Housed in the former 16th-century convent of Santo Domingo church, now the Regional Museum of Oaxaca, Mexico, is an important collection of textiles representing the area's indigenous cultures. The collection includes a wealth of exquisitely made traditional weavings, many that are now considered rare. [The Unbroken Thread](#):

Conserving the Textile Traditions of Oaxaca details a joint project of the Getty Conservation Institute and the National Institute of Anthropology and History (INAH) of Mexico to conserve the collection and to document current use of textile traditions in daily life and ceremony. The book contains 145 color photographs of the valuable textiles in the collection, as well as images of local

decided to dedicate her life to helping rebuild her native Kandahar, Afghanistan. The Taliban had been driven out by American forces following 9/11, but Kandahar was a shambles. Tens of thousands of women, widowed by years of conflict, struggled to support themselves and their families. Rangina started an entrepreneurial enterprise, using the

exquisite traditional embroidery of Kandahar, to help women work within the cultural boundaries of Pashtunwali to earn their living and to find a degree of self-determination. Thus Kandahar Treasure was born. This book traces the converging paths of traditional khamak embroidery and the 300 brave women who have found in it a way to build their lives. The late, award-

winning photojournalist Paula Lerner was dedicated to telling the stories of women in Afghanistan. Her remarkable images throughout the book show Afghan women's profound struggle, strength, and beauty. *Spider Woman's Children* Yale University Press This book documents the relationship and wisdom of Asian cartographers in the Islamic

The Unbroken Thread Simon and Schuster Winner: 2017 IBPA Benjamin Franklin Awards, Gold, Multicultural 2017 IBPA Benjamin Franklin Awards, Silver, Art & Photography Oaxaca Stories in Cloth includes more than 175 sensitive, intimate, full-color portraits of traditional people of the Oaxacan hinterlands who continue to wrap

themselves in the clothing that expresses their ancient, living culture. Eric Mindling captures this vanishing world with artistry and respect, and just in the nick of time. This book offers a window into a vanishing culture where few people have the opportunity to go. *History of the Colony of New Haven, Before and After the Union with Connecticut* ReadHowYouWant.com Navajo rugs set the gold standard for

handwoven textiles in the U.S. Their history and value to collectors is unparalleled. But what about the people who create these treasures? You might be surprised. *Spider Woman's Children* is the inside story, told by two women who are both deeply embedded in their own culture, and considered among the very most skillful and artistic of Navajo weavers

today. Barbara Teller Ornelas and Lynda Teller Pete are fifth-generation weavers who grew up at the fabled Two Grey Hills trading post. Their family and clan connections give them rare insight into where the craft has been and where it is going. They take you into traditional hogans, remote trading posts, reservation housing neighborhoods, and urban apartments to meet weavers who follow the

paths of their ancestors, who innovate with new designs and techniques, and who uphold time-honored standards of excellence. You'll meet men who learned to weave from their grandmothers; women who weave alongside their aging moms; a young woman who incorporates contemporary images into skillful, highly collectible tapestries. You'll walk with elderly

women over their sheep pastures and cornfields in search of natural dyestuffs. You'll see how well made, simple weaving tools from generations past take a place of pride in every home. And throughout, you'll see examples of the finest, most mindful weaving this rich tradition has to offer.

Despite their highly distinctive cultures and

ethnic diversity, very little is known about Laos's hill tribes. In this book, Stephen Mansfield offers an in-depth examination of these little-studied tribes and their fragile micro-cultures.

Publications E. H. Gombrich's Little History of the World, though written in 1935, has become one of the treasures of historical writing since its first publication in English in 2005. The Yale edition alone has now sold over half a million copies, and the book is available worldwide in almost thirty languages. Gombrich was of course the best-known art historian of his time, and his text

suggests illustrations on every page. This illustrated edition of the Little History brings together the pellucid humanity of his narrative with the images that may well have been in his mind's eye as he wrote the book. The two hundred illustrations—most of them in full color—are not simple embellishments, though they are beautiful. They emerge from the text, enrich the author's intention, and

deepen the pleasure of reading this remarkable work. For this edition the text is reset in a spacious format, flowing around illustrations that range from paintings to line drawings, emblems, motifs, and symbols. The book incorporates freshly drawn maps, a revised preface, and a new index. Blending high-grade design, fine paper, and classic binding, this is both a

sumptuous gift book and an enhanced edition of a timeless account of human history.

Textiles provide a visual history of a country's culture and crafting traditions in a way few other things can accomplish. In
Textiles of Southeast Asia, Dr. Robyn

Maxwell provides the definitive work on Southeast Asian textiles. Traditional textiles are one of the most widely collected and important categories of Southeast Asian art. Using an extensive range of locally produced raw materials and an astonishing array of techniques—including applique, weaving, batik and embroidery—the textiles of Southeast Asia are astonishing in

their versatility and originality. Textiles are used to fashion everything from everyday clothing to sacred and ceremonial costumes, shrouds and wrapping cloths, hangings, banners and ritual regalia—all of which are represented and explained in *Textiles of Southeast Asia*. This authoritative text focuses on the changing relationship between indigenous

Southeast Asian traditions and the outside influences continuing to be brought to the area, which change the nature of the region's textile traditions. This book considers the various ways Southeast Asian textile artisans reacted over the centuries to the steady stream of new and powerful ideas and raw materials arriving from India, China, the Islamic world and Europe. A detailed and

definitive resource, *Textiles of Southeast Asia* is a welcome addition to the field of textiles. *Textiles of Southeast Asia* Schiffer + ORM (Reprint London 1895 edn.) **My Experiences in Manipur and the Naga Hills** Applewood Books "Part travelogue, part silk-weaving primer, this is a tender portrait of an American family's

survive as a society with strong traditions, despite having no country of their own. Distinctive dress and silver jewellery also help to define their various sub-groups. This magnificently illustrated book, based on 12 years of fieldwork, covers all aspects of Yao culture. 750 colour illustrations
