This Learner Guide addresses the competency BSBMGT401A Show leadership in the workplace. It provides solid underpinning knowledge, plenty of practical examples and workplace scenarios, and the flexibility to be used in a variety of learning environments, such as on-the-job, off-the-job, distant learning or for a combination of these. This Learner Guide will help trainees and students achieve superior learning outcomes with the following learning features: Numerous practical activities linked to competencies Important tips and hints to help students on-the-job Practical examples to show how theory applies to the workplace End-of-chapter assignments and case studies Workplace Projects to allow students to apply theory to a workplace situation Workplace Simulations that are based on case studies and scenarios A glossary of key terms End-of-section tables linking the activities in the Guide to the performance criteria addressed in the section End-of-section tables that link the Employability skills covered. Provides engaging material for learning, designed to increase the participant's interest in the program and likelihood of completion Is written in relevant, easy-to-read language that facilitates learning Provides numerous activities that develop concepts and reinforce skills Provides clear links between learning and practice, including employability skills Can be used in both workplace and classroom training environments. This Learner Guide will help teachers and trainers of the competency standard by: Providing a clear and consistent resource for each participant Giving the necessary underpinning knowledge for each participant minimising the need for further handouts and/or preparation Providing a source of assessment activities and/or a component of a portfolio of evidence when complete

EBOOK Professional Training & Assessment Scope

This proven student success author team has updated its study skills text to extend the depth of core coverage while increasing the relevance and usefulness of the material. In addition to a comprehensive treatment of study skills, Keys to College Studying integrates a definitive theme of active thinking throughout the text and exercises. This theme builds will, skill, and self-management abilities -- i.e., students' ability to develop skills, strengthen the will to learn, and monitor and

manage their progress. This theme enhances student involvement, understanding, and motivation. End-of-chapter exercises, as well as new in-chapter exercises, link to and reinforce the theme. Study skills and developing active thinking skills are the main focus of this book. Traditional study skills covered include: improving reading comprehension, speed, and vocabulary, mastering the content of texts and literature, understanding visual aids, becoming a better listener and improving memory, taking effective notes, mastering test-taking techniques, becoming comfortable with math, science, and technology, managing time and setting goals, and managing stress. The coverage of vocabulary is superior. The book also includes these critical topics not often found in other study skills books: lifelong learning, learning styles and self-awareness, critical thinking, mastering research skills, and writing effectively. For anyone interested in developing strong Study Skills or taking an academically-oriented Student Success course.

Ensure Team Effectiveness McGraw-Hill Education Australia

Well-known for its engaging, conversational style, this text makes sophisticated concepts accessible, introducing students to how markets and institutions shape the global financial system and economic policy. Principles of Money, Banking & Financial Markets incorporates current research and data while taking stock of sweeping changes in the international financial landscape produced by financial innovation, deregulation, and geopolitical considerations. It is easy to encourage students to practice with MyEconLab, the online homework and tutorial system. New to the Twelfth Edition, select end-of-chapter exercises from the book are assignable in MyEconLab and preloaded problem sets allow students to practice even if the instructor has not logged in. For more information about how instructors can use MyEconLab, [click here](#).

Most of us work in teams at work. This book provides prompts to enable teams to thrive and be effective in demanding times. There is a huge interest to ensure teams are effective. The speed of change has meant teams have to be quick to adapt. Information technology means that teams have access to much more information, but need to be able to use that information in a constructive and sure-footed way. Globalisation means that there are many more virtual teams which have to find ways of working quickly and effectively, while adapting to cultural differences about expectations and ways of working. Good team leaders are regularly looking for ways of equipping their teams to work effectively, whilst also ensuring there is time to reflect on longer term issues. There is a growing appetite to try new approaches and learn from the experience of others. The ideas in this book will provide a range of suggestions to help you calibrate how best you can be both an effective team leader and member. The book is designed so you can dip into the different sections. It is intended to be a practical tool for managers and leaders at any level, in any organisation, in any country
