The Junior Bookshelf London : Library Association Pub.
 In this volume, noted Columbia University Professor of Architecture Cyril M. Harris offers a unique tour through the entire history of architecture: an extraordinary compendium of clear, concise definitions for over 5,000 important terms. This thoroughly accurate and comprehensive gathering of architectural knowledge is complemented by an unprecedented collection of over 2,000 line drawings that richly illustrate significant aspects of architectural styles. From ancient ruins to twentieth-century Modernism, the Illustrated Dictionary of Historic Architecture covers the full spectrum of architecture's rise and development. Subject areas include the

following periods: Ancient, Islamic, Greek and Hellenistic, Mesoamerican, Roman, Romanesque, Early Christian, Gothic, Renaissance, Chinese, Japanese, Indian, and Modern. This volume is an important research tool that places particular emphasis on clarity and accuracy. For the architect, artist, historian, student, teacher, or architecture enthusiast, this valuable guide offers indispensable information and lucid illustrations covering the whole of architecture.
