AMY EWING

Mitterrand, the End of the Cold War, and German Unification

Central
European
University
Press
Relying on
internal
sources,
Wilfried Loth
analyses the
birth and
subsequent
development
of the
European
Union, from
the launch of
the Council of
Europe and
the Schuman
Declaration
until the Euro
crisis and the

contested
European
presidential
election of
Jean-Claude
Juncker. This
book shines a
light on the
crises of the
European
integration,
such as the
failure of the
European
Defence
Community,
De Gaulle's
empty chair
policy, or the
rejection of
the European
Constitution in
France and
the
Netherlands,
but also
highlights the
indubitable
successes that
are the
Franco-
German

reconciliation,
the
establishment
of the
European
common
market, and
the
establishment
of an
expanding
common
currency.
What this
study
accomplishes,
for the first
time, is to
illuminate the
driving forces
behind the
European
integration
process and
how it
changed
European
politics and
society. "An
enlightening
work.
Are required

reading for all who doubt the unfinished history of Europe." – Rolf Steininger, Frankfurter Allgemeine Zeitung. "This book will become an indispensable standard work." – Jörg Himmelreich, Neue Zürcher Zeitung. *Triumph of the Fatherland* Hodder Education Publishers Following the defeat of the Third Reich in 1945, Germany has experienced recurring turmoil and reinvention. In this ambitious

book, Michael Gehler explores the political path Germany has taken since the Yalta Conference, observing the different Germanies against the background of the Cold War, European integration, and international relations. Written from an independent perspective, it provides a valuable assessment of our own times, as he shows how the three Germanies (Bonn,

Pankow, and today's "Berlin Republic") sought to establish governments that could create stable states. Walter de Gruyter GmbH & Co KG This is the first in-depth analysis of the impact of Italian unification on the hitherto isolated communities of rural Sicily. Traditional explanations of Sicily's instability depict a society trapped by a feudal past. Lucy Riall finds instead

that many areas of the island were experiencing a period of rapid modernization, as local government increased their organizational efforts. Beginning with the period prior to the revolution of 1860, Dr Riall shows why successive attempts at political reform failed, and analyses the effects of this failure. She describes the bitter and violent conflict between rival elites and the mounting tide

of peasant unrest which together threatened the status quo within the isolated communities of the Sicilian interior. Through an examination of the problems of local government - tax collection, conscription, the organization of policing - and of attempts to suppress peasant disturbances and control crime, she shows that the modernization of the Sicilian countryside

both undermined the control of the central government and made the countryside itself more unstable. *Germany's Two Unifications* Berghahn Books Analyzes the achievements of Frederick the Great and Otto von Bismarck, and explains how Bismarck, a Prussian prime minister, was able to unite all of the German states into a single empire nearly one hundred years after the death of

Frederick the Great.
Access to History: The Unification of Germany and the Challenge of Nationalism 1789–1919, Fifth Edition
 University of Georgia Press
 Provides exam advice that allow AS and A level students develop the knowledge, understanding and study skills needed for exam success. The third edition has been revised and updated to reflect the needs of the current specifications. The title

explores the developments and factors in nineteenth century Germany that affected the move towards national unity, before going on to examine Bismarck's Germany and his fall, and ending with a new section examining the policies and changes within the new German state up to the formation of the Weimar Republic in 1919. The book also includes an assessment of Bismarck as a leader and questions how

united Germany really was by 1890. Through out the book key dates, terms and issues are highlighted, and historical interpretations of key debates are outlined. Summary diagrams are included to consolidate knowledge and understanding of the period, and exam style questions and tips for each examination board provide the opportunity to develop exam skills.

Edition

Berghahn
Books
This work provides an analysis of the moves and manoeuvres that brought an end to the Cold War division of Europe. Coverage includes discussion of the opening of the Berlin Wall and a study of the relationship between West German Chancellor Helmut Kohl and reform Communist leader, Hans

Modrow.
**Access to
History: The
Unification
of Italy:
Third Edition**
Routledge
The Third Edition of this popular title has been updated to reflect the needs of the current A Level specifications. The title examines reasons why progress towards unification was so slow at first and why after 1850 it became so speedy. In doing so, it gives due attention to the roles

played by Cavour, Mazzini, Garibaldi, Pope Pius IX, Napoleon III, Charles Albert and Victor Emmanuel, and attempts to answer the question 'Who made Italy?'. Throughout the book key dates, terms and issues are highlighted, and historical interpretations of key debates are outlined. Summary diagrams are included to consolidate knowledge and understanding of the period, and exam style

questions and tips for each examination board provide the opportunity to develop exam skills.

 Beyond the Wall is the

first book, in either English or German, to tell the whole story of the extraordinary revolution that demolished the Berlin Wall, ended the Cold war, and tore apart the Soviet regime. Elizabeth Pond, former Moscow and European correspondent for the Christian Science Monitor, was an eyewitness to the dramatic events of 1989-92 and to the fifteen years of relations between

Germany and Eastern Europe leading up to them. Pond weaves together in riveting prose the strands of events that are usually recounted separately. Rather than looking just at the East German revolt or the process of unification that created a new nation, she traces the interaction of these events and their diplomatic consequences for Europe. Pond shows the political, economic, and social forces

at work-- leading up to the unification, during the transition process, and in the aftermath. Looking at the European framework, she explains how significantly the European Community and its move toward integration both affected and were affected by German unification. The book contains a wealth of new information from hundreds of interviews with top

German and American policymakers, East German Politburo members and average German citizens. It also incorporates up-to-date research on such topics as the Stasi secret police and the midlife crisis of the German left. Pond concludes with an assessment of the roles of the United States and a unified Germany in the new Europe. Calling for a continued

partnership between the United States and Germany, who "have come through a common baptism of fire since the fall of the Berlin Wall," Pond casts an optimistic eye toward the future.

covers selected topics from the Higher Level options in the IB History syllabus. This coursebook covers Higher Level option 5, Topic 2, Unification and Consolidation of Germany and Italy 1815-90. The text is divided into clear sections following the IB syllabus structure and content specifications. It offers a sound historical account along with detailed explanations

and analysis, and an emphasis on historical debate to prepare students for the in-depth, extended essay required in the Paper 3 examination. It also provides plenty of exam practice including student answers with examiner's comments, simplified mark schemes and practical advice on approaching the Paper 3 examination. **Performing Unification** Indiana University

Press Germany's unique historical experience of undergoing national unification twice in a little over a century makes it a fascinating object of study. In this volume the processes of unification are analysed from the point of view of historians, political scientists and literary historians. Because each event had quite different historical pre-conditions (the first having been

long anticipated and pursued, whereas the second took virtually all participants by surprise), the processes of adjustment to it have differed in many ways. Yet in each case the idea of national unity has held sway powerfully as a norm guiding the responses of those involved.

Brookings Institution Press
Germany's and Italy's belated

national unifications continue to loom large in contemporary debates. Often regarded as Europe's paradigmatic instances of failed modernization, the two countries form the basis of many of our most prized theories of social science. Structuring the State undertakes one of the first systematic comparisons of the two cases, putting the origins of these nation-states and the nature of European

political development in new light. Daniel Ziblatt begins his analysis with a striking puzzle: Upon national unification, why was Germany formed as a federal nation-state and Italy as a unitary nation-state? He traces the diplomatic maneuverings and high political drama of national unification in nineteenth-century Germany and Italy to refute the widely accepted notion that

the two states' structure stemmed exclusively from Machiavellian farsightedness on the part of militarily powerful political leaders. Instead, he demonstrates that Germany's and Italy's "founding fathers" were constrained by two very different pre-unification patterns of institutional development. In Germany, a legacy of well-developed sub-national institutions provided the

key building blocks of federalism. In Italy, these institutions' absence doomed federalism. This crucial difference in the organization of local power still shapes debates about federalism in Italy and Germany today. By exposing the source of this enduring contrast, *Structuring the State* offers a broader theory of federalism's origins that will interest scholars and

students of comparative politics, state-building, international relations, and European political history.

Beyond the Wall Hodder Education
At the same time, Doyle negotiates the conceptual slipperiness of nationalism by discussing it as both constructed and real, unifying and divisive, inspiration for good and excuse for atrocity."--
BOOK JACKET.
Unification and Conquest

Hodder Education Publishers In his last book, the late William Carr provides a masterly account of the origins and impact of the three major wars fought by Prussia in creating the Bismarckian Reich of 1871. He begins with a study of the development of nationalism and liberalism from the late eighteenth century to the 1860's, before turning to a detailed examination of the Schleswig- Holstein	Conflict of 1864; the 'Six Weeks War' of 1866; and the Franco-Prussia War of 1870- -71. <u>The Second War of Italian Unification 1859-61</u> Cambridge University Press German unification and the political and economic transformation s in central Europe signal profound political changes that pose many questions. This book offers a cautiously optimistic set of answers to	these questions. <u>An Introduction to Nineteenth- century European History, 1815-1914</u> Routledge Exam board: Pearson Edexcel; OCR Level: AS/A- level Subject: History First teaching: September 2015 First exams: Summer 2016 (AS); Summer 2017 (A-level) Put your trust in the textbook series that has given thousands of A-level History students deeper
