"The classic of African History -- a biography of Shaka Zulu, founder of the Zulu nation, born leader and brilliant general...E.A. Ritter grew up with the Zulus, earning their respect and accumulating a rich store of material during his long association with them. Shaka's life and deeds had been handed down by word of mouth from generation to generation, and they are here evoked with a sense of drama and an eye for detail." -- Back cover.

A groundbreaking narrative on the urgency of ethically designed AI and a guidebook to reimagining life in the era of intelligent technology. The Age of Intelligent Machines is upon us, and we are at a reflection point. The proliferation of fast-moving technologies, including forms of artificial intelligence akin to a new species, will cause us to confront profound questions about ourselves. The era of human intellectual superiority is ending, and we need to plan for this monumental shift. *A Human Algorithm: How Artificial Intelligence Is Redefining Who We Are* examines the immense impact intelligent technology will have on humanity. These machines, while challenging our personal beliefs and our socioeconomic world order, also have the potential to transform our health and well-being, alleviate poverty and suffering, and reveal the mysteries of intelligence and consciousness. International human rights attorney Flynn Coleman deftly argues that it is critical that we instill values, ethics, and morals into our robots, algorithms, and other forms of AI. Equally important, we need to develop and implement laws, policies, and oversight mechanisms to protect us from tech's insidious threats. To realize AI's transcendent potential, Coleman advocates for inviting a diverse group of voices to participate in designing our intelligent machines and using our moral imagination to ensure that human rights, empathy, and equity are core principles of emerging technologies. Ultimately, *A Human Algorithm* is a clarion call for

building a more humane future and moving conscientiously into a new frontier of our own design. "[Coleman] argues that the algorithms of machine learning--if they are instilled with human ethics and values--could bring about a new era of enlightenment." —San Francisco Chronicle

High drama at the beach, starring four sexy, surfing siblings and their deadbeat, famous-crooner dad."—*People* Four famous siblings throw an epic party to celebrate the end of the summer. But over the course of twenty-four hours, the family drama that ensues will change their lives forever. *Malibu*: August 1983. It's the day of Nina Riva's annual end-of-summer party, and anticipation is at a fever pitch. Everyone wants to be around the famous Rivas: Nina, the talented surfer and supermodel; brothers Jay and Hud, one a championship surfer, the other a renowned photographer; and their adored baby sister, Kit. Together the siblings are a source of fascination in Malibu and the world over—especially as the offspring of the legendary singer Mick Riva. The only person not looking forward to the party of the year is Nina herself, who never wanted to be the center of attention, and who has also just been very publicly abandoned by her pro tennis player husband. Oh, and maybe Hud—because it is long past time for him to confess something to the brother from whom he's been inseparable since birth. Jay, on the other hand, is counting the minutes until nightfall, when the girl he can't stop

thinking about promised she'll be there. And Kit has a couple secrets of her own—including a guest she invited without consulting anyone. By midnight the party will be completely out of control. By morning, the Riva mansion will have gone up in flames. But before that first spark in the early hours before dawn, the alcohol will flow, the music will play, and the loves and secrets that shaped this family's generations will all come rising to the surface. *Malibu Rising* is a story about one unforgettable night in the life of a family: the night they each have to choose what they will keep from the people who made them . . . and what they will leave behind.

*Emperor Shaka the Great* Ohio University Press

This is an illustrated "graphic history" based on an 1876 court transcript of a West African woman named Abina, who was wrongfully enslaved and took her case to court. The main scenes of the story take place in the courtroom, where Abina strives to convince a series of "important men"--A British judge, two Euro-African attorneys, a wealthy African country "gentleman," and a jury of local leaders --that her rights matter.--Publisher description.

*The Washing Of The Spears* Seker Nefer Press

Over the decades we have heard a great deal about Shaka, the famous - or infamous - of Zulu leaders. It may come as a surprise, therefore, that we do not know when he was born, nor what he looked like, nor precisely when or why he was assassinated. This book lays out the available evidence - mainly hitherto under-utilised Zulu oral testimonies.

**Shaka's Children** East African Publishers

In this riveting new book, John Laband, pre-eminent historian of the Zulu Kingdom, tackles some of the questions that swirl around the assassination in 1828 of King Shaka, the celebrated founder of the Zulu Kingdom and war leader of legendary brilliance: Why did prominent members of the royal house conspire to kill him? Just how significant a part did the white hunter-traders settled at Port Natal play in their royal patron's downfall? Why were Shaka's relations with the British Cape Colony key to his survival? And why did the powerful army he had created acquiesce so tamely in the usurpation of the throne by Dingane, his half-brother and

assassin? In his search for answers Laband turns to the Zulu voice heard through recorded oral testimony and praise-poems, and to the written accounts and reminiscences of the Port Natal trader-hunters and the despatches of Cape officials. In the course of probing and assessing this evidence the author vividly brings the early Zulu kingdom and its inhabitants to life. He throws light on this elusive character of and his own unpredictable intentions, while illuminating the fears and ambitions of those attempting to prosper and survive in his hazardous kingdom: a kingdom that nevertheless endured in all its essential characteristics, particularly militarily, until its destruction fifty one years later in 1879 by the British; and whose fate, legend has it, Shaka predicted with his dying breath.

**Uncelebrated Narratives from Black History** HarperCollins  
A serious but readable study that should be widely read by all concerned with leadership issues. Long Range Planning This book is the most up-to-date available investigation of the understanding of tyranny and terror that psychologists, psychoanalysts and experts on group and institutional behaviour can provide. Manfred Kets de Vries has produced a masterpiece. He draws on a wealth of published research in the field and relates it in an academically excellent, yet eminently readable, way to the premier problem of the beginning of the 21st century. I strongly recommend it. Anton Obholzer, formerly Tavistock Centre London, Psychoanalyst and Organizational Consultant  
From constructive narcissism to reactive narcissism, we are but one step away from megalomania and terror. Professor Kets de Vries traces the origin of leadership by terror to early childhood in this case study of Shaka Zulu. A gruesome story warns us that terror may be inherent in the human condition. Abraham Zaleznik, Harvard Business School, US  
Kets de Vries has written another terrific book on leadership. However, this work will prove both timely and insightful to students of leadership and political psychology. Through the tale of Shaka Zulu, Kets de Vries introduces us to our very own despotic tendencies and thus familiarizes the reader with the human side, however horribly oppressive and destructive, of leadership by terror. Here is a genuine contribution to the field of leadership studies. Michael A. Diamond, University of Missouri Columbia, US  
What makes despotic leaders tick? How do they become despots? On a lesser (but far more common) scale: why are some people ruthlessly

abrasive in the workplace? Why do some business leaders appear to lose their sense of humanity? How and why do they create a culture of fear, uncertainty and doubt in their companies? Lessons on Leadership by Terror attempts to discover what happens to people when they acquire power, and whether the abuse of power is inevitable. Manfred Kets de Vries examines the life of the nineteenth-century Zulu king Shaka Zulu in order to help us understand the psychology of power and terror. During his short reign, Shaka Zulu established one of the most successful regimes based on terror that has ever existed, from which the traits of despotic leaders are illustrated. Shaka's life history is a study in the psychology of terror, and he can be a proxy for the behavior of any despot, be it from antiquity or modern times. From his leadership behavior fifteen cautionary lessons are derived, offering valuable principles for contemporary leaders. The book also explores the characteristics of totalitarian states, and discusses what can be done to prevent despotic leaders from coming to the fore. Clear parallels are drawn between Shaka's behavior and that of other, more contemporary, leaders including Hitler, Stalin, Pol Pot and Saddam Hussein. This fascinating and highly original book will be of enormous interest to a broad audience from students and academics focusing on leadership, political science, and political psychology, to practitioners such as managers, executives, consultants, and leadership coaches.

Drawing on many years of African experience, John Reader has written a book of startling grandeur and scope that recreates the great panorama of African history, from the primeval cataclysms that formed the continent to the political upheavals facing much of the continent today. Reader tells the extraordinary story of humankind's adaptation to the ferocious obstacles of forest, river and desert, and to the threat of debilitating parasites, bacteria and viruses unmatched elsewhere in the world. He also shows how the world's richest assortment of animals and plants has helped - or hindered - human progress in Africa.

In 1879, armed only with their spears, their rawhide shields, and their incredible courage, the Zulus challenged the might of Victorian England and, initially, inflicted on the British the worst defeat a modern army has ever suffered at the hands of men without guns. This is the definitive account of the rise of the Zulu nation under the great ruler Shaka and its fall under Cetshwayo. The story is studded with tales of drama and heroism: the Battle of Isandhlwana, where the Zulu army wiped out the major British column; and Rorke's Drift, where a handful of British troops beat off thousands of Zulu warriors and won eleven Victoria Crosses. Acclaimed for its scholarship, its monumental range, and its spellbinding readability, *The Washing of the Spears* is a gripping

portrait of not just the Zulu War of 1879, but also of Britain's colonial policy at this moment.

All Rise: Resistance and Rebellion in South Africa revives six true stories of resistance by marginalized South Africans against the country's colonial government in the years leading up to Apartheid. In six parts--each of which is illustrated by a different South African artist--All Rise shares the long-forgotten struggles of ordinary, working-class women and men who defended the disempowered during a tumultuous period in South African history. From immigrants and miners to tram workers and washerwomen, the everyday people in these stories bore the brunt of oppression and in some cases risked their lives to bring about positive change for future generations. This graphic anthology breathes new life into a history dominated by icons, and promises to inspire all readers to become everyday activists and allies. The diverse creative team behind All Rise, from an array of races, genders, and backgrounds, is a testament to the multicultural South Africa dreamed of by the heroes in these stories--true stories of grit, compassion, and hope, now being told for the first time in print.

**The Zulus at War** Univ of California Press

"Strange Fruit, Volume I, Uncelebrated narratives from Black history is a collection of stories from African American history that exemplifies success in the face of great adversity. This unique graphic anthology offers historical and cultural commentary on nine uncelebrated heroes whose stories are not often found in history books. Among the stories included are: Henry 'Box' Brown, who escaped from slavery by mailing himself to Philadelphia; Alexander Crummel and the Noyes Academy, the first integrated school in America, established in the 1830s; Marshall 'Major' Taylor, a.k.a. the Black Cyclone, the first Black champion in any sport; and Bass Reeves, the most successful lawman in the Old West. Written and illustrated by Joel Christian Gill, the diverse art beautifully captures the spirit of each remarkable individual and opens a window into an important part of American history"--*Myth of Iron* Catalyst Press

By tracing the long and turbulent history of the Zulus from their arrival in South Africa and the establishment of Zululand, *The Zulus at War* is an important and readable addition to this popular subject area. It describes the violent rise of King Shaka and his

colorful successors under whose leadership the warrior nation built a fearsome fighting reputation without equal among the native tribes of South Africa. It also examines the tactics and weapons employed during the numerous intertribal battles over this period. They then became victims of their own success in that their defeat of the Boers in 1877 and 1878 in the Sekunini War prompted the well-documented British intervention. Initially the might of the British empire was humbled as never before by the shock Zulu victory at Isandlwana but the 1879 war ended with the brutal crushing of the Zulu Nation. But, as Adrian Greaves reveals, this was by no means the end of the story. The little known consequences of the division of Zululand, the Boer War, and the 1906 Zulu Rebellion are analyzed in fascinating detail. An added attraction for readers is that this long-awaited history is written not just by a leading authority but, thanks to the coauthor's contribution, from the Zulu perspective using much completely fresh material. Skyhorse Publishing, as well as our Arcade imprint, are proud to publish a broad range of books for readers interested in history--books about World War II, the Third Reich, Hitler and his henchmen, the JFK assassination, conspiracies, the American Civil War, the American Revolution, gladiators, Vikings, ancient Rome, medieval times, the old West, and much more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home.

*Zulu Rising* Drawn & Quarterly

The New York Times bestselling author of *Writing My Wrongs* invites men everywhere on a journey of honesty and healing through this book of moving letters to his sons—one whom he is raising and the other whose childhood took place during Senghor's nineteen-year incarceration. "A visceral and visual journey for the ages . . . the perfect road map for us to remove the barriers and obstacles against our true feelings."—Kenya Barris, creator of black-ish **ONE OF THE MOST ANTICIPATED BOOKS OF 2022**—Essence Shaka Senghor has lived the life of two fathers. With his first son, Jay, born shortly after Senghor was

incarcerated for second-degree murder, he experienced the regret of his own mistakes and the disconnection caused by a society that sees Black lives as disposable. With his second, Sekou, born after Senghor's release, he has experienced healing, transformation, intimacy, and the possibilities of a world where men and boys can openly show one another affection, support, and love. In this collection of beautifully written letters to Jay and Sekou, Senghor traces his journey as a Black man in America and unpacks the toxic and misguided messages about masculinity, mental health, love, and success that boys learn from an early age. He issues a passionate call to all fathers and sons—fathers who don't know how to show their sons love, sons who are navigating a fatherless world, boys who have been forced to grow up before their time—to cultivate positive relationships with other men, seek healing, tend to mental health, grow from pain, and rewrite the story that has been told about them. *Letters to the Sons of Society* is a soulful examination of the bond between father and sons, and a touchstone for anyone seeking a kinder, more just world.

*Lessons on Leadership by Terror* Edward Elgar Publishing

*A Notable Memoir by the New York Times Medium's Books to Help You Transition Into 2020* With echoes of *Just Mercy* and *An American Marriage*, a remarkable memoir of a woman who falls in love with an incarcerated man—a poignant story of hope and disappointment that lays bare the toll prison takes not only on those behind bars, but on their families and relationships. Ebony's parents were high school sweethearts and married young. By the time Ebony was born, the marriage was disintegrating. As a little girl she witnessed her parents' brutal verbal and physical fights, fueled by her father's alcoholism. Then her father tried to kill her mother. Those experiences drastically affected the way Ebony viewed love and set the pattern for her future romantic relationships. Despite being an educated and strong-minded woman determined not to repeat the mistakes of her parents—she would have a fairytale love—Ebony found herself drawn to bad-boys: men who cheated; men who verbally abused her; men who disappointed her. Fed up, she swore to wait for the partner God chose for her. Then she met Shaka Senghor. Though she felt an intense spiritual connection, Ebony struggled with the idea that this man behind bars for murder could be the good love God had for her. Through letters and visits, she and Shaka fell

deeply in love. Once Shaka came home, Ebony thought the worst was behind them. But Shaka's release was the beginning of the end. *The Love Prison Made and Unmade* is heartfelt. It reveals powerful lessons about love, sacrifice, courage, and forgiveness;

of living your highest principles and learning not to judge someone by their worst acts. Ultimately, it is a stark reminder of the emotional cost of American justice on human lives—the partners, wives, children, and friends—beyond the prison walls. The battle of iSandlwana was the single most destructive incident in the 150-year history of the British colonization of South Africa. This title shows that the brutality of the battle was the result of an inevitable clash between two aggressive warrior traditions.
