In this memorable first book, *Behind the Dolphin Smile*, Richard O'Barry told the inspiring story of his personal transformation from world-famous dolphin trainer (Flipper was his pupil) to dolphin liberator. Now, in *To Free a Dolphin*, he passionately recounts the dramatic story of his heart-breaking campaign to release captive dolphins back into the wild. With wit and insight he chronicles the extreme opposition he has faced from bureaucrats, major players in the captive-dolphin industry, rival wildlife groups, and well-meaning sentimentalists. He introduces readers to famous show animals he has helped, including Bogie and Bacall of Key Largo. And, most fascinating, he describes his struggles to deprogram and rehabilitate dolphins emotionally scarred from years of captivity--struggles that become battles for the animals' souls.

"It began with a simple note: a letter of rejection from Miss Temple's fiance, written on crisp Ministry paper and delivered on her maid's silver tray. But for Miss Temple, Roger Bascombe's cruel rejection will ignite a harrowing quest for answers, plunging her into a mystery as

dizzying as a hall of mirrors - and into a remote estate where danger abounds and all inhibitions are stripped bare ... Thus begins Gordon Dahlquist's debut novel of Victorian suspense - at once a dazzling feast for the senses and a beguiling, erotic literary adventure." "Nothing could have prepared Miss Temple for where her pursuit of Roger Bascombe would take her - or for the shocking things she would find behind the closed doors of forbidding Harschmort Manor: men and women in provocative disguise, acts of licentiousness and violence, heroism and awakening. But she will also find two allies: Cardinal Chang, a brutal assassin with the heart of a poet, and a royal doctor named Svenson, at once fumbling and heroic - both of whom, like her, lost someone at Harschmort Manor. As the unlikely trio search for answers - hurtling from elegant brothels to gaslit alleyways to shocking moments of self-discovery - they are confronted by puzzles within puzzles. And the closer they get to the truth, the more their lives are in danger. For the conspiracy they face - an astonishing alchemy of science, perverted religion, and lust for power - is so terrifying

as to be beyond belief."--BOOK JACKET.

Popular television host Jeff Corwin takes readers on a gripping journey around the world to meet the animals threatened by extinction. It's no secret that our planet is in crisis. Environmental threats such as climate change, pollution, habitat loss, and land degradation threaten the survival of thousands of plant and animal species. In *100 Heartbeats*, Jeff Corwin provides an urgent portrait of the wildlife teetering on the brink. From the forests slipping away beneath the stealthy paws of the Florida panther, to the giant panda's plight to climb ever higher in the mountains of China, Corwin takes you on a global tour to witness firsthand the critical state of our natural world. Along the way, he shares inspiring stories of battles being waged and won by the conservationists on the front lines of defense. The race to save the planet's most endangered wildlife is under way. Every heartbeat matters.

Praise for *Fired-Up Fundraising: Turn Board Passion into Action* "Fired-Up Fundraising is honest, realistic, practical, and inspiring. It transforms the whole concept of fundraising from obligation and drudgery into passion and fun. Every CEO, development director, development consultant, and board chair needs to have and use this book." —Charles F. (Chic) Dambach President and CEO, Alliance for Peacebuilding Former Senior Consultant, BoardSource "A breakthrough! *Fired-Up Fundraising* takes the mystery out of engaging your board in the ongoing work of fundraising. In this well-organized little book, Gail Perry lays out a commonsense, four-step process that will fire up your board and help you meet your fundraising goals, year after year." —Mal Warwick author of *How to Write Successful*

Fundraising Letters "Fired-Up Fundraising: Turn Board Passion into Action is by far the best book I have ever read on how to involve board members in the entire process of fundraising, from identifying prospects, cultivating them, and finally making 'the ask.' Just as important, it is an invaluable guide on how to select, enlist, train and especially inspire board members so they take ownership of their institutions. Every nonprofit CEO and development officer should read this book." —Robert L. Gale President Emeritus, Association of Governing Boards of Universities and Colleges and founder of BoardSource (formerly known as the National Center for Nonprofit Boards) "This is the book for which EVERY nonprofit chief executive has been yearning since time immemorial. Every nonprofit needs money to survive and thrive, and every nonprofit has a board of trustees to help raise it, but few nonprofits come anywhere near using their boards to maximum benefit. *Fired-Up Fundraising*, a reader-friendly, realistic, and practical playbook written by a richly experienced, highly literate fundraiser turned consultant, takes readers by the hand and leads them step-by-step through

eminently doable ways of inspiring the greatest possible engagement of-and return from-their trustees. It will instantly become the gold-standard guide for building successful boards." —Joel Fleishman Professor of Law and Public Policy and Director, The Foundation Research Program, Duke University [Mockingbird Songs](#) Gulfarium Marine Adventure Park

In reflecting upon my life as a neurosurgeon, perhaps the most salient feature is that period of history involved. Trained by men who studied under Harvey Cushing, considered the father of neurological surgery, we, as early third-generation neurosurgeons, were held to those rigid standards of academic achievement and physical endurance typical of that time. The reader first identifies with the young child who dreams of becoming a doctor, and then sets out on that long path. He then re-lives the experiences of the student of medicine, and later the rigorous demands placed upon the surgeon-in-training. During the later descriptions of the private practice of brain and spinal surgery, the book transitions into an educational experience.

It presents to the reader a multitude of neurological disorders requiring surgical treatment, the relevant surgical anatomy and the operative techniques involved. Often interjected are the intangibles of surgical judgment and philosophy when confronting those in pain or critically ill. Of equal importance were the major scientific advancements which occurred during that period of medical history. No longer did we have to bore a hole in the skull, or inject noxious materials into the head or spinal canal to verify a diagnosis. Rather, we had been privileged to enjoy the development of such remarkable machines as the ultrasound, CAT, and MRI. Descriptions of these devices, among others, and their impact on medical practice should prove interesting to the inquisitive reader. After 21 years in practice, and probably at the height of my career as a surgeon, I contracted hepatitis B subsequent to an accidental needle puncture in the operating room. Forced to lay down the scalpel, I turned to my second childhood dream, cattle ranching, as an alternative vocation. This then becomes a secondary focus of the book. A medical colleague, after learning of my book, expressed an

interest in learning the common denominator driving a man to both neurosurgery and ranching. One can summarize with the word, "counterpoise." I had always strived to achieve a balance between the in-hospital, academic, precision-oriented work of the neurosurgeon and the outdoor, physically-demanding life of a rancher— consummating the total American dream. Analogous to surgery I have always enjoyed using my hands in the shop. Throughout the book sections have been devoted to various aspects of woodworking, and an effort not only to share my enthusiasm but also to expose underlying problems and pitfalls; challenges I have encountered in striving to become an artisan of fine furniture. The practice of medicine has undergone significant change during my lifetime. Not only have I witnessed a burgeoning, unsustainable increase in the cost of healthcare, but also major changes in the way in which medicine is being practiced in the new millennium. Having been a proud product of the "Lucky Few" generation, born between the years 1929 and 1945, I am rightfully able to compare

today's practice of medicine with those of the latter half of the 20th century.

Second Nature Arcadia Publishing

An indelible portrait of one of the most famous and beloved authors in the canon of American literature -- a collection of letters between Harper Lee and one of her closest friends that reveals the famously private writer as never before, in her own words. The violent racism of the American South drove Wayne Flynt away from his home in Alabama, but the publication of *To Kill a Mockingbird*, Harper Lee's classic novel about courage, community and equality, inspired him to return in the early 1960s and craft a career documenting and teaching Alabama history. His writing resonated with many, in particular three

sisters: Louise, Alice and Nelle Harper Lee. The two families first met in 1983, and a mutual respect and affection for the state's history and literature matured into a deep friendship between them. Wayne Flynt and Nelle Harper Lee began writing to one other while she was living in New York – heartfelt, insightful and humorous letters in which they swapped stories, information and opinions on topics including their families, books, social values, health concerns and even their fears and accomplishments. Though their earliest missives began formally – ‘Dear Dr Flynt’ – as the years passed, their exchanges became more intimate and emotional, opening with ‘Dear Friend’ and closing with ‘I love you, Nelle.’ This is a remarkable compendium of a correspondence that lasted for a quarter century – until Harper Lee’s death in February 2016 – and it offers an incisive and compelling look into the mind, heart and work of one of the most beloved authors in modern literary history. *Fodor's 2012 Florida* Renaissance Books OUR GUESTS is the guest book you have
