Derived from the renowned multi-volume International Encyclopaedia of Laws, this convenient resource provides systematic information on how Spain deals with the role religion plays or can play in society, the legal status of religious communities and institutions, and the legal interaction among religion, culture, education, and media. After a general introduction describing the social and historical background, the book goes on to explain the legal framework in which religion is approached. Coverage proceeds from the principle of religious freedom through the rights and contractual obligations of religious communities; international, transnational, and regional

law effects; and the legal parameters affecting the influence of religion in politics and public life. Also covered are legal positions on religion in such specific fields as church financing, labour and employment, and matrimonial and family law. A clear and comprehensive overview of relevant legislation and legal doctrine make the book an invaluable reference source and very useful guide. Succinct and practical, this book will prove to be of great value to practitioners in the myriad instances where a law-related religious interest arises in Spain. Academics and researchers will appreciate its value as a thorough but concise treatment of the legal aspects of diversity and multiculturalism in which religion plays such an important part.

'Wall to Wall: Law as Culture in Latin America and Spain' comprises interventions from a wide array of scholars based in the US, Spain, and Latin America, exploring the encounter of Hispanophone cultures and the law. Its contributors delineate a fraught relationship of complicity, negotiation, and outright confrontation covering five centuries and a truly global landscape, from Inquisitorial processes at the onset of the Spanish Empire to last-ditch plans to preserve it in the 19th century Philippines, to the challenges to contemporary articulations of the nation-state in Catalonia. Beyond single,

specialized time-period and national cultures, 'Wall to Wall' embraces and showcases the heterogeneity of the field, covering both well-known territory (Argentina, Mexico, Spain) and often-neglected cultures (Venezuela, Philippines, and indigenous communities in the Yucatan area), as well as problems that cannot be narrowed down to the nation-state (exile, independence processes, non-state laws, translation of foreign cultures). Contributors include: Aurélie Vialette, Daniel Aguirre-Oteiza, Daniela Dorfman, María Fernanda Lander, Gloria Elizabeth Chacón, Iván Trujillo, Benjamin Easton, Pauline de Tholozany, Lauren G.J. Reynolds, Ignasi Gozalo-Salellas, and Gabriela Balcarce. The chapters included foreground the conceptual diversity of the field, in

dialogue with issues in literary and visual culture, (post-)colonialism, race, nationalism, gender, and class. Not only do they place vernacular objects in dialogue with current international concepts and methods, but these essays also aim to advance an autonomous conceptual and theoretical work-based approach. Its chapters aspire to enter a global discussion around the state-centered aspiration to shape culture and the many literary and cultural practices that escape it; researchers of those issues and Latin American and Iberian studies will find new venues to rethink their global archive.

Most cross-border advertising occurs

uncontroversially. However, because international advertising activity falls under so many diverse areas of law, some familiarity with the dense web of legislation, regulation, and case law that may effect its use is essential for all advertisers. This well-known book, now in a fully updated third edition, provides all the necessary information in an easy-to-use country-by-country format. Twenty-six country reports, each by a local expert, provide detailed information on the particular legal environment in each country vis-à-vis advertising, including specific effects of all relevant treaties and trade agreements. Among the issues and topics taken into account are the following: · effect of import restrictions on advertising; · use of price

comparisons in advertising; · ‘cold calling’; · consumers’ right to dispute resolution; · ‘blacklisted’ practices; · use of a language other than that of the target country; · special rules for agricultural products; · principles of non-discrimination and equal treatment of nationals; · precautionary principle versus risk principle; · protection of trademarks; · false or deceptive indication of source; · product ‘placement’ in non-advertising communications; · respectful interaction with religious, cultural, and social values; and · when a statement may be deemed ‘misleading’. Because the freedom to market a product simultaneously in several countries is a significant economic benefit, the invaluable information and guidance in this book on

what is legally possible in a broad range of countries will be enormously beneficial to firms in all fields that engage in the sale and marketing of products or services. Corporate counsel and marketing directors will warmly welcome this new edition of a proven handbook. "

*In the Shadow of Vitoria: A History of International Law in Spain (1770-1953)* offers the first comprehensive treatment of the intellectual evolution of international law in Spain from the late 18th century to the aftermath of the Spanish Civil War. Ignacio de la Rasilla del Moral recounts the history of the two ‘renaissances’ of Francisco de Vitoria and the Spanish Classics of International

Law and contextualizes the ideological glorification of the Salamanca School by Franco's international lawyers. Historical excursions on the intellectual evolution of international law in the US and the UK complement the neglected history of international law in Spain from the first empire in history on which the sun never set to a diminished and fascistized national-Catholicist state.

In the current European dilemma as to whether to increase diversity policies or move towards an assimilationist policy, it is difficult to know what the Spanish approach is. This book argues that Spain represents a context of "multiple diversity", where two frameworks interact: an old, unresolved one, arising from democratic transition, and a new

one due to immigration. This explains the Spanish practical approach, where the recent past plays the role of an iron cage, limiting institutional innovation and change. The author proposes a heuristic model, to better understand the “Spanish laboratory of diversities”. In order to go through these steps, the author analyses three case studies, coming from the political/social agenda: education, workplace, and political rights. At the end, the reader will have an empirically informed and theoretically founded overview on how Spain is managing diversity. This book is timely for a wide range of academic and professional readers.

This edited volume brings together well-established and emerging scholars of transitional justice to discuss the persistence of amnesty in the age of human rights accountability. The volume attempts to reframe debates, moving beyond the limited approaches of 'truth versus justice' or 'stability versus accountability' in which many of these issues have been cast in the existing scholarship. The theoretical and empirical contributions in this book offer new ways of understanding and tackling the enduring persistence of amnesty in the age of accountability. In addition to cross-national studies, the volume encompasses eleven country cases of amnesty for past human rights violations: Argentina, Brazil, Cambodia, El Salvador, Guatemala, Indonesia,

Rwanda, South Africa, Spain, Uganda and Uruguay. The volume goes beyond merely describing these case studies, but also considers what we learn from them in terms of overcoming impunity and promoting accountability to contribute to improvements in human rights and democracy.

Clear and informal, Examples & Explanations for Conflict of Laws, Fifth Edition, covers all topics in Conflicts courses, including personal jurisdiction and the Erie doctrine. It explains traditional and modern approaches and discusses constitutional limits on choice of law. Big-picture overviews and accurate statements of rules are reinforced with concrete examples and

test-taking tips. The powerful Examples & Explanations pedagogy works especially well for Conflict of Laws where students gain understanding of rules and policies by applying them to new fact patterns. Summaries of leading cases found in most casebooks and a modular organization allows easy adaptation to any course. The Fifth Edition adds three new Supreme Court decisions that change the law in three key areas. It eliminates one case that the Supreme Court has overruled. It provides more examples and illustrations to clarify the scope of decisions. It adds an entirely new chapter on the proposed Third Restatement of Choice of Law that is now being studied in some Conflicts courses. And it offers a helpful summary of the controversial anti-foreign law

statutes that a dozen states have enacted.
