The Unchained: Powerful Life Stories of Former Slaves

Good Press

The Ethos of Black Motherhood in America: Only White Women Get Pregnant examines the ethos of Black and white mothers in America's racialized society. Kimberly C. Harper argues that the current Black maternal health crisis is not a new one, but an existing one rooted in the disregard for Black wombs dating back to America's history with chattel slavery. Examining the reproductive laws that controlled the reproductive experiences of black women, Harper provides a fresh insight into the "bad black mother" trope that Black feminist scholars have theorized and argues that the controlling images of black motherhood are a creation of the American nation-state. In addition to a discussion of black motherhood, Harper also explores the image of white motherhood as the center of the landscape of motherhood. Scholars of communication, gender studies, women's studies, history, and race studies will find this book particularly useful. *White Slaves, African Masters* University Press of Florida

Good Press present to you the complete collection of hundreds of life stories, recorded interviews and incredible vivid testimonies of former slaves from the American southern states, including photos of the people being interviewed and their extraordinary narratives. After the end of Civil War in 1865, more than four million slaves were set free. There were several efforts to record the remembrances of the former slaves. The Federal Writers' Project was one such project by the United States federal government to support writers during the Great Depression by asking them to interview and record the myriad stories and experiences of slavery of former slaves. The resulting collection preserved hundreds of life stories from 17 U.S. states that would otherwise have been lost in din of modernity and America's eagerness to deliberately forget the blot on its recent past. Contents: Alabama Arkansas Florida Georgia Indiana Kansas Kentucky Maryland Mississippi Missouri North Carolina Ohio Oklahoma South Carolina Tennessee Texas Virginia

Crime And Punishment In American History Rowman & Littlefield

"The distinction among slaves is as marked, as the classes of society are in any aristocratic community. Some refusing to associate with others whom they deem to be beneath them, in point of character, color, condition, or the superior importance of their respective masters." Henry Bibb, fugitive slave, editor, and antislavery activist, stated this in his *Narrative of the Life and Adventures of Henry Bibb* (1849). In William L. Andrews's magisterial study of an entire generation of slave narrators, more than 60 mid-nineteenth-century narratives reveal how work, family, skills, and connections made for social and economic differences among the enslaved of the South. Slave narrators disclosed class-based reasons for violence that broke out between "impudent," "gentleman," and "lady" slaves and their resentful "mean masters." Andrews's far-reaching book shows that status and class played key roles in the self- and social awareness and in the processes of liberation portrayed in the narratives of the most celebrated fugitives from U.S. slavery, such as Frederick Douglass, Harriet Jacobs, William Wells Brown,

and William and Ellen Craft. *Slavery and Class in the American South* explains why social and economic distinctions developed and how they functioned among the enslaved. Noting that the majority of the slave narrators came from the higher echelons of the enslaved, Andrews also pays close attention to the narratives that have received the least notice from scholars, those from the most exploited class, the "field hands." By examining the lives of the most and least acclaimed heroes and heroines of the slave narrative, Andrews shows how the dividing edge of social class cut two ways, sometimes separating upper and lower strata of slaves to their enslavers' advantage, but at other times fueling pride, aspiration, and a sense of just deserts among some of the enslaved that could be satisfied by nothing less than complete freedom. The culmination of a career spent studying African American literature, this comprehensive study of the antebellum slave narrative offers a ground-breaking consideration of a unique genre of American literature.

The True Stories of American Slaves Oxford University Press, USA Eminent scholars provide an overview of what we now know about slavery as an institution and way of life in cultures around the globe from ancient times to the present day. Drawing on the virtual explosion of empirical research and theoretical discussion of the subject over the past thirty years, many of the articles overturn conventional wisdom and illuminate little-known aspects of the subject, with essays on topics such as concubinage, eunuchs, and occupational mobility.

Slave Patrols Penguin

This work documents the many roles filled by Southern blacks in the last decades of slavery, the Civil War years, and the following period of Reconstruction. African Americans suffered and resisted bondage in virtually every aspect of their lives, but persevered through centuries of brutality to their present place at the center of American life. Utilizing statements made by former slaves and other sources close to them, the author takes a close look at the culture and lifestyle of this proud people in the final decades of slavery, their experiences of being in the military and fighting in the Civil War, and the active role taken by the Southern blacks during Reconstruction.

Shared Traditions Yale University Press

A vast collection of documents that illuminate one of the most sophisticated acts of collective slave resistance in the history of the U.S. In 1822, thirty-four slaves and their leader, a free black man named Denmark Vesey, were tried and executed for "attempting to raise an insurrection" in Charleston, South Carolina. In *The Denmark Vesey Affair*, Douglas Egerton and Robert Paquette annotate and interpret a vast collection of contemporary documents that illuminate and contextualize this complicated saga, providing the definitive account of a landmark event that played a role in the nation's path to Civil War. The editors ultimately argue that the Vesey plot was one of the most sophisticated acts of collective slave resistance in the history of the United States. A volume in the series *Southern Dissent*, edited by Stanley Harrold and Randall M. Miller Publication of the

Marriage and Violence e-artnow

In a panoramic history of our criminal justice system from Colonial times to today, one of our foremost legal thinkers shows how America fashioned a system of crime and punishment in its own image.

Out of the House of Bondage Good Press

Marriage is often described as a melding of two people into one. But what—or who—must be lost, fragmented, or buried in that process? We have inherited a model of marriage so flawed, Frances E. Dolan contends, that its logical consequence is conflict. Dolan ranges over sixteenth- and seventeenth-century Puritan advice literature, sensational accounts of "true crime," and late twentieth-century marriage manuals and films about battered women who kill their abusers. She reads the inevitable Taming of the Shrew against William Byrd's diary of life on his Virginia plantation, Noel Coward's *Private Lives*, and Barbara Ehrenreich's assessment in *Nickel and Dimed* of the relationship between marriage and housework. She traces the connections between Phillippa Gregory's best-selling novel *The Other Boleyn Girl* and documents about Anne Boleyn's fatal marriage and her daughter Elizabeth I's much-debated virginity. By contrasting depictions of marriage in the sixteenth and seventeenth centuries and our own time, she shows that the early modern apprehension of marriage as an economy of scarcity continues to haunt the present in the form of a conceptual structure that can accommodate only one fully developed person. When two fractious individuals assert their conflicting wills, resolution can be achieved only when one spouse absorbs, subordinates, or eliminates the other. In an era when marriage remains hotly contested, this book draws our attention to one of the histories that bears on the present, a history in which marriage promises both intimate connection and fierce conflict, both companionship and competition.

The Voices From The Margins: Authentic Recorded Life Stories by Former Slaves e-artnow

An incomparably rich source of period information, the second volume of *The Southern Debate over Slavery* offers a representative and extraordinary sampling of the thousands of petitions about issues of race and slavery that southerners submitted to county courts between the American Revolution and Civil War. These petitions, filed by slaveholders and nonslaveholders, slaves and free blacks, women and men, abolitionists and staunch defenders of slavery, constitute a uniquely important primary source. The collection records with great immediacy and minute detail the dynamics and legal restrictions that shaped southern society.

They Were Her Property Univ of North Carolina Press

In this original examination of alcohol production in early America, Sarah Hand Meacham uncovers the crucial role women played in ciding and distilling in the colonial Chesapeake. Her fascinating story is one defined by gender, class, technology, and changing patterns of production. Alcohol was essential to colonial life; the region's water was foul, milk was generally unavailable, and tea and coffee were far too expensive for all but the very wealthy. Colonists used alcohol to drink, in cooking, as a cleaning agent, in beauty products, and as medicine. Meacham finds that the distillation and brewing of alcohol for these purposes traditionally fell to women. Advice and recipes in such guidebooks as *The Accomplisht Ladys Delight* demonstrate that women were the main producers of alcohol until the middle of the 18th century. Men, mostly small planters, then supplanted women, using new and cheaper technologies to make the

region's cider, ale, and whiskey. Meacham compares alcohol production in the Chesapeake with that in New England, the middle colonies, and Europe, finding the Chesapeake to be far more isolated than even the other American colonies. She explains how home brewers used new technologies, such as small alembic stills and inexpensive cider pressing machines, in their alcoholic enterprises. She links the importation of coffee and tea in America to the temperance movement, showing how the wealthy became concerned with alcohol consumption only after they found something less inebriating to drink. Taking a few pages from contemporary guidebooks, *Every Home a Distillery* includes samples of historic recipes and instructions on how to make alcoholic beverages. American historians will find this study both enlightening and surprising.

Every Home a Distillery University of Illinois Press

Winner of the Los Angeles Times Book Prize in History: a bold and searing investigation into the role of white women in the American slave economy "Stunning."—Rebecca Onion, *Slate* "Makes a vital contribution to our understanding of our past and present."—Parul Sehgal, *New York Times* "Bracingly revisionist. . . . [A] startling corrective."—Nicholas Guyatt, *New York Review of Books* Bridging women's history, the history of the South, and African American history, this book makes a bold argument about the role of white women in American slavery. Historian Stephanie E. Jones-Rogers draws on a variety of sources to show that slave-owning women were sophisticated economic actors who directly engaged in and benefited from the South's slave market. Because women typically inherited more slaves than land, enslaved people were often their primary source of wealth. Not only did white women often refuse to cede ownership of their slaves to their husbands, they employed management techniques that were as effective and brutal as those used by slave-owning men. White women actively participated in the slave market, profited from it, and used it for economic and social empowerment. By examining the economically entangled lives of enslaved people and slave-owning women, Jones-Rogers presents a narrative that forces us to rethink the economics and social conventions of slaveholding America.

Thoughts Upon Slavery Basic Books

The slave narrative has become a crucial genre within African American literary studies and an invaluable record of the experience and history of slavery in the United States. This Companion examines the slave narrative's relation to British and American abolitionism, Anglo-American literary traditions such as autobiography and sentimental literature, and the larger African American literary tradition. Special attention is paid to leading exponents of the genre such as Olaudah Equiano, Frederick Douglass and Harriet Jacobs, as well as many other, less well known examples. Further essays explore the rediscovery of the slave narrative and its subsequent critical reception, as well as the uses to which the genre is put by modern authors such as Toni Morrison. With its chronology and guide to further reading, the Companion provides both an easy entry point for students new to the subject and comprehensive coverage and original insights for scholars in the field.

Recollections of Slavery Createspace Independent Publishing Platform

Marli Weiner challenges much of the received wisdom on the domestic realm of the nineteenth-century southern plantation--a world in which white mistresses and female slaves labored together to provide food, clothing, and medicines to the larger plantation community. Although divided by race, black and white women were joined by common female experiences and expectations of behavior. Because work and gender affected them as much as race, mistresses and female slaves interacted with one another very differently from the ways they interacted with men. Supported by the women's own words, Weiner offers fresh interpretations of the ideology of domesticity that influenced women's race relations before the Civil War, the gradual manner in which they changed during the war, and the harsher behaviors that resulted during Reconstruction. A volume in the series Women in American History, edited by Anne Firor Scott, Nancy A. Hewitt, and Stephanie Shaw

For the first time, the WPA Slave Narratives are organized by theme, making it easier to examine—and understand—specific aspects of slave life and culture. There is no better way to appreciate history than to experience it through the eyes of those who lived it. *Slave Culture: A Documentary Collection of the Slave Narratives from the Federal Writers' Project* brings together the memories of the last generation of enslaved African Americans gathered through interviews conducted between 1936 and 1938. This three-volume work stands apart from previous Slave Narrative collections in that it organizes the narratives thematically, bringing the rich tapestry of slave culture to life in a fresh way. Within each thematic area, multiple excerpts span time, gender, and geography. An introductory essay for each theme and a contextual explanation for each narrative help readers draw lessons from this vast collection, while an introduction to the work explains the Works Progress Administration's Slave Narrative project—illuminating still another era in American history.

[The Denmark Vesey Affair](#) University of Pennsylvania Press

This book argues that influential historians have been unable to offer a complete account of ante-bellum-era American slavery because of their preoccupation with humanizing the slaveholders. Neal skillfully weaves together candid first-hand accounts of courageous ex-slaves, permitting readers to see slavery in the United States from their point of view.
