NTA CUET UG 2022 Section 2 Domain Humanities Goyal Brothers Prakashan Motilal Banarsidass, Delhi motilalbanarsidass.com, info@mlbd.co.in The Matamata is a Vastusastra, i.e. a treatise on dwelling, and as such, it deals with all the facets of gods' and men's dwellings, from the choice of the site to the iconography of the temple walls. It contains numerous and precise descriptions of villages and towns as well as of temples, houses, mansions and palaces. It gives indications for the selection of proper orientation, correct dimensions, and appropriate materials. It intends to be a manual for the architect and a guidebook for the layman. Well thought of by traditional architects (sthapati-s) of South India, the treatise is of great interest at a time when technical traditions, in all fields, are being scrutinized for their possible modern application. The present bilingual edition prepared by Dr Bruno Dagens contains critically edited Sanskrit text which is an

improvement over the earlier edition by the same scholar and published as No.40 of Publications de L'Institut Francaisd' Indologie, Pondicherry. The English translation, also published earlier, has now been revised with copious notes. The usefulness of the edition has been further enhanced by adding an analytical table of contents and a comprehensive glossary. In the series of Kalamulasastra early texts on music, namely, Matralaksanam, Dattilam and Brhaddest, have been published. The medieval texts on music, especially, the Sribastamuktavali (No.3 in the series) and the Nartananirnaya (No.17 in the series), bring us up to the 15th and 16th centuries. In the case of architecture, despite the IGNCA's endeavour to publish portions of the Brhatsamhita, the Agni Purana and the Visnudharmottara-Purana, first, this has not been possible. Instead, our scholars were able to complete work first on a late but important text, namely, Silparatnakosa. We hope that the sections on architecture in the Brhatsamhita, the Agni Purana and the Visnudharmottara-Purana which predate the medieval texts, will be published soon, along with revised and re-edited texts of Manasollasa and

Aparajitaprccha. The Mayamatam is the fourteenth and fifteenth volume in the Kalamulasastra series of the Indira Gandhi National Centre for the Arts (IGNCA).

"A book that every householder should keep at home and study to improve his household" - Kamakoti Prasada Rao. Along with the writing on the forehead, the position of the planet and the house also contribute to a certain extent to the

survival of a human being. Planetary remedies have been prescribed since Vedic times to provide remedies for the problems caused by planets. Similarly, Vaastu Shastra provides practical instructions to remove the problems brought about by households and to live happily ever after. Earlier, Shri Gauru Tirupati Reddy Garu (Prodduthuru) from our region provided the books "Vastu Shastra Suktulu" and "Vastu Shastra Facts". Dr. Rasavihari Henry (Madanapalle) has published a century explaining the sayings of Vastu Shastra in the crown of "Vaastu Vammu Kaadu Vastavammu". It is in that context that Manyasri Kuntamukkala Subrahmanyam Naidu, who is currently a head of education, a trilingual expert, an astrologer, a great architect, and a retired teacher, has published a Vaastu shastra book titled "Digvijayam". In this book, the precious things related to the eight directions, which are divided into eight sections, are written in such a way that even a common man can understand them easily. Explaining how any home can have all the comforts if it has a proper Vaastu, after the rise of civilization, the supremacy of

the Rishyasrams has decreased a little and the changes in the modern systems have been explained and pointed out how necessary the architectural structures are even in the modern times. Direction - Antidirections Description, Direction sections are excellent with regular diagrams, and the description of best - worst (Uccha - Neecha) positions is very good. An explanation of the pros and cons of planetary influence on major directions is optional. In the eighth section, the Eight directions are given in full detail, and the practical aspects of science are explained in full detail. As this book is a useful book not only for scholars but also for common people, this book preaches the need for every householder to keep this book at home and study it and get all the benefits to improve their house. Writer Sri Kuntamukkala Subrahmanyam Naidu was my teacher. I studied Hindi with them along with other subjects and became proficient in that language as well. He worked as a dedicated Telugu Teacher at Giri Rao Theosophical High School and was a poet who knew the secrets of poetry and education. Their education services are commendable. The services rendered by 9

DIGVIJAYAM them to society in connection with those fields, who have studied extensively on the sciences of astrology, vastu are priceless. Born on 01-09-1951 to the late Sri Lakshmaiah Naidu and Mrs. Nagamma, who were natives of Diguvmagham village, Chittoor district, Mr. Subrahmanyam Naidu was educated at Sri Malayala Swami Oriental College affiliated to Erpedu Ashram and experienced depth in culture, science studies etc. Later settled in Madanapalle and organized community services. I offer my salutations to them, rejoicing at the privilege of being able to write four words on his great book.

This book talks about the fundamentals of domestic vastu. The word Vastu originated from the Sanskrit word "Vas" and the meaning of this word is to live life or to reside. The word "Vasu" originated from "Vas" and finally this word "Vastu" originated from "Vasu". Meaning of the word Vastu is a place where a person resides. The meaning of Shastra is a book which deals with the mysterious and systematic explanation of a subject, therefore the meaning of Vastushastra is a book related to the residence. The origin and anatomy of Vastushastra is based on the principle of the five elements of creation. As our body is also made up of

these five elements, if enough attention is paid to the incorporation of these five elements in the construction of a house then the people residing in the building shall reside happily. These five elements are- Earth, Water, Fire, Air and Space. Our universe also is made up of these five elements only. Therefore the saying goes - (Yatpindetatbramhande). God ( bhagwan) has given these five gifts to us- from (bha) bhumi (land), from (ga) gagan (sky, ether), from (va) vayuq (air), from (na) neer (water). God is represented by the symbol (Om). These five elements are present in this Om also. "Aa" is Agni (fire), "Au" is Jal (water), "Ma" is Vayu (air), " W " (ardhachandra) is Bhoomi (land) and "0" is Akash (ether, sky). Similarly the word Vastu also denotes these five elements. From "Va" Vayu (air), from "Aa" Agni (fire), from "Sa" "Srishti" Bhoomi (land), from "Ta" Tat means Akash (ether/ sky) and from "Au" Jal (water). These five elements also are represented by the five planets. 1. Earth is represented by Mars 2. Water is represented by Venus 3. Fire is represented by Sun 4. Air is represented by Saturn 5. Ether is represented by Jupiter. Similarly mind is controlled by

Moon. Intelligence is controlled by Mercury. Ego and arrogance is controlled by Rahu and moksha or spirituality by Ketu. Disbalance of these elements in the body produces ill health and disease. In a similar manner the disbalance of these elements in a house creates varied kind of troubles for the persons living in it. There are unlimited forces present in nature. Some of these forces influence us, for example the gravitational force of earth, the magnetic and electrical energy of the universe and the electromagnetic force present everywhere. These energies also exist in the constructed house and they continue influencing the electromagnetic force present in the human body. This produces the auspicious or inauspicious results. These results vary from place to place depending on the geographical location. For these reasons the results of vastu principles are not the same all over the world. They differ according to the longitude and latitude of the place. They also differ according to the horoscope of the person concerned. If man goes along with the flow of nature's energies, it produces good health, progress and prosperity. If he goes against the flow of

nature, he faces hurdles and obstructions everywhere. Hence it is utmost important and necessary for us to organize our lives

according to nature, only then we can live happily. Halayudha kosha says that, Vastu is that art of house construction, which

starts from Ishan kona etc and which protects the residents of the house from natural calamities and obstructions.
