Whye presents 112 full-color photographs of this bustling city nestled in the heartland of America. The images convey Omaha's unmistakable cityscapes, large and small, as well as the surrounding fertile agricultural lands. Old-timers and newcomers will see Omaha in original ways, as Whye's photographs convey clear impressions of distinct neighborhoods, public spaces, and fabulous architecture found throughout the city. Festively lit downtown street scenes are counterbalanced by tranquil farmlands. Stunning sunsets share the pages with rich interiors. Photos of throngs of happy, celebrating Omahans are offset by close-ups of the serene greenery found in a quiet nature preserve. A warm, lively foreword by the photographer sets the stage. Informative captions complement the

photographs throughout the book, providing enough detail that even casual readers will learn something of Omaha's fascinating history and contemporary culture while simply browsing through the photos. Omaha Impressions is a bright, inclusive, and affectionate tribute to the city. Visitors and locals alike will cherish this fine book of photography. Chihuly Farcountry Press Whether they're threading a barrel or shredding a swell, these amazing women are making enormous waves in the world of surfing. If you thought surfing was a male-dominated sport, think again. The thirty women surfers profiled in this thrilling collection can rip a wave with the best of them. Hailing from all over the world, each surfer is featured in spectacular photography and with their own inspirational words. There's American professional surfer Lindsay Steinriede on how her father's death has inspired her career; French board shaper Valerie Duprat on how she got her start "sculpting foam"; Conchita Rossler, founder of Moana Retreat in Portugal, on connecting mind, body,

and spirit; and Australian photographer Cait Miers on empowering women. You'll also meet surfers who are over sixty, who surf while pregnant, who captain boats, teach yoga, and make movies. Breathtaking photography captures these women from every angle, on and off the waves, in some of the world's most visually stunning locations. The perfect gift for surfing enthusiasts, this unique compilation of stunning pictures and hard-won wisdom proves that the thrill of catching a wave, riding it, and kicking out belongs to everyone.

This volume of essays examines the ways in which magical practices are found in different aspects of contemporary capitalist societies. From contract law to science, by way of finance, business, marketing, advertising, cultural production, and the political economy in general, each chapter argues that the kind of magic studied by anthropologists in less developed societies – shamanism, sorcery, enchantment, the occult – is not only alive and well, but flourishing in the midst of so-called 'modernity'. Modern day magicians range from fashion designers and

architects to Donald Trump and George Soros. Magical rites take place in the form of political summits, the transformation of products into brands through advertising campaigns, and the biannual fashion collections shown in New York, London, Milan and Paris. Magical language, in the form of magical spells, is used by everyone, from media to marketers and all others devoted to the art of 'spin'. While magic may appear to be opposed to systems of rational economic thought, Moeran and Malefyt highlight the ways it may in fact be an accomplice to it.

George Simling has grown up in the city-state of Illyria, an enclave of logic and reason founded as a refuge from the Reaction, a wave of religious fundamentalism that swept away the nations of the twenty-first century. Yet to George, Illyria's militant rationalism is as stifling as the faith-based superstition that dominates the world outside its walls. For George has fallen in love with Lucy. A prostitute. A robot. She might be a machine, but the semblance of life is perfect. To the city authorities, robot sentience is a malfunction, curable by erasing and resetting silicon minds. But George knows that Lucy is something more. His only alternative is to flee Illyria, taking Lucy deep into the religious Outlands where she must pass as human because robots are seen as mockeries of God, burned at the stake, dismembered, crucified. Their odyssey leads them through betrayal, war and

madness, ending only at the monastery of the Holy Machine...
