Zero-day vulnerabilities--software vulnerabilities for which no patch or fix has been publicly released-- and their exploits are useful in cyber operations-- whether by criminals, militaries, or governments--as well as in defensive and academic settings. This report provides findings from real-world zero-day vulnerability and exploit data that could augment conventional proxy

examples and expert opinion, complement current efforts to create a framework for deciding whether to disclose or retain a cache of zero-day vulnerabilities and exploits, inform ongoing policy debates regarding stockpiling and vulnerability disclosure, and add extra context for those examining the implications and resulting liability of attacks and data breaches for U.S. consumers, companies, insurers, and for the civil justice system broadly. The authors provide insights about the zero-day vulnerability research and exploit development industry; give

information on what proportion of zero-day vulnerabilities are alive (undisclosed), dead (known), or somewhere in between; and establish some baseline metrics regarding the average lifespan of zero-day vulnerabilities, the likelihood of another party discovering a vulnerability within a given time period, and the time and costs involved in developing an exploit for a zero-day vulnerability"--Publisher's description.

More than half-a-million business leaders have discovered the power of the StoryBrand Framework, created by New York Times best-selling author and marketing expert Donald Miller. And they are making millions. If you use the wrong

words to talk about your product, nobody will buy it. Marketers and business owners struggle to effectively connect with their customers, costing them and their companies millions in lost revenue. In a world filled with constant, on-demand distractions, it has become near-impossible for business owners to effectively cut through the noise to reach their customers, something Donald Miller knows first-hand. In this book, he shares the proven system he has created to help you engage and truly influence customers. The StoryBrand process is a proven solution to the struggle business leaders face when talking about their companies. Without a clear, distinct message, customers will not understand what you can do for them and are unwilling to engage,

causing you to lose potential sales, opportunities for customer engagement, and much more. In *Building a StoryBrand*, Donald Miller teaches marketers and business owners to use the seven universal elements of powerful stories to dramatically improve how they connect with customers and grow their businesses. His proven process has helped thousands of companies engage with their existing customers, giving them the ultimate competitive advantage. *Building a StoryBrand* does this by teaching you: The seven universal story points all humans respond to; The real reason customers make purchases; How to simplify a brand message so people understand it; and How to create the most effective messaging for websites, brochures, and

social media. Whether you are the marketing director of a multibillion-dollar company, the owner of a small business, a politician running for office, or the lead singer of a rock band, *Building a StoryBrand* will forever transform the way you talk about who you are, what you do, and the unique value you bring to your customers.

Lakeland, the historical African American community of College Park, was formed around 1890 on the doorstep of the Maryland Agricultural College, now the University of Maryland, in northern Prince George's County. Located less

than 10 miles from Washington, D.C., the community began when the area was largely rural and overwhelmingly populated by European Americans. Lakeland is one of several small, African American communities along the U.S. Route 1 corridor between Washington, D.C., and Laurel, Maryland. With Lakeland's central geographic location and easy access to train and trolley transportation, it became a natural gathering place for African American social and recreational activities, and it thrived until its self-contained uniqueness was undermined by the federal government's urban renewal program and by societal change. The story of Lakeland is the tale of a community that was established and flourished in a segregated society and

developed its own institutions and traditions, including the area's only high school for African Americans, built in 1928.

Shiva HarperCollins Leadership Rabindranath Tagore, also written Rabindranatha Thakura, (7 May 1861 - 7 August 1941), sobriquet Gurudev, was a Bengali polymath who reshaped Bengali literature and music, as well as Indian art with Contextual Modernism in the late 19th and early 20th centuries. Author of Gitanjali and its "profoundly sensitive, fresh and beautiful verse", he became the first non-European to win the Nobel Prize in Literature in 1913. In translation his poetry was viewed as spiritual and mercurial; however, his "elegant prose and magical poetry remain largely unknown outside Bengal.

Tagore introduced new prose and verse forms and the use of colloquial language into Bengali literature, thereby freeing it from traditional models based on classical Sanskrit. He was highly influential in introducing the best of Indian culture to the West and vice versa, and he is generally regarded as the outstanding creative artist of the modern Indian subcontinent, being highly commemorated in India and Bangladesh, as well as in Sri Lanka, Nepal and Pakistan.

From the heart of a well-known family of Hyderabad to life in a single room with the barest of necessities, Shaukat Kaifi's memoir of her life with the renowned poet Kaifi Azmi speaks of love and commitment. A marriage of over a half a century, a life steeped in poetry and progressive politics, continuing involvement with the Indian People's Theatre Association, the Progressive

Writers Association, Prithvi Theatre... all of these and more inform this beautifully told tale of love. Shaukat Kaifi's writing details life in a communist commune, a long career in theatre and film and a life spent bringing up her two children, cinematographer Baba Azmi and actor Shabana Azmi. Nasreen Rehman's deft and fluent translation brings this luminous memoir alive with warmth and empathy. "To say that this is a lovely book would be an understatement. It is an enchanting recollection of the life of a hugely talented and sensitive human being, shared with a great poet." -- Amartya Sen. Published by Zubaan. Francis Bacon is considered one of the most important painters of the 20th century. A major exhibition of his paintings at the Royal Academy of Arts in 2020 explores the role of animals in his work - not least the human animal. Having often painted dogs and horses, in 1969 Bacon first depicted bullfights. In this powerful series of works, the interaction between man and beast is dangerous and cruel, but also disturbingly intimate. Both are contorted in their anguished struggle and the erotic lurks not far away: "Bullfighting is like boxing," Bacon once said. "A

marvellous aperitif to sex." 0Twenty-two years later, a lone bull was to be the subject of his final painting. In this fascinating publication - a significant addition to the literature on Bacon - expert authors discuss Bacon's approach to animals and identify his varied sources of inspiration, which included surrealist literature and the photographs of Eadweard Muybridge. They contend that, by depicting animals in states of vulnerability, anger and unease, Bacon sought to delve into the human condition.00Exhibition: Royal Academy of Arts, London, UK (22.01-12.04.2021). *The National Union Catalog* Springer

The nationwide lockdown in 2020 to curb the spread of Covid-19 left millions of

migrant labourers without jobs, food and shelter. Desperate and helpless, most took to the road, embarking on the long, often fatal, journey home. Ritesh, Ashish, Ram Babu, Sonu, Krishna, Sandeep and Mukesh-migrants from Bihar-undertook a similar journey on their bicycles that lasted for seven days and seven nights. Their harrowing trip from Ghaziabad, Uttar Pradesh, to their hometown of Saharsa as they braved police lathis and insults, and battled hunger, exhaustion and fear, was documented by National Award-winning filmmaker Vinod Kapri. 1232 km is a story of the extraordinary courage of seven men in the face of tremendous odds.

The traditional understanding of Shiva told through stories and teachings from

the Shiva Mahapurana • Explains Shiva's contradictory forms, such as destroyer or benefactor, and how his form depends on the needs of the devotee • Reveals how Shiva's teachings allow one to see through the illusions at the root of all grief and alienation in human life • Explores Shiva's relationships with Durga, Shakti, Sati, and Parvati and with his sons Ganesha and Kartikeya Shiva, the most ancient and complex deity of the Hindu pantheon, has been portrayed in many contrasting lights: destroyer and benefactor, ascetic and householder, wild demon slayer and calm yogi atop Mount Kailash. Drawing from the Hindu sacred text the Shiva Mahapurana--said to be written by Shiva himself--Vanamali selects the essential stories of Shiva, both those from his dark wild side and

those from his benevolent peaceful side. Vanamali discusses Shiva's many avatars such as Shambunatha and Bhola, as well as Dakshinamurti who taught the shastras and tantras to the rishis. She explores Shiva's relationships with Durga, Shakti, Sati, and Parvati and with his sons Ganesha and Kartikeya. Examining Shiva's acceptance of outsiders, Vanamali explains why ghosts and ghouls are his attendants and why his greatest devotees are demon kings, like Ravana. She includes famous Shiva stories such as the Descent of the River Ganga and Churning the Milky Ocean as well as those that reveal the origin of the festival of lights, Diwali; his creation of the cosmic couple, or hierogamos; and how Shiva and Parvati taught the world the secrets of Kundalini Shakti. The

author also draws upon Shaivite teachings to illustrate the differences between Western science and Vedic science and their explanations for the origins of consciousness. Integrating Shiva's two sides, the fierce and the peaceful, Vanamali reveals that Shiva's form depends on the needs of the devotee. Understanding his teachings allows one to see through the illusions at the root of all grief and alienation in human life, for Shiva is the wielder of maya who does not fall under its spell. While Ganesha is known as the remover of obstacles, Shiva is the remover of tears.
