In the same way that the transgender movement surmounted the gender binary, Ferrer defines how a parallel step can—and should—be taken with the relational style binary. This book offers the first systematic discussion of relationship modes beyond monogamy and polyamory, as well as introduces the notion of "relational freedom" as the capability to choose one's relational style free from biological, psychological, and sociocultural conditionings. To achieve these goals, Ferrer first discusses a number of critical categories—specifically, monoprude/polyphobia, and polypride/monophobia—that mediate the contemporary "mono-poly wars," that is, the predicament of mutual competition among monogamists and polyamorists. The ideological nature of these "mono-poly wars" is demonstrated through a review of available empirical literature on the psychological health and relationship quality of monogamous and polyamorous individuals and

couples. Then, after showing how monogamy and polyamory ultimately reinforce each other, Ferrer articulates three relational pathways to living in-between, through, and beyond the mono/poly binary: fluidity, hybridity, and transcendence. Moving beyond that binary opens a fuzzy, liminal, and multivocal relational space that Ferrer calls novogamy. In this groundbreaking book, readers will learn practical tools to not only transform jealousy, but also enhance their relational freedom while being aware of key issues of diversity and social justice. They will also learn novel criteria to evaluate the success of their intimate relationships, and be introduced to a transformed vision of romantic love beyond both monocentrism and emerging polynormativities.

Beyond Romance Touchstone

In a moment of recklessness, Gervase Tregarth, 6th Earl of Crowhurst, swears he'll marry the next eligible lady to cross his path. Cloistered at his ancestral castle in Cornwall, with nary a suitable woman for miles, he never expects he'll have to fulfill his pledge, at least not until the London Season begins. But then he meets his neighbor, the very appealing Madeline Gascoigne. Years of secret service to the Crown have taught Gervase the value of always having a loophole—there will be no wedding if he and Madeline are incompatible in any way. So he sets out to prove that they would make a most dreadful match . . . by luring her into his arms and, ultimately, his bed. From their very first kiss, Gervase discovers that the headstrong and independent Madeline is no meek country miss . . . and that the fire between them will burn long beyond that first seduction.

The Living Age Touchstone Books

The Love That Dare Not Speak Its Name... We do it in the dark. Under the sheets. With a penlight. We wear sunglasses and a baseball hat at the bookstore. We have a "special place" where we store them. Let's face it: Not many folks are willing to publicly admit they love romance novels. Meanwhile, romance continues to be the bestselling fiction genre. Ever. So what's with all the shame? Sarah Wendell and Candy Tan -- the creators of the wildly popular blog

Smart Bitches, Trashy Books -- have no shame! They look at the good, the bad, and the ugly in the world of romance novels and tackle the hard issues and questions: -- The heroine's irresistible Magic Hoo Hoo and the hero's untamable Wang of Mighty Lovin' -- Sexual trends. Simultaneous orgasms. Hymens. And is anal really the new oral? -- Romance novel cover requirements: man titty, camel toe, flowers, long hair, animals, and the O-face -- Are romance novels really candy-coated porn or vehicles by which we understand our sexual and gender politics? With insider advice for writing romances, fun games to discover your inner Viking warrior, and interviews with famous romance authors, Beyond Heaving Bosoms shows that while some romance novels are silly -- maybe even tawdry -- they can also be intelligent, savvy, feminist, and fabulous, just like their readers!

Does this statement have any meaning for you? If being wholesome is being holy then what is the Journey to it? In all the cultures of the world but Hinduism, there is no concept of rebirth. Only an Indian has to work for stopping his cycle of rebirths. Does liberation comes to all people but Indians automatically? Is it so that what is almost impossible to achieve for an Indian, is most certainty, available to all non-Indians? What is the life beyond love?

Beyond All Measure Sourcebooks, Inc.
This book aims to provide a better

understanding of convergence and non-convergence phenomena, such as divergence, from different theoretical perspectives. It brings together nine case studies that deal with contact between languages found in the Iberian Peninsula (Castilian, Catalan, Portuguese and Basque), between Spanish or Portuguese and another language (such as English), and between different varieties from Europe and other continents. The volume thus unites views from two fields that rarely interact: contact linguistics and dialectology. It discusses the mechanisms and consequences of language contact within the Ibero-Romance world, a geographical space characterised by a high rate of multilingual speakers and settings. The contributions deal with various combinations of convergence and divergence, for example between different varieties of the same language, language stability despite contact, as well as less studied aspects, such as the relation between language contact and second language acquisition, the linguistic landscape perspective of language contact, and divergence in linguistic identity construction.
