BLEVINS RIVAS

Nelson Mandela Penguin Random House South Africa

A deeply researched, shattering new account of Nelson Mandela's relationship with Winnie Madikizela-Mandela that "does justice both to the couple's political heroism and to the betrayals and the secrets that hounded their union" (The New Yorker). Drawing on never-before-seen material, Steinberg—one of South Africa's foremost nonfiction writers—reveals the fractures and stubborn bonds at the heart of a volatile and groundbreaking union, a very modern political marriage that played out on the world stage. "Powerful, intimate." —The Washington Post One of the most celebrated political leaders of a century, Nelson Mandela has been written about by many biographers and historians. But in one crucial area, his life remains largely untold: his marriage to Winnie Madikizela-Mandela. During his years in prison, Nelson grew ever more in love with an idealized version of his wife, courting her in his letters as if they were young lovers frozen in time. But Winnie, every bit his political equal, found herself increasingly estranged from her jailed husband's politics. Behind his back, she was trying to orchestrate an armed seizure of power, a path he feared would lead to an endless civil war. Jonny Steinberg tells the tale of this unique marriage—its longings, its obsessions, its deceptions—making South African history a page-turning political biography. Winnie and Nelson is a modern epic in which trauma doesn't affect just the couple at its center, but an entire nation. It is also a Shakespearean drama in which bonds of love and commitment mingle with timeless questions of revolution, such as whether to seek retribution or a negotiated peace. Steinberg reveals, with power and tender emotional insight, how far these forever-entwined leaders would go for each other and where they drew the line. For in the end, both knew theirs was not simply a marriage, but a contest to decide how apartheid should be fought.

Joshua Mqabuko Nkomo of Zimbabwe Ntsikelelo's dream catcher

This is an open access book. The 2023 Focus Conference will focus on Goal Four (Quality Education) of the United Nations (UN) Sustainable Development Goals (SDG). Goal Four is seized with providing "equal access for all women and men to affordable and quality technical, vocational and tertiary education including university." Quality education, in this context, means the ability to function, provide and derive value in society. The theme of the conference is therefore coined as "The Role of Higher Education in the Attainment of Sustainable Quality Education." Through this theme, the conference will provide a space for participants to share practical knowledge, experiences, and possible solutions to the myriad of problems that confront the higher education sector. Universities are often thought of as ivory towers far removed from the realities that confront global societies. To compound this, higher education is increasingly being questioned for its relevance in providing practical and innovative solutions to existing societal problems. Such questions often navigate around the relevance of the academic programmes being offered, curriculum, the capacity of staff, employability of graduates, and generally the ability of these institutions to understand why they exist. Indeed, higher education's role in creating a sustainable future will presumably take on greater importance as the world continues to become increasingly globalised and interdependent.

"This book includes a selection of world-class chapters addressing current research, case studies, best practices, pedagogical approaches and strategies, related resources and projects related to e-learning"--Provided by publisher.

The Penguin Dictionary of South Africa Quotations IOS Press

The armed struggle waged by the ANC's military wing, Umkhonto we Sizwe (MK), was the longest sustained insurgency in South African history. This book offers the first full account of the rebellion in its entirety, from its early days in the 1950s to the inauguration of Nelson Mandela as South African president in 1994. Vast in scope, this story traverses every corner of South Africa and extends throughout southern Africa, where MK's largest campaigns and heaviest engagements occurred, as well as to the solidarity networks that the rebellion mobilised around the world. Drawing principally from previously unpublished writings and testimonies by the men and women who fought the armed struggle, this book recreates the drama, heroism and tragedy of their experiences. It tells the story of leaders like Nelson Mandela, Oliver Tambo, Joe Slovo and Chris Hani, whose reputations were forged in the crucible of the armed struggle, but it is also a tale of martyrs such as Looksmart Ngudle, Ashley Kriel and Phila Ndwandwe, as well as of MK cadres such as Leonard Nkosi and Glory Sedibe, who would ultimately turn against the ANC and collaborate with the state in hunting down their former comrades. Written in a fresh, immediate style, Umkhonto we Sizwe is an honest account of the armed struggle and a fascinating chronicle of events that changed South African history.

Web-Based Education: Concepts, Methodologies, Tools and Applications IGI Global

Sanctions as War is the first critical analysis of economic sanctions from a global perspective. Featuring case studies from 11 sanctioned countries and theoretical essays, it will be of immediate interest to those interested in understanding how sanctions became the common sense of American foreign policy.

Corporate Social Responsibility in the 21st Century IGI Global

From St. Augustine and early Ethiopian philosophers to the anti-colonialist movements of Pan-Africanism and Negritude, this encyclopedia offers a comprehensive view of African thought, covering the intellectual tradition both on the continent in its entirety and throughout the African Diaspora in the Americas and in Europe. The term "African thought" has been interpreted in the broadest sense to embrace all those forms of discourse - philosophy, political thought, religion, literature, important social movements - that contribute to the formulation of a distinctive vision of the world determined by or derived from the African experience. The Encyclopedia is a large-scale work of 350 entries covering major topics involved in the development of African Thought including historical figures and important social movements, producing a collection that is an essential resource for teaching, an invaluable companion to independent research, and a solid guide for further study.

Pratiyogita Darpan (monthly magazine) is India's largest read General Knowledge and Current Affairs Magazine. Pratiyogita Darpan (English monthly magazine) is known for quality content on General Knowledge and Current Affairs. Topics ranging from national and international news/ issues, personality development, interviews of examination toppers, articles/ write-up on topics like career, economy, history, public administration, geography, polity, social, environment, scientific, legal etc, solved papers of various examinations, Essay and debate contest, Quiz and knowledge testing features are covered every month in this magazine.

Handbook of Research on Establishing Digital Competencies in the Pursuit of Online Learning US Institute of Peace Press

Electronic medical records (EMRs) benefit health systems, especially in low-income developing

countries. EMR systems can give medical personnel access to patients' records and can reduce time needed for data management and record keeping. The report discusses the design, implementation, and results of an installed electronic perinatal patient-referral system supporting health personnel who referred patients through a closed-network, Web-based system in the Lusaka health district in Zambia. It demonstrates how the patient referral module laid the groundwork for a larger EMR system.

Handbook of Research on Practices and Outcomes in E-Learning: Issues and Trends Jacana Media
Corporate social responsibility (CSR) is a fundamental part of corporate entities to assist human efforts toward addressing global challenges rather than exacerbating them. CSR helps companies to achieve social, economic, and ecological legitimacy. It also shapes industrial practices by maximizing socio-ecological sustainability. This book provides a practical understanding of CSR arrangements and practices. It demonstrates the significance, commitments, challenges, and benefits of CSR in different parts of the world. It includes seventeen chapters that address such topics as sustainability and corporate innovation, CSR in the era of COVID-19, CSR and blockchain technology, CSR in universities, gender diversity in CSR, and much more.

Achieving and maintaining cross-border interoperability of electronic health records systems implies managing the continuous process of change and adaptation of a multitude of elements within and across electronic infrastructures in neighboring countries. *_x000D_* This book presents the proceedings of the 11th Special Topics Conference (STC) of the European Federation for Medical Informatics (EFMI), held in Budapest, Hungary in April 2014. The EFMI STC is an important international forum which brings together computer and information science, medicine and technology to present results of current scientific work in health informatics processes, systems and technologies. The theme of EFMI STC 2014 is "Cross-border challenges in informatics with a focus on disease surveillance and utilizing big data", and the conference addressed a range of important aspects of pan-European and cross-border issues. *_x000D_* The book is divided into four sections: health data sharing and integration opportunities and the challenges of working across borders; sources of data, including big data, for monitoring and measuring health and disease; using routine data for epidemiological study and public health; as well as a section for posters presented at the conference. *_x000D_* Given its interdisciplinary nature, the book will be of interest to those working in a variety of disciplines, including medical informatics, bioinformatics and health informatics; medical computing and technology; public health, health insurance and health institutional administration, as well as other allied health professions.

Sanctions as War IGI Global

An in-depth look at the evolving ethos of curating and collecting art at South African universities. In *Picturing Change*, Brenda Schmahmann explores the implications of deploying the visual domain in the service of transformative agendas and unpacks the complexities, contradictions and slippages involved in this process. She shows that although most new commissions have been innovative, some universities have acquired works with potentially traditionalist - even backward-looking - implications. While the motives behind removing inherited imagery may be underpinned by a desire to unsettle white privilege, in some cases such actions can also serve to maintain the status quo. This book is unique in exploring the transformative ethos evident in the curation of visual culture at South African universities. It will be invaluable to readers interested in public art, the politics of curating and collecting, as well as to those involved in transforming tertiary and other public institutions into spaces that welcome diversity. Since South Africa's transition to democracy, many universities have acquired new works of art that convey messages about the advantages of cultural diversity, and engage critically with histories of racial intolerance and conflict. Given concerns about the influence of British imperialism or Afrikaner nationalism on aspects of their inherited visual culture, most tertiary institutions are also seeking new ways to manage their existing art collections, and to introduce memorials, insignia or regalia, which reflect the universities' newfound values and aspirations.

"In October 1941 a young boy and his father disembarked at Durban harbour from a large liner commissioned into emergency service by the Allies. They were Greek refugees from their German-occupied motherland. They spoke no English. They had little money and no prospects. They were heroes, but no one knew that. Some months earlier, father and son, together with two other Greek men and seven New Zealand soldiers, had set off in an open boat in an attempt to escape the German invaders. For two days and nights, sailing by instinct and the stars, battered by fierce winds, their food stocks running low, their water bottles almost empty, they ploughed across the Mediterranean towards Crete, little knowing that the island was soon to capitulate to the Germans.

Fortunately the escapees sailed into an Allied fleet while it was still light and were rescued. Had they encountered the fleet in darkness their fate might have been dire, as, sometimes, in the horrors of war no prisoners were taken - a reality the young boy discovered not many nights later. The boy who stood on the Durban docks, appalled at the sight of Zulu men doing the work of animals by pulling rickshaws, would become one of the leading human-rights lawyers in the country that his father had chosen because the pavements were allegedly paved with gold. The boy was George Bizos. Today George Bizos is a legendary name, renowned throughout the legal profession and beyond. More than that, he is a figure recognised in townships across South Africa. For as an advocate, Bizos is associated with the Treason Trial of the late 1950s; the subsequent Rivonia Trial where his colleague, client and friend Nelson Mandela was sentenced to life imprisonment; the trial of Bram Fischer; that of the Namibian Toivo ja Toivo; a host of major human-rights trials through the 1970s and 1980s right up to the amnesty hearings of the Truth and Reconciliation Commission; and, in 2004, with the treason trial of the Zimbabwean opposition leader, Morgan Tsvangirai, in that country. A consummate lawyer, a self-styled street fighter with a quiet tone of voice and a beguiling smile who, in cross examination, would slice through the evidence of security police and apartheid apologists alike, Bizos haunted the courtrooms of the apartheid regime. For four decades he exposed State lies and hypocrisy, State brutality and murder. In response the State badgered and threatened him, bugged his phone, obstructed his hearings. But the advocate was not to be intimidated. In this compelling and long-awaited autobiography, George Bizos reveals the drama, the heartache and the moments of triumph, the fears and the frustrations of his long career as an advocate. He writes, moreover, about himself and his family, and the domestic moments that made bearable the brutal years. He revels in his return to his beloved Greece, his joy at the Athens Olympic Games and his love of modern Greek poetry. Above all, his is a warm and compassionate account, related by a raconteur of note. It is history told from the inside."

Financial Statistics of Universities, Universities of Technology and Technikons Wits University Press

While online learning was an existing practice, the COVID-19 pandemic greatly accelerated its capabilities and forced educational organizations to swiftly introduce online learning for all units. Though schools will not always be faced with forced online learning, it is apparent that there are clear advantages and disadvantages to this teaching method, with its usage in the future cemented. As such, it is imperative that methods for measuring and assessing the effectiveness of online and blended learning are examined in order to improve outcomes and future practices. *Measurement Methodologies to Assess the Effectiveness of Global Online Learning* aims to assess the effectiveness of online teaching and learning in normal and pandemic situations by addressing challenges and opportunities of adoption of online platforms as well as effective learning strategies, investigating the best pedagogical practices in digital learning, questioning how to improve student motivation and performance, and managing and measuring academic workloads online. Covering a wide range of topics such as the future of education and digital literacy, it is ideal for teachers, instructional designers, curriculum developers, educational software developers, academics, researchers, and students.

Cross-Border Challenges in Informatics with a Focus on Disease Surveillance and Utilising Big Data Knopf

After two years of forced changes in the educational system and shifting to a new model where online learning became a reality, students and teachers gained a lot of experience and new insights into online learning. Thus, it is relevant for educators, managers of schools, and developers of online applications to understand what was learned during the pandemic in order to adapt to the new situation. *The Handbook of Research on Establishing Digital Competencies in the Pursuit of Online Learning* considers important lessons learned about online teaching during the pandemic, the experiences of educators, and the perspectives of students and teachers. The book also assists educators in designing their learning process for it to be more student- and teacher-oriented. Covering key topics such as technology, digital skills, and distance learning, this reference work is ideal for industry professionals, administrators, policymakers, principals, researchers, academicians, scholars, instructors, and students.

Rights and Democracy IGI Global

This is the third Penguin Dictionary of South African Quotations to be compiled by journalist and writer Jennifer Crwys-Williams. It is an all-new, 500-page slice of pure South Africana. Containing thousands of entries and spanning the first eight years of the 21st century, there is something for everyone in this invaluable 'Who said that?' handbook. From the serious to the profound, the poignant, embarrassing and the downright ridiculous, the public utterances of statesmen, comedians, political commentators, government ministers, sportsmen and many more are given a platform in this extensively researched collection. If you are a passionate follower of the ever-evolving South African story, or someone who enjoys the cut and thrust of debate on the political issues of the day, this book provides pithy, observant and broadly representative views of what engages the hearts, heads and minds of South Africans. If you need reminding about the Hefer Commission, or want to know what ANC president Jacob Zuma thinks about God and his party, look no further. If you're ready to relive the Hansie Cronje saga or to find comfort in Archbishop Desmond Tutu's unwavering stand on human rights over the years, or are simply curious to discover what chocolate has to do with the good life or what Barry Ronge thinks about gardening books, Crwys-Williams will not disappoint you. What was it that Nadine Gordimer said about Ronald Suresh Roberts and what has Aids done to all of us (especially to Manto Tshabalala-Msimang)? This is an essential reference guide: dip in and out of it, make notes in its margins, or use it to impress your friends with your brilliant grasp of current affairs. From the 'I wish I'd said that' view to the 'I wish I hadn't!', *The Penguin Dictionary of South African Quotations* caters for everyone.
