Paul's Jewish background and his use of Scripture have been enduring interest within New Testament scholarship. This study contributes to this discussion by examining the presence and function of Scripture in I Cor. 1:18-3:23. The author examines the presence and function of Scripture in the form of six citations, two allusions, and seven echoes within I Cor. 1:19-3:23. From the examination of the function of these texts,

this work concludes that Paul's use of Scripture agrees with its original context and stands in line with a majority of early Jewish tradition. Moreover, this study suggests that Pavi's use of Scripture also helps to chart a way through a difficult section of his writing.

Revelation 7:1-17 occurs between the opening of the sixth and seventh seal and Rev 10:1-11:13 between the sixth and seventh trumpet blasts. Interpreters often explain these passages as

"interludes," "parentheses," or "expansions," but not in terms of ancient communication. Peter S. Perry analyzes these interruptions in the seals and trumpets in light of digressions in ancient rhetorical theory and practice. Digressions are described by Hermagoras, Cicero, and Quintilian and widely used, including in Josephus' works, Jubilees, Sibylline Oracles I/II, Zechariah, and Exodus. As with other ancient digressions, Rev 7:1-17 and 10:1-11:13 are unessential to the logical flow but essential to the book's impact. These passages excite the emotions, shape character, and give insight into John's rhetorical strategy and

goals.

This statement reflects the underlying purpose of The New International Commentary on the New Testament. Begun in the late 1940s by an

international team of New Testament scholars, the NICNT series has become recognized by pastors, students, and scholars alike as a critical yet orthodox commentary marked by solid biblical scholarship within the evangelical Protestant tradition. While based on a thorough study of the Greek text, the commentary introductions and expositions contain a minimum of Greek references. The NICNT authors evaluate significant textual problems and take into account the most important exegetical literature. More technical aspects — such as grammatical, textual, and historical problems — are dealt with in footnotes, special notes, and appendixes. Under the

general editorship of three outstanding New Testament scholars — first Ned Stonehouse (Westminster Theological Seminary, Philadelphia), then F. F. Bruce (University of Manchester, England), and now Gordon D. Fee (Regent College, Vancouver, British Columbia) — the NICNT series has continued to develop over the years. In order to keep the commentary “new” and conversant with contemporary scholarship, the NICNT volumes have been — and will be — revised or replaced as necessary. The newer NICNT volumes in particular take into account the role of recent rhetorical and sociological inquiry in elucidating the meaning of the text, and they also exhibit

concern for the theology and application of the text. As the NICNT series is ever brought up to date, it will continue to find ongoing usefulness as an established guide to the New Testament text.

Why you need a writing revolution in your classroom and how to lead it The Writing Revolution (TWR) provides a clear method of instruction that you can use no matter what subject or grade level you teach.

The model, also known as The Hochman Method, has demonstrated, over and over, that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback.

Insurmountable as the challenges faced by many students may seem, The Writing Revolution can make a dramatic difference.

And the method does more than improve writing skills. It also helps: Boost reading comprehension

Improve organizational and study skills

Enhance speaking

abilities Develop

analytical capabilities

The Writing Revolution is as much a method of teaching content as it is a method of teaching

writing. There's no separate writing block and no separate writing curriculum. Instead, teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave them into their content instruction. But perhaps what's most revolutionary about the TWR method is that it takes the mystery out of learning to write well. It breaks the writing process down into manageable chunks and then has students practice the chunks they need, repeatedly, while also learning content.

New-Church Messenger An encyclopedia designed especially to meet the needs of elementary, junior high, and senior high school students. Journal of the Annual Sessions From Newbery media winner Karen Hesse comes an unforgettable story of

an immigrant family's journey to America. "America," the girl repeated. "What will you do there?" I was silent for a little time. "I will do everything there," I answered. Rifka knows nothing about America when she flees from Russia with her family in 1919. But she dreams that in the new country she will at last be safe from the Russian soldiers and their harsh treatment of the Jews. Throughout her journey, Rifka carries with her a cherished volume of poetry by Alexander Pushkin. In it, she records her observations and experiences in the form of letters to Tovah, the beloved cousin she has left behind. Strong-hearted and determined, Rifka must endure a great

deal: humiliating examinations by doctors and soldiers, deadly typhus, separation from all she has ever known and loved, murderous storms at sea, detainment on Ellis Island--and is if this is not enough, the loss of her glorious golden hair. Based on a true story from the author's family, *Letters from Rifka* presents a real-life heroine with an uncommon courage and unsinkable spirit. *Second pamphlet.
