This volume offers a comprehensive and trustworthy solution to anybody wishing to sit, pass, and excel at the Membership of the Royal College of Physicians Part 1 examination.

MCQs in Geriatric Medicine for

Postgraduate Examinations Jaypee Brothers Medical Publishers
Best of Five MCQs for the Geriatric Medicine SCE is the first revision guide designed specifically for this new high-stakes exam. It contains 300 best of five questions with explanatory answers, each accurately reflecting the layout of questions in the exam. The book is divided into three exams for trainees to test themselves on, providing a thorough assessment of the candidate's geriatric medicine knowledge and covering all the main themes of the exam, for example, falls, dementia and delirium, palliative care, nutrition, and stroke. The explanatory answers include references to guidelines and other sources to enable candidates' further reading and study. Ideal for Geriatric Medicine

Specialty Registrars, trainees revising for the Geriatric Medicine Specialty Certificate Examination or the Diploma in geriatric medicine.

MRCP2 Practice Questions &

Answers John Wiley & Sons
Equips you with the skills of effective revision and time management to maximise your success passing this UK test.

Critical Care MCQs tfm Publishing Limited

The newly introduced Specialty Certificate Examinations are a compulsory component of assessment for all UK medical trainees and represent the final examination barrier before getting the certificate of completion of training. This book provides a unique exam-specific revision guide for the

Respiratory specialty certificate exam. Comprising of best of five test multiple choice questions and revision notes to facilitate targeted study, Revision Notes for the Respiratory Medicine Specialty Certificate Examination is the only book you need to prepare for this important examination. Questions are based around clinical scenarios and supplemented with images of radiological investigations such as x-rays, and lung function tests. Each question is structured as in the exam itself. The second half of the book comprises of a series of tutorials covering key areas and difficult concepts assessed in the examination including respiratory infection, respiratory malignancy, industrial lung disease, sleep disorders, standard respiratory

tests and medical statistics. The combined approach allows trainees to become acquainted with the "best of five" format and facilitate recognition of areas of weakness and targeted study. Best of Five MCQs for the MRCP Part 1 Volume 1 CHANGDER OUTLINE MRCP SCE in Respiratory Medicine: 300 SBAs is a unique resource that offers a wealth of practice questions for candidates preparing for the Specialty Certificate Exam in Respiratory Medicine. Chapters in the book correspond to the topics in the syllabus, while the number of questions in each chapter is weighted in accordance with the college's exam blueprint. Featureing questiions written in line with relevant British and international guidelines this book is an indispensable revision aid designed to

maximise the chances of exam success. **MRCP 1** Elsevier Health Sciences Surviving the journey through the Royal Australasian College of Physicians (RACP) examinations requires grit, courage and hard work. The second edition of How To Pass the RACP Written and Clinical Exams is fully updated to help candidates – and those who teach them – dig deep to maximise their chances of success. This insider's guide takes the candidate through the whole process, from preparing for the Written Exam, through to presenting short and long cases in the Clinical Exam. The authors' experiences are combined with tips from recent candidates, wisdom from RACP examiners and advice from specialist contributors. Additional chapters for post-exam registrars and

supervisors include career planning, providing feedback, preparing for interviews, and organising the Clinical Exam. As well as comprehensive guidance for adult medicine candidates, this new edition includes 'Paeds Points' for paediatrics trainees. Containing a wealth of information, pearls of wisdom, real-life examples and practical advice, this light-hearted insider's guide makes the path through the grueling RACP exams far easier.

Medicine for MRCP Oxford University Press, USA

This study guide contains 150 multiple choice questions (MCQs), each with various numbers of stem answers. The questions are supplemented at the back of the book with explanatory answers to aid further revision and study.

Get Through MCEM Part A: MCQs

John Wiley & Sons

An invaluable self-assessment tool for emergency medicine trainees in Australasia. Emergency Medicine MCQs is an essential resource for Australasia's emergency medicine trainees. A practical self-assessment tool, the book assists trainees as they expand and refine their knowledge of emergency medicine, and will ultimately help them pass the Australasian Emergency Medicine Fellowship examination (FACEM). The multiple-choice questions in Emergency Medicine MCQs cover both the core and non-core areas in the Australasian Emergency Medicine Fellowship. Using this text, trainees can revise alone or with their peers to identify the areas in which they need

further development. The curriculum is divided into three main areas where trainees require expert level of knowledge, high level of knowledge and general level of knowledge. It covers important clinical problems encountered in everyday emergency medicine practice – from cardiovascular emergencies through to obstetric and gynaecology emergencies, disaster management and toxicology. As well as being ideal for emergency medicine trainees qualifying through AECM, the book is a useful resource for GPs taking the GEM qualification through ACEM and JMOs 'on call'. Plus, this emergency medicine text is accompanied by an app – a separate product containing 180 randomised multiple-choice questions on all the topics within the book. Test bank

Evidence-based clinically oriented material Question format coherent with updated ACEM guidelines updated in August 2011 References and further reading

MEDICINE QUESTIONS JP Medical Ltd

Magnetic Nanoparticles in Human Health and Medicine Explores the application of magnetic nanoparticles in drug delivery, magnetic resonance imaging, and alternative cancer therapy *Magnetic Nanoparticles in Human Health and Medicine* addresses recent progress in improving diagnosis by magnetic resonance imaging (MRI) and using non-invasive and non-toxic magnetic nanoparticles for targeted drug delivery and magnetic hyperthermia. Focusing on cancer diagnosis and alternative therapy, the book covers both

fundamental principles and advanced theoretical and experimental research on the magnetic properties, biocompatibilization, biofunctionalization, and application of magnetic nanoparticles in nanobiotechnology and nanomedicine. Chapters written by a panel of international specialists in the field of magnetic nanoparticles and their applications in biomedicine cover magnetic hyperthermia (MHT), MRI contrast agents, biomedical imaging, modeling and simulation, nanobiotechnology, toxicity issues, and more. Readers are provided with accurate information on the use of magnetic nanoparticles in diagnosis, drug delivery, and alternative cancer therapeutics—featuring discussion of

current problems, proposed solutions, and future research directions. Topics include current applications of magnetic iron oxide nanoparticles in nanomedicine and alternative cancer therapy: drug delivery, magnetic resonance imaging, superparamagnetic hyperthermia as alternative cancer therapy, magnetic hyperthermia in clinical trials, and simulating the physics of magnetic particle heating for cancer therapy. This comprehensive volume: Covers both general research on magnetic nanoparticles in medicine and specific applications in cancer therapeutics Discusses the use of magnetic nanoparticles in alternative cancer therapy by magnetic and superparamagnetic hyperthermia Explores targeted medication delivery

using magnetic nanoparticles as a future replacement of conventional techniques Reviews the use of MRI with magnetic nanoparticles to increase the diagnostic accuracy of medical imaging Magnetic Nanoparticles in Human Health and Medicine is a valuable resource for researchers in the fields of nanomagnetism, magnetic nanoparticles, nanobiomaterials, nanobioengineering, biopharmaceuticals nanobiotechnologies, nanomedicine, and biopharmaceuticals, particularly those focused on alternative cancer diagnosis and therapeutics.

Magnetic Nanoparticles in Human Health and Medicine Oxford University Press The third edition of this widely used book has been substantially updated to take into account changes since the last

edition. It covers a wide range of topics in medical microbiology and infectious diseases. Questions are accompanied by extended answers, making them ideal for both revision and self study. It will be particularly suitable for candidates for the MRCP, FRCS/MRCS, MRCOG and MRCGP examinations, as well as for medical undergraduates.

Best of Five MCQs for the Geriatric Medicine SCE Oxford University Press
Best of Five MCQs for the Endocrinology and Diabetes SCE is a dedicated revision guide designed to assist candidates in preparing for the Endocrinology and Diabetes Specialty Certificate Examination (SCE). It contains 350 best of five questions covering the main themes of the specialty curriculum. The questions mirror the format that the

candidates can expect to find in the exam and cover all of the key topics, including pituitary gland and hypothalamus, thyroid gland, parathyroid gland and bone disease, adrenal glands, reproductive endocrinology, and diabetes and lipid metabolism. Explanatory answers include references to the most up to date NICE and international guidelines as well as other literature to enable further reading and study. This second edition has been fully updated, with 20 extra questions added to the diabetes chapter to reflect the new exam weightings. Providing a thorough assessment of the reader's endocrinological knowledge, this is the only revision book candidates will need to pass the Endocrinology and Diabetes Speciality Certification

Examination first time.

Best of Five MCQs for the Acute Medicine SCE Pastest

Specifically written for those preparing for examinations and practitioners in travel medicine, *MCQs in Travel Medicine* contains over 600 multiple choice questions with detailed explanations which both teach and challenge the reader. Questions are group by topic which is ideal for revision, enabling you to focus on specific areas including adventure travel, travellers' diarrhoea, malaria, sexually transmitted disease, and drugs used in travel medicine. The style and format of the questions mirror the format of the exam questions, and the book includes a self-test to aid revision. This easy-to-read comprehensive book is ideally suited for

those in busy day-to-day practices and those preparing for examinations in travel medicine including the Certificate Exam of the International Society of Travel Medicine.

MCQs in Basic Medical Sciences for MRCP JP Medical Ltd

A book of 75 cases which mimic the style and approach of the MRCP PACES exam. The book will equip the candidate attempting the MRCP PACES examination, but will also provide an overview of evidence-based medicine for competency-based training.

Passing the Final FFICM Radcliffe Publishing

Designed for candidates preparing for the MCEM Part A exam, *Get Through MCEM Part A: MCQs* provides invaluable revision for this new exam, success in

which is obligatory for entry into higher specialist training in Emergency Medicine. Over 400 practice questions are presented reflecting the format and content used in the actual exam. Useful revision tips and practical advice on the format of the exam, plus techniques for answering questions are provided to develop candidates' exam skills and build up confidence in readiness for the exam day. Three complete mock exams provide the ultimate last minute revision tool. All the answers are supported with detailed explanations to allow the candidate to assess and supplement their own level of knowledge, and target areas of weakness. **Get Through MCEM Part A: MCQs** is comprehensive and authoritative: all authors are practising emergency physicians. Featuring

questions that specifically address all areas of the College of Emergency Medicine's curriculum, this is the essential revision book for all candidates preparing for the Part A exam. It also provides valuable revision for trainees sitting the FCEM exam and for medical students revising for clinical exams. **SBA's for the Final FRCR 2A** OUP Oxford Includes 16 subject-based chapters - covering the Royal College of Physicians' curriculum for Part 1 of the MRCP 1 examination. This title also includes comprehensive answers section that features explanations that enable the reader to develop the knowledge and confidence to pass the exam.

Mastering Medicine OUP Oxford Intensive care medicine is a dynamic and evolving specialty, requiring its

practitioners to be part physician, physiologist and anaesthetist. This requires a firm foundation of knowledge and an ability to apply this to the clinical situation. This book contains 270 multiple-choice questions allowing self-assessment of the breadth of knowledge required of the modern intensivist. The book is divided into three papers each consisting of 60 multiple true false (MTF) and 30 single best answer (SBA) questions covering areas including resuscitation, diagnosis, disease management, organ support, and ethical and legal aspects of practice. The MTF questions test factual knowledge and understanding of the evidence base underpinning intensive care medicine, while the SBA questions test the ability of the candidate to prioritise, compete

options and make the best decision for the patient. Each question is peer reviewed and accompanied by concise and detailed explanatory notes with references to guide further reading. All the authors are practising intensive care physicians with firsthand experience of professional examinations in the specialty. This book will appeal to intensive care physicians approaching professional examinations worldwide, including the European Diploma, American Board and Faculty of Intensive Care Medicine examinations. In addition, it will appeal to intensive care nurses and allied healthcare professionals wishing to update their knowledge as part of continuing professional development, and to physicians sitting professional examinations in related

specialties requiring knowledge of intensive care medicine such as general medicine, general surgery and anaesthesia. This new book will complement the existing international best-selling title 'Multiple Choice Questions in Intensive Care Medicine' (ISBN 978 1 903378 64 9), also written by Dr Steve Benington.

How to Pass the RACP Written and Clinical Exams Radcliffe Publishing Medicine for MRCP provides a comprehensive review of the material that you need to pass the MRCP Parts 1 and 2 written papers. The twenty-seven chapters mapped out to the RCP syllabus, cover all areas from molecular medicine and genetics, through to medical law and ethics. Written by specialist contributors and educational

experts, the content is carefully crafted to build your understanding for both papers. Each chapter begins with the basic science required for Part 1, before covering clinical medicine for Part 1, Part 2 and the PACES examinations. To ensure effective revision, material is presented in short sections with bullet lists, tables, and boxes. Over 150 drawings and photos illustrate key principles and clinical topics making them easier to retain. References to evidence-based protocols and directions to further reading allow for deeper understanding. Candidates can review their progress via the 180 end-of chapter self-assessment questions. Drawing on the authors' expertise, *Medicine for MRCP* is the ideal companion for the MRCP as well as a useful reference guide

for practicing medical doctors.
