“In the heart of this world, the Lord of life, who loves us so much, is always present. He does not abandon us, he does not leave us alone, for he has united himself definitively to our earth, and his love constantly impels us to find new ways forward. Praise be to him!” – Pope Francis, *Laudato Si'* In his second encyclical, *Laudato Si'*: On the Care of Our Common Home, Pope Francis draws all Christians into a dialogue with every person on the planet about our common home. We as human beings are united by the concern for our planet, and every living thing that dwells on it, especially the poorest and most vulnerable. Pope Francis' letter joins the body of the Church's social and moral teaching, draws on the best scientific research, providing the foundation for “the ethical and spiritual itinerary that follows.” *Laudato Si'* outlines: The current state of our “common home” The Gospel message as seen through creation The human causes of the ecological crisis Ecology and the common good Pope Francis' call to action for each of us Our Sunday Visitor has included discussion questions, making it perfect for individual or group study, leading all Catholics and Christians into a deeper understanding of the importance of this teaching.

La Biblia en acción David C Cook

A compelling new novel that combines past and present in a riveting search for the source of the Book of Genesis itself. In her provocative second novel, Spanish author Julia Navarro takes readers on an exhilarating journey across centuries and continents, as an upstart archeologist and a murderous group of conspirators vie for a treasure that will rewrite history—an explosive account of the world's creation recorded millennia ago by a humble scribe onto the legendary Bible of Clay. Moving back and forth through time, from the tense months preceding the contemporary war in Iraq, to ancient Mesopotamia, to the atrocities of the last century, this tale of vengeance, obsession, and the wholesale plundering of the ancient world's most priceless treasures is populated by an

international cast of political opportunists, ruthless killers, and unsullied seekers of truth. The Bible of Clay is historical fiction at its richest, a sweeping saga that challenges at once both conventional geopolitics and the very foundations of modern religion.

In this groundbreaking work that sets apart fact and legend, authors Finkelstein and Silberman use significant archeological discoveries to provide historical information about biblical Israel and its neighbors. In this iconoclastic and provocative work, leading scholars Israel Finkelstein and Neil Asher Silberman draw on recent archaeological research to present a dramatically revised portrait of ancient Israel and its neighbors. They argue that crucial evidence (or a telling lack of evidence) at digs in Israel, Egypt, Jordan, and Lebanon suggests that many of the most famous stories in the Bible—the wanderings of the patriarchs, the Exodus from Egypt, Joshua's conquest of Canaan, and David and Solomon's vast empire—reflect the world of the later authors rather than actual historical facts. Challenging the fundamentalist readings of the scriptures and marshaling the latest archaeological evidence to support its new vision of ancient Israel, *The Bible Unearthed* offers a

fascinating and controversial perspective on when and why the Bible was written and why it possesses such great spiritual and emotional power today.
