and sacred art to the present and future generations of Bharata Natyam dancers.

In today's complicated environment, strategic organizational decision-making is

a dynamic process marked by a high degree of uncertainty. It is anticipated that the technological potential of artificial intelligence (AI) will provide additional support, but research in this area is still in its early stages. Nonetheless, because the technology is intended to perform functions beyond those of traditional machines, the implications for the division of work and the defining of roles established in the current human-machine relationship are being explored with more awareness. Taking this into consideration ICASD MBW-2022 was flourishingly organized on Dec 16-17, 2022 at Rukmini Devi Institute of Advanced Studies, Delhi. The conference was organized with the purpose to see the applications of AI in the business world and management decision-making. More than 100 participants from around the world participated in the conference and shared their insights, and research ideas relevant to the theme of the conference. We are pleased to inform you that, following careful evaluation, the conference panel has chosen 21 excellent papers from the submissions and assembled them into the proceedings. The following themes are included in the

proceedings, although they are not restricted to AI in Human Resources, AI in Finance, AI in Education, AI in Marketing, Statistical analysis, etc. Each manuscript has undergone thorough review and editing in order to ensure that it satisfies publication standards.

On 30 December 1935, thirty-one year old Rukmini Devi created history with her performance of Sadir, later known as Bharata Natyam, which had until then been confined to temple precincts and was the preserve of devadasis. A celebrated artiste and dancer, she was also a Theosophist, a composer of acclaimed dance-dramas, an educationist, an animal welfare and child rights activist, and a nominated member of the Rajya Sabha. This rich biography illuminates her many lives. Rukmini's early life was in the districts of Madras presidency where her father, an engineer, was posted, and it took many dramatic turns: her marriage in

1920 to George Arundale, a Theosophist and family friend, caused public outrage, particularly among the Madras brahmins. She was closely associated with Annie Besant, who became her mentor, and her meeting with Anna Pavlova inspired her to learn dance. Rukmini went on to establish Kalakshetra, an academy of arts, in 1936, which grew and flourished, and is renowned to this day for its classicism in dance training and performance—a tribute to her skill as an institution builder.

*Hindustani Music in the 20th Century* AIM In spite of a reasonably extensive literature in English' and Indian vernaculars, there are extremely few books on Indian music that can be considered of a scientific standard. I found, when I took up an interest in Indian music in 1967, that even protracted reading of the studies in English was not conducive to an understanding of the principles of performance. Most of my study and research have been devoted to the gradual refinement of this very understanding. In the course of time it also became obvious that different scholars and different musicians held divergent views on many basic concepts of Indian

music. Therefore, one of my tasks was to assess the degree of variability in Indian music. As a corollary I wanted to know how this variability could manifest itself as change in a relatively short and well-documented period. It is often assumed that traditional cultures, as e. g. in India, are rather inert and that the art forms hardly ever change. This study proves the contrary: Indian music has a strong vitality. If we examine the different treatises through the centuries this vitality would appear to be a basic characteristic. I felt that at least an effort to discover the roots of such change would be valuable as a contribution to the study of art history and possibly to the sociology of culture.
