MORENO BRIANA**The End of Poverty** Heinemann

Heterosexual Africa? The History of an Idea from the Age of Exploration to the Age of AIDS builds from Marc Epprecht's previous book, Hungochani (which focuses explicitly on same-sex desire in southern Africa), to explore the historical processes by which a singular, heterosexual identity for Africa was constructed—by anthropologists, ethnopsychologists, colonial officials, African elites, and most recently, health care workers seeking to address the HIV/AIDS pandemic. This is an eloquently written, accessible book, based on a rich and diverse range of sources, that will find enthusiastic audiences in classrooms and in the general public. Epprecht argues that Africans, just like people all over the world, have always had a range of sexualities and sexual identities. Over the course of the last two centuries, however, African societies south of the Sahara have come to be viewed as singularly heterosexual. Epprecht carefully traces the many routes by which this singularity, this heteronormativity, became a dominant culture. In telling a fascinating story that will surely generate lively debate, Epprecht makes his project speak to a range of literatures—queer theory, the new imperial history, African social history, queer and women's studies, and biomedical literature on the HIV/AIDS pandemic. He does this with a light enough hand that his story is not bogged down by endless references to particular debates. Heterosexual Africa? aims to understand an enduring stereotype about Africa and Africans. It asks how Africa came to be defined as a "homosexual-free zone" during the colonial era, and how this idea not only survived the transition to independence but flourished under conditions of globalization and early panicky responses to HIV/AIDS.

Global rivalry and resistance Wits University Press

Kwame Nkrumah **NEO-COLONIALISM THE LAST STAGE OF IMPERIALISM** This is the book which, when first published in 1965, caused such an uproar in the US State Department that a sharp note of protest was sent to Kwame Nkrumah and the \$25million of American "aid" to Ghana was promptly cancelled.

African States Since Independence Buffalo, N.Y. : Prometheus Books

Across 800 years, the Romans established and maintained a

Mediterranean-wide empire from Spain to Syria and from the North Sea to North Africa. This study analyzes the debate over Roman imperialism from ancient times to the present.

The Significance of the Frontier in American History United States Government Printing

A selection of the best African stories written between 1960 and 1985.

Indigenous Knowledge and the Integration of Knowledge Systems Cambridge University Press

"Book and man are brilliant, passionate, optimistic and impatient . . . Outstanding." —The Economist

The landmark exploration of economic prosperity and how the world can escape from extreme poverty for the world's poorest citizens, from one of the world's most renowned economists Hailed by Time as one of the world's hundred most influential people, Jeffrey D. Sachs is renowned for his work around the globe advising economies in crisis. Now a classic of its genre, *The End of Poverty* distills more than thirty years of experience to offer a uniquely informed vision of the steps that can transform impoverished countries into prosperous ones. Marrying vivid storytelling with rigorous analysis, Sachs lays out a clear conceptual map of the world economy. Explaining his own work in Bolivia, Russia, India, China, and Africa, he offers an integrated set of solutions to the interwoven economic, political, environmental, and social problems that challenge the world's poorest countries. Ten years after its initial publication, *The End of Poverty* remains an indispensable and influential work. In this 10th anniversary edition, Sachs presents an extensive new foreword assessing the progress of the past decade, the work that remains to be done, and how each of us can help. He also looks ahead across the next fifteen years to 2030, the United Nations' target date for ending extreme poverty, offering new insights and recommendations.

Inequality in a Rapidly Changing World Yale University Press

Challenges the mainstream understanding of BRICS and US dominance to situate the new global rivalries engulfing capitalism BRICS is a grouping of the five major emerging economies of Brazil, Russia, India, China and South Africa. Volume five in the Democratic Marxism series, *BRICS and the New American Imperialism* challenges the mainstream understanding of BRICS and US dominance to situate the new global rivalries engulfing capitalism. It offers novel analyses of BRICS in the context of

increasing US induced imperial chaos, deepening environmental crisis tendencies (such as climate change and water scarcity), contradictory dynamics inside BRICS countries and growing subaltern resistance. The authors revisit contemporary thinking on imperialism and anti-imperialism, drawing on the work of Rosa Luxemburg, one of the leading theorists after Marx, who attempted to understand the expansionary nature of capitalism from the heartlands to the peripheries. The richness of Luxemburg's pioneering work inspires most of the volume's contributors in their analyses of the dangerous contradictions of the contemporary world as well as forms of democratic agency advancing resistance. While various forms of resistance are highlighted, among them water protests, mass worker strikes, anti-corporate campaigning and forms of cultural critique, this volume grapples with the challenge of renewing anti-imperialism beyond the NGO-driven World Social Forum and considers the prospects of a new horizontal political vessel to build global convergence. It also explores the prospects of a Fifth International of Peoples and Workers.

Rethinking Diplomacy with the Postcolonial World AK Press

This practical resource shows you how to apply Sam Wineburgs highly acclaimed approach to teaching, "Reading Like a Historian," in your middle and high school classroom to increase academic literacy and spark students curiosity. Chapters cover key moments in American history, beginning with exploration and colonization and ending with the Cuban Missile Crisis.

Re-Inventing Africa's Development Univ of California Press

This handbook fills a large gap in the current knowledge about the critical role of Africa in the changing global order. By connecting the past, present, and future in a continuum that shows the paradox of existence for over one billion people, the book underlines the centrality of the African continent to global knowledge production, the global economy, global security, and global creativity. Bringing together perspectives from top Africa scholars, it actively dispels myths of the continent as just a passive recipient of external influences, presenting instead an image of an active global agent that astutely projects soft power. Unlike previous handbooks, this book offers an eclectic mix of historical, contemporary, and interdisciplinary approaches that allow for a more holistic view of the many aspects of Africa's relations with the world.

Pre-Incident Indicators of Terrorist Incidents Brookings Institution Press

North Korea's opaqueness combined with its military capabilities make the country and its leader dangerous wild cards in the international community. Brookings Senior Fellow Jung H. Pak, who led the U.S. intelligence community's analysis on Korean issues, tells the story of North Korean leader Kim Jong-un's upbringing, provides insight on his decision-making, and makes recommendations on how to thwart Kim's ambitions. In her deep analysis of the personality of the North Korean leader, Pak makes clearer the reasoning behind the way he governs and conducts his foreign affairs.

Roman Imperialism DIANE Publishing

"Harsha Walia has played a central role in building some of North America's most innovative, diverse, and effective new movements. That this brilliant organizer and theorist has found time to share her wisdom in this book is a tremendous gift to us all."—Naomi Klein, author of *The Shock Doctrine* *Undoing Border Imperialism* combines academic discourse, lived experiences of displacement, and movement-based practices into an exciting new book. By reformulating immigrant rights movements within a transnational analysis of capitalism, labor exploitation, settler colonialism, state building, and racialized empire, it provides the alternative conceptual frameworks of border imperialism and decolonization. Drawing on the author's experiences in *No One Is Illegal*, this work offers relevant insights for all social movement organizers on effective strategies to overcome the barriers and borders within movements in order to cultivate fierce, loving, and sustainable communities of resistance striving toward liberation. The author grounds the book in collective vision, with short contributions from over twenty organizers and writers from across North America. Harsha Walia is a South Asian activist, writer, and popular educator rooted in emancipatory movements and communities for over a decade. Praise for *Undoing Border Imperialism*: "Border imperialism is an apt conceptualization for capturing the politics of massive displacement due to capitalist neoglobalization. Within the wealthy countries, Canada's *No One Is Illegal* is one of the most effective organizations of migrants and allies. Walia is an outstanding organizer who has done a lot of thinking and can write—not a common combination. Besides being brilliantly conceived and presented, this book is the first

extended work on immigration that refuses to make First Nations sovereignty invisible."—Roxanne Dunbar Ortiz, author of *Indians of the Americas* and *Blood on the Border* "Harsha Walia's *Undoing Border Imperialism* demonstrates that geography has certainly not ended, and nor has the urge for people to stretch out our arms across borders to create our communities. One of the most rewarding things about this book is its capaciousness—astute insights that emerge out of careful organizing linked to the voices of a generation of strugglers, trying to find their own analysis to build their own movements to make this world our own. This is both a manual and a memoir, a guide to the world and a guide to the organizer's heart."—Vijay Prashad, author of *The Darker Nations: A People's History of the Third World* "This book belongs in every wannabe revolutionary's war backpack. I addictively jumped all over its contents: a radical mixtape of ancestral wisdoms to present-day grounded organizers theorizing about their own experiences. A must for me is Walia's decision to infuse this volume's fight against border imperialism, white supremacy, and empire with the vulnerability of her own personal narrative. This book is a breath of fresh air and offers an urgently needed movement-based praxis. *Undoing Border Imperialism* is too hot to be sitting on bookshelves; it will help make the revolution."—Ashanti Alston, Black Panther elder and former political prisoner

Two Centuries of US Military Operations in Liberia Africa Research and Publications

The adventures and misadventures of a young Nigerian negro in the British colonial civil service. A temporary clerk, still on probation, Mr Johnson has been in Fada, Nigeria, for six months and is already much in debt. Undaunted, he entertains on the grandest scale, with drums and smuggled gin. Not only that, he intends to pay a small fortune for his wife...

The Map of Africa by Treaty ... Penguin UK

This hugely influential work marked a turning point in US history and culture, arguing that the nation's expansion into the Great West was directly linked to its unique spirit: a rugged individualism forged at the juncture between civilization and wilderness, which – for better or worse – lies at the heart of American identity today. Throughout history, some books have changed the world. They have transformed the way we see ourselves – and each other. They have inspired debate, dissent,

war and revolution. They have enlightened, outraged, provoked and comforted. They have enriched lives – and destroyed them. Now Penguin brings you the works of the great thinkers, pioneers, radicals and visionaries whose ideas shook civilization and helped make us who we are.

France in Black Africa Vintage

A Story of Dr. Livingstone's Travels in Africa in search of the Source of the Nile. The Zambesi and its Tributaries were explored by this intrepid Adventurer.

The Identification of Behavioral, Geographic and Temporal Patterns of Preparatory Conduct Penguin

This book explores the role of the social and natural sciences in supporting the development of indigenous knowledge systems. It looks at how indigenous knowledge systems can impact on the transformation of knowledge generating institutions such as scientific and higher education institutions on the one hand, and the policy domain on the other.

Dr. Livingstone I Presume Oxford University Press

When, in 1960, France granted independence to its colonies in West and Central Africa—an empire covering an area the size of the contiguous United States—the French still intended to retain influence in Africa. Through a system of accords with these newly independent African nations, based upon ties naturally formed over the colonial years, France has succeeded for three decades in preserving its position in African affairs. The course of Franco-African relations in the near future, though, is less than certain. In this book, Ambassador Francis Terry McNamara outlines France's acquisition and administration of its Black African empire and traces the former colonies' paths to independence. Drawing upon that background, the ambassador examines the structure of post-independence Franco-African relations and recent strains on those relations, especially African economic crises and the French tendency to focus on Europe. Because of those strains, he suggests, France alone may be unable to support its former dependencies much longer. He believes that long-term solutions to African problems will have to involve international organizations like the World Bank and International Monetary Fund as well as other nations such as the United States and France's European partners. -- From Foreword.

High School United Nations

This book re-presents the poetry of Rudyard Kipling in the form of

bold slogans, the better for us to reappraise the meaning and import of his words and his art. Each line or phrase is thrust at the reader in a manner that may be inspirational or controversial... it is for the modern consumer of this recontextualization to decide. They are words to provoke: to action. To inspire. To recite. To revile. To reconcile or reconsider the legacy and benefits of colonialism. Compiled and presented by sloganist Dick Robinson, three poems are included, complete and uncut: 'White Man's Burden', 'Fuzzy-Wuzzy' and 'If'.

The Decolonization of Africa The Map of Africa by Treaty ...The African-American MosaicA Library of Congress Resource Guide for the Study of Black History and Culture

Authors Christensen and Laitin argue that an interplay of geographic, historical, and demographic factors undergird sub-Saharan states' post-independence struggles to eradicate poverty, establish democratic accountability, and quell civil unrest. They set out the founding fathers' challenges in transforming their postcolonial states, many of which are ethnically diverse, geographically diffuse, sparsely populated, and

lacking in administrative capacity. With the legacies of the slave trade, partition, Christian missionaries, and extractive colonial institutions complicating their efforts, many African states faced stagnation, authoritarianism, and civil strife. Recent years have seen promising attempts to restore democracy to states under authoritarian rule and to liberalize their economies, suggesting that the region is moving toward a new era. Relying on the best statistical data and richly illustrated with case material, this book is an indispensable source for scholars and policy analysts seeking to understand Africa's post-independence political trajectories.

Reading Like a Historian Monthly Review Press

A fascinating study of the important role of biology in European expansion, from 900 to 1900.

Linking Africa to the Korean Development Model Springer Nature

The book that inspired the major new motion picture *Mandela: Long Walk to Freedom*. Nelson Mandela is one of the great moral

and political leaders of our time: an international hero whose lifelong dedication to the fight against racial oppression in South

Africa won him the Nobel Peace Prize and the presidency of his country. Since his triumphant release in 1990 from more than a quarter-century of imprisonment, Mandela has been at the center of the most compelling and inspiring political drama in the world. As president of the African National Congress and head of South Africa's antiapartheid movement, he was instrumental in moving the nation toward multiracial government and majority rule. He is revered everywhere as a vital force in the fight for human rights and racial equality. *LONG WALK TO FREEDOM* is his moving and exhilarating autobiography, destined to take its place among the finest memoirs of history's greatest figures. Here for the first time, Nelson Rolihlahla Mandela tells the extraordinary story of his life--an epic of struggle, setback, renewed hope, and ultimate triumph.
