Nous sommes en septembre 1870. Suite  
à la défaite de Sedan, Napoléon III est  
déchu, la République est proclamée, le  
gouvernement part à Tours, les  
prussiens arrivent près de Paris dont ils  
entreprennent le siège. C'est dans ce  
cadre que la famille de St Senier va se  
trouver confrontée aux agissements  
frauduleux de la bande Valnoir-Taupier:  
Journaliste de peu de scrupules et ayant  
des ambitions politiques, Valnoir a  
outragé Louis de St Senier dans son  
journal, «Le serpenteau». Un duel au  
pistolet a lieu dans la forêt de  
St-Germain. Taupier, journaliste bossu,  
témoin de Valnoir, réussit à escamoter la  
balle du pistolet de St Senier qui, en  
conséquence, trouve la mort sous les  
yeux de Roger de St Senier son cousin  
germain et amoureux de sa cousine  
Renée de St Senier. Une petite troupe de  
saltimbanques constituée du colosse  
Pilevert, du paillasse Alcindor et de  
Régine, tireuse de cartes sourde et  
muette, se trouve, par hasard, à assister  
au duel. Sont réunis dans cette clairière,  
la majorité des protagonistes de ces  
aventures...

Certain images of Paris have become

icons for the left, but the Paris of the  
right has received far less attention. This  
groundbreaking collection of essays  
examines the relationship between Paris  
and the right in the twentieth century,  
exploring how political leaders and  
parties have depicted and controlled the  
streets, people and history of Paris, and  
how the city has been both context and  
inspiration for journalists and novelists of  
the right. The first part focuses on the  
relationship between the right, the street  
and the people, and describes some of  
the most contentious political  
movements in recent French history,  
from the anti-parliamentary leagues of  
the Belle Époque to the contemporary  
Front National. The second part  
examines the importance of Paris for de  
Gaulle and his successors in their  
exercise of authority and control,  
whether in the media, the streets, or  
municipal politics. Lastly, the book  
explores the Paris imagined and  
experienced by right-wing novelists from  
Charles Maurras to the post-war  
"Hussards", mapping out an intellectual  
topography and emphasising the  
tensions between a real and imaginary  
city. A Franco-British collaboration  
spanning history, literary studies and  
political science, this volume offers an  
original contribution to the political  
geography, culture and symbolism of the  
French capital.

David Pryce-Jones believes that France  
has done more damage to the Middle  
East than any other country. France  
encouraged the mass immigration of  
Arabs and that huge and growing  
minority in the country now believes that  
it has rights and claims which have not

been met. This minority also believes that Israel should not exist. Middle East geo-politics are spreading from French soil to an increasingly Islamized Europe.

The 'city view' forms the jumping off point for this innovative study, which explores how the concept of the city relates to the idea of the self in early modern French narratives. At a time when print culture, cartography and literature emerged and developed together, the 'city view', a picture or topographic image of a city, became one of the most distinctive and popular products of the early modern period. Through a construct she calls 'urban poetics', Elisabeth Hodges draws out the relationship between the city and the self, showing the impact of the city in cultural production to be so profound that it cannot be extricated from what we know by the name of 'subjectivity'. Each chapter of the book brings focus to a crucial text that features descriptions of the self in the city (by the writers Villon, Corrozet, Scève, and Montaigne) and investigate how representations of urban experience prepared the way for the emergence of the autonomous subject. Charting a course between cartography, literary studies, and cultural history, this study opens new vistas on some of the period's defining problems: the book, the subject, the city.

National Approaches to the Governance of Historical Heritage Over Time BoD - Books on Demand

The five elements - governmental

authorities, public discourse, corporate and market interests, citizens' associations and international agencies - may help in figuring out the complex and challenging purpose of the research work presented in this volume which is nothing less than the history of the governance of cultural and natural heritage in eleven countries, from its outset to the present. Speaking about governance is challenging. The term has been vastly used and misused. But today, when the feverish popularity of the concept is probably in decline, we rest with one solid conviction at least: that social, economic, cultural and institutional processes are governed not only through government (be it national or local) with its legislative, administrative and jurisdictional mechanisms, but through a larger array of different actors and factors. These include schools and universities, citizens' associations, public opinion, economic corporations, non-governmental organizations, learned societies, unions, media, international agencies, clubs, consultants etc. In fact, the reader is going to meet quite a few of these actors in this publication; they are the unavoidable characters involved in the story the authors have set out to tell.

In this magisterial narrative, Zara Steiner traces the twisted road to war that began with Hitler's assumption of power in Germany. Covering a wide geographical canvas, from America to the Far East, Steiner provides an indispensable reassessment of the most disputed events of these tumultuous years. Steiner underlines the far-reaching consequences of the Great Depression, which shifted the initiative in international affairs from those who

upheld the status quo to those who were intent on destroying it. In Europe, the 1930s were Hitler's years. He moved the major chess pieces on the board, forcing the others to respond. From the start, Steiner argues, he intended war, and he repeatedly gambled on Germany's future to acquire the necessary resources to fulfil his continental ambitions. Only war could have stopped him-an unwelcome message for most of Europe.

Misperception, miscomprehension, and misjudgment on the part of the other Great Powers leaders opened the way for Hitler's repeated diplomatic successes. It is ideology that distinguished the Hitler era from previous struggles for the mastery of Europe. Ideological presumptions created false images and raised barriers to understanding that even good intelligence could not penetrate. Only when the leaders of Britain and France realized the scale of Hitler's ambition, and the challenge Germany posed to their Great Power status, did they finally declare war. In this beautifully illustrated and closely argued book, a completely updated and much expanded third edition of his magisterial survey, Curl describes in lively and stimulating prose the numerous revivals of the Egyptian style from Antiquity to the present day.

Drawing on a wealth of sources, his pioneering and definitive work analyzes the remarkable and persistent influence of Ancient Egyptian culture on the West. The author deftly develops his argument that the civilization of Ancient Egypt is central, rather than peripheral, to the development of much of Western architecture, art, design, and religion. Curl examines: the persistence of Egyptian motifs in design from Graeco-Roman Antiquity, through the Medieval, Baroque, and Neo-Classical periods rise of Egyptology in the nineteenth and twentieth-century manifestations of Egyptianisms prompted by the discovery of Tutankhamun's tomb various aspects of Egyptianizing tendencies in the Art Deco style and afterwards. For students of art, architectural and ancient history, and those interested in western European culture generally, this book will be an inspiring and invaluable addition to the available literature.

Child of Paradise OUP Oxford

Defeat and Division launches a definitive new account of France in the Second World War. In this first volume, Douglas Porch dissects France's 1940 collapse, the dynamics of occupation, and the rise

of Charles de Gaulle's Free France crusade, culminating in the November 1942 Allied invasion of French North Africa. He captures the full sweep of France's wartime experience in Europe, Africa, and beyond, from soldiers and POWs to civilians-in-arms, colonial subjects, and foreign refugees. He recounts France's struggles to reconstruct military power within the context of a global conflict, with its armed forces shattered into warring factions and the country under Axis occupation. Disagreements over the causes of the 1940 debacle and the subsequent requirement for the armistice mirrored long-standing fractures in politics, society, and the French military itself, as efforts to reconstitute French military power crumbled into Vichy collaboration, De Gaulle's exile resistance, Alsace-Moselle occupation struggles, and a scuffle for imperial supremacy.

This new Handbook provides readers with the tools to understand the evolution of transatlantic security from the Cold War era to the early 21st century. After World War II, the US retained a strong presence as the dominant member of NATO throughout the Cold War. Former enemies, such as Germany, became close allies, while even countries that often criticized the United States made no serious attempt to break with Washington. This pattern of security co-operation continued after the end of the Cold War, with NATO expansion eastwards extending US influence. Despite the Iraq war prompting a seemingly irreparable transatlantic confrontation, the last years of the Bush administration witnessed a warming of US-European relations, expected to continue with the

Obama administration. The contributors address the following key questions arising from the history of transatlantic security relations: What lies behind the growing and continuing European dependency on security policy on the United States and what are the political consequences of this? Is this dependency likely to continue or will an independent European Common Foreign and Security Policy eventually emerge? What has been the impact of 'out-of-area' issues on transatlantic security cooperation? The essays in this Handbook cover a broad range of historical and contemporary themes, including the founding of NATO; the impact of the Korean War; the role of nuclear (non-)proliferation; perspectives of individual countries (especially France and Germany); the impact of culture, identity and representation in shaping post-Cold War transatlantic relations; institutional issues, particularly EU-NATO relations; the Middle East; and the legacy of the Cold War, notably tensions with Russia. This Handbook will be of much interest to students of transatlantic security, NATO, Cold War Studies, foreign policy and IR in general.

*Journal de Paris*

Voici le XXe siècle ! Le socialisme, la République et la guerre. Ce volume couvre deux années décisives, de la fin 1905 à l'automne 1907. Tout se transforme en France et dans le monde. Face au gouvernement Clemenceau qui s'arc-boute sur la défense de l'ordre et fait un usage disproportionné de la force, Jaurès fait entendre les revendications

de justice des mineurs après la catastrophe de Courrières, des électriciens de Paris ou des vignerons du Midi, et même, fugitivement, des « suffragettes ». Il soutient les demandes de syndicalisation des fonctionnaires, instituteurs et postiers. Ces mouvements sociaux l'amènent à réfléchir sur le rôle de l'État, les moyens de la démocratie et les obligations de la République, alors que s'achève son long combat pour la réhabilitation du capitaine Dreyfus et que se met en place le nouveau régime de la Séparation des Églises et de l'État. Contre les dangers de guerre, il s'emploie à créer les conditions d'une politique d'action socialiste internationale tout en récusant l'antipatriotisme. Il combat le colonialisme et se dresse contre les expéditions au Maroc. Réflexions et actions nouvelles, qui l'amènent à débattre et parfois à se heurter avec ses anciens alliés républicains et radicaux, y compris ses anciens camarades Briand et Viviani, voire avec son affectueuse amie, la marquise Arconati-Visconti. L'édition, la présentation et l'annotation de ce volume sont dues à Vincent Duclert, chercheur au Centre d'études sociologiques et politiques Raymond Aron de l'EHESS, dont il est l'ancien directeur, et vice-président de la Société d'études jaurésiennes.
