Men of Letters in the Early Republic Good Press
 From the New York Times bestselling author of *The Romanovs*—and one of our pre-eminent historians and a prizewinning writer—an outstanding selection of great letters from ancient times to the 21st century, touching on power, love, art, sex, faith, and war. *Written in History: Letters that Changed the World* celebrates the great letters of world history, and cultural and personal life. Bestselling, prizewinning historian Simon Sebag Montefiore selects letters that have changed the course of global events or touched a timeless emotion—whether passion, rage, humor—from ancient times to the twenty-first century. Some are noble and inspiring, some despicable and unsettling, some are exquisite works of literature, others brutal, coarse, and frankly outrageous, many are erotic, others heartbreaking. It is a surprising and eclectic selection, from the four corners of the world, filled with extraordinary women and men, from ancient times to now. Truly a choice of letters for our own times encompassing love letters to calls for liberation to declarations of war to reflections on life and death. The writers

vary from Elizabeth I and Catherine the Great to Mandela, Stalin and Picasso, Fanny Burney and Emily Pankhurst to Ada Lovelace and Rosa Parks, Oscar Wilde, Chekhov and Pushkin to Balzac, Mozart and Michelangelo, Hitler, Rameses the Great and Alexander Hamilton to Augustus and Churchill, Lincoln, Donald Trump and Suleiman the Magnificent. In a book that is a perfect gift, here is a window on astonishing characters, seminal events, and unforgettable words. In the colorful, accessible style of a master storyteller, Montefiore shows why these letters are essential reading and how they can unveil and enlighten the past—and enrich the way we live now.

Queen Elizabeth I (1533-1603) ruled England for 45 turbulent years, and her reign has come to be seen as a golden age. She exercised supreme authority in a man's world, while remaining intensely feminine. She was Gloriana, the Virgin Queen, but is also held up as a role model for company executives in the twenty-first century. She is a near-legendary figure from a remote past who remains fascinatingly modern. This handsome volume has been published to commemorate the 400th anniversary of Elizabeth I's death in 1603. It illustrates in color and, where possible, in actual size, sixty manuscripts--either by Elizabeth or to her. Each one is accompanied by a running commentary, explaining the document and placing it in its historical context, and selected transcriptions or, where necessary, translations from the originals. Elizabeth was a girl of extraordinary precocity and a brilliant linguist. Her early letters, written in a beautiful italic, are to her forbidding father, Henry VIII, and to her brother and sister, Edward VI and "Bloody" Mary. The very first letter dates from when she was a child of eleven. The last, written nearly 60 years later, is a barely-legible scrawl addressed to her successor, the future James I. The letters from her in-tray are no less extraordinary. Tsar Ivan the Terrible rounds on her in a blind fury after she refuses to marry him. The Earl of Essex, young enough to be her son, pours out declarations of love: a few pages further on is to be found her signed warrant for his execution. There are letters from ministers and galley slaves, spies and traitors, coded letters, warrants for torture, speeches to parliament, and the original--only recently identified--of the most famous of all her utterances: "I know I have the body but of a weak and feeble woman, but I have the heart and stomach of a king."

Writings of Catherine of Siena (Annotated) Paulist Press

The letters of Catherine Benincasa, commonly known as St. Catherine of Siena, have become an Italian classic yet perhaps the first thing in them to strike a reader is their unliterary character. He only will value them who cares to overhear the

impetuous outpourings of the heart and mind of an unlettered daughter of the people, who was also, as it happened, a genius and a saint. Dante, Petrarch, Boccaccio, the other great writers of the Trecento, are all in one way or another intent on choice expression; Catherine is intent solely on driving home what she has to say. Her letters were talked rather than written. She learned to write only three years before her death, and even after this time was in the habit of dictating her correspondence, sometimes two or three letters at a time, to the noble youths who served her as secretaries.

Angelina Emily Grimké's 'Letters to Catherine E. Beecher' is a collection of insightful and powerful correspondences between two prominent women in the 19th century. Grimké, known for her abolitionist and feminist beliefs, uses her eloquent literary style to challenge Beecher's conservative views on gender roles and women's rights. The letters provide a fascinating look into the mindset of two influential figures during a transformative period in American history, making it a valuable resource for scholars of feminist literature and social movements. Grimké's strong arguments and passionate language create a compelling narrative that resonates with readers to this day.

The Correspondence of Catherine McAuley, 1818-1841 Cornell University Press

'Your Majesty may find it extraordinary that I should answer with a shipment of fruit your letter of 6 August, in which you inform me that you are sending the plan for a treaty, and that of the 8 September, in which you are so good as to share with me equally important intelligence. Things big and small often come from the same source: my watermelons derive from the same principles as our planned alliance...' (To Frederick the Great) Catherine the Great's letters present a vivid picture of Russia in a momentous age. They also offer a unique account of her personal development and intimate life, her strategic acumen as a diplomat and military commander, and her political skills at the Russian court and in handling foreign monarchs. Born a German princess, Catherine married into the Russian royal family and came to the throne after a coup. As absolute ruler for 34 years she presided over the expansion of the Russian empire, legislated actively to reform the country in keeping with the principles of the Enlightenment, actively promoted the arts and sciences, and in her correspondence engaged with the most renowned minds in Europe, among them Diderot and Voltaire. Her letters are her literary masterpiece, written to a wide circle of associates and friends, not least her most celebrated lover and ally, Potemkin. Combining her wit, charm, and quick eye for detail, they entertain and tell the gripping story of a self-made woman and legendary ruler. This edition of the letters offers a taste of Catherine's entire writing career, with biographies of Catherine's addressees, a thorough overview of her reign and an analysis of Catherine's literary skill as a letter-writer. Organized chronologically and thematically into six periods, each section also features an introduction to the domestic, personal and foreign policy contexts out of which her letters emerge.

Poetry. Atmospherically light and stylistically expansive--poems that regard our givens as a gift. At the centre of THE LOST LETTERS is a sequence of radically diverse poems based on the story of Heloise and Abelard, truly lovers in a dangerous time, the twelfth century. The raw material is heavy, tension between flesh

and spirit being the serious issue carried forward from the twelfth century into the twenty-first. But Greenwood's deft and delicate handling of scenarios of love requited but balked becomes a perceptive reading--extraordinarily inventive and constantly surprising--of contemporary secular society.

An Essay on Slavery and Abolitionism Tredition Classics

The "world of letters" has always seemed a matter more of metaphor than of global reality. In this book, Pascale Casanova shows us the state of world literature behind the stylistic refinements--a world of letters relatively independent from economic and political realms, and in which language systems, aesthetic orders, and genres struggle for dominance. Rejecting facile talk of globalization, with its suggestion of a happy literary "melting pot," Casanova exposes an emerging regime of inequality in the world of letters, where minor languages and literatures are subject to the invisible but implacable violence of

their dominant counterparts. Inspired by the writings of Fernand Braudel and Pierre Bourdieu, this ambitious book develops the first systematic model for understanding the production, circulation, and valuing of literature worldwide. Casanova proposes a baseline from which we might measure the newness and modernity of the world of letters--the literary equivalent of the meridian at Greenwich. She argues for the importance of literary capital and its role in giving value and legitimacy to nations in their incessant struggle for international power. Within her overarching theory, Casanova locates three main periods in the genesis of world literature--Latin, French, and German--and closely examines three towering figures in the world republic of letters--Kafka, Joyce, and Faulkner. Her work provides a rich and surprising view of the political struggles of our modern world--one framed by sites of publication, circulation, translation, and efforts at literary annexation.

Although Catherine of Siena was proclaimed a Doctor of the Church in 1970, relatively little attention has been given to her mystical thought, particularly in the English-speaking world. *The Dialogue*, the famous compendium of her mature thought, is difficult to understand owing to its interruptions, repetitions, overlapping arguments, imagery and undefined terms. Thomas McDermott breaks new ground in his systematic presentation of Catherine's teachings. Drawing on the *Dialogue* and also on Catherine's 381 letters and prayers, he explains clearly her principal teachings in relation to spiritual development, and identifies Catherine's possible sources as well as her areas of originality. By examining Catherine's life and mystical experiences, McDermott shows how she herself grew spiritually and how her growth corresponds to her later teaching on the "three stairs" on the "bridge of Christ crucified." Finally, the author puts forward what he regards as the fundamental message of Catherine's life and teaching. Students of mysticism and spirituality will find this book a trustworthy guide through the incredibly rich mysticism of one of the 14th century's most amazing women.
