SASHA ALESSANDRO

Evidences of Witnesses ...
KAVYAKALA PRAKASHANA
Many books have
appeared on life of Sir
M.Visvesvaraya both in
Kannada ,English and

other Indian languages
along with hundreds of
articles. All these books
and articles depict the life
and achievements of Sir
M.V in typical
hagiographical style.
None of these books and
articles provide different
outlook. A few
contemporary literati who
did not have any proper

idea of science and
engineering and some like
minded people of
particular group who had
social status started to
propagate each and every
work of Sir M.V as a great
achievement. In due
course of time this
became a tradition. As
continuation of this
tradition books and

articles on Sir M.V are being published one after the other. The author of this current book , who is a civil engineering consultant by profession has deviated from the trodden path and subjected Sir M.V to critical technical examination. Pride , devotion or fear , belief and blind majority does not have any place in science and technology. Objectivity is the only criterion for it. But in case of Sir M.V all these have combined and utilized to glorify him to divinity.

Author argues that the achievements of an engineer shall be evaluated on technical grounds only and not on any other emotional issues. Through this author argues that Sir M.V was not a great engineer but only an ordinary engineer like many others.
