 Born at the turn of the 21st century, *The Storyteller*, also known as *Ishkwegaabawiikwe* (Last Standing Woman), carries her people's past within her memories. The White Earth Anishinaabe people have lived on the same land for over a thousand years. Among the towering white pines and rolling hills, the people of each generation are born, live out their lives, and are buried. The arrival of European missionaries changes the community forever. Government policies begin to rob the people of their land, piece by piece. Missionaries and Indian agents work to outlaw ceremonies the Anishinaabeg have practised for centuries. Grave-robbing anthropologists dig up ancestors and whisk them away to museums as artifacts. Logging operations destroy traditional sources of food, pushing the White Earth people to the brink of starvation. Battling addiction, violence, and corruption, each member of White Earth must find their own path of resistance as they struggle to reclaim stewardship of their land, bring their ancestors home, and stay connected to their culture and to each other. In this highly anticipated 25th anniversary edition of her debut novel,

Winona LaDuke weaves a nonlinear narrative of struggle and triumph, resistance and resilience, spanning seven generations from the 1800s to the early 2000s.

"The BIM Handbook is an extensively researched and meticulously written book, showing evidence of years of work rather than something that has been quickly put together in the course of a few months. It brings together most of the current information about BIM, its history, as well as its potential future in one convenient place, and can serve as a handy reference book on BIM for anyone who is involved in the design, construction, and operation of buildings and needs to know about the technologies that support it. The need for such a book is indisputable, and it is terrific that Chuck Eastman and his team were able to step up to the plate and make it happen. Thanks to their efforts, anyone in the AEC industry looking for a deeper understanding of BIM now knows exactly where to look for it." AECbytes book review, August 28, 2008

(www.aecbytes.com/review/2008/BIMHandbook.html) DISCOVER BIM: A BETTER WAY TO BUILD BETTER BUILDINGS

Building Information Modeling (BIM) offers a novel approach to design, construction, and facility management in which a digital representation of the building process is used to facilitate the exchange and interoperability of information in digital format. BIM is beginning to change the way buildings look, the way they function, and the ways in which they are designed and built. The BIM Handbook, Second Edition provides an in-depth understanding of BIM technologies, the business and organizational issues associated with its

implementation, and the profound advantages that effective use of BIM can provide to all members of a project team. Updates to this edition include: Completely updated material covering the current practice and technology in this fast-moving field Expanded coverage of lean construction and its use of BIM, with special focus on Integrated Project Delivery throughout the book New insight on the ways BIM facilitates sustainable building New information on interoperability schemas and collaboration tools Six new case studies Painting a colorful and thorough picture of the state of the art in building information modeling, the BIM Handbook, Second Edition guides readers to successful implementations, helping them to avoid needless frustration and costs and take full advantage of this paradigm-shifting approach to construct better buildings that consume fewer materials and require less time, labor, and capital resources.

This report was prepared in response to Secretary of Energy Ernest J. Moniz's

request and provides a comprehensive study that considers research and technology opportunities to enable prudent development of U.S. Arctic offshore oil and natural gas resources. Today, there is both increasing interest in the Arctic for economic opportunity, and concern about the future of the culture of the Arctic peoples and the environment in the face of changing climate and increased human activity. Other nations, such as Russia and China, are moving forward with Arctic economic development. Facilitating exploration and development in the U.S. Arctic would enhance national, economic, and energy security, benefit the people of the north and the U.S. as a whole, and position the U.S. to exercise global leadership. Despite these benefits, there are diverse views on how to balance this opportunity with environmental stewardship.

On these pages you will discover that during His time on earth, Jesus was not only a Jew, but a trained and qualified Rabbi--who had verified authority to be the leading teacher of His day. Where was Jesus from age 12 when He was in the temple, until we find Him at age 30 being baptized by John the Baptist? Why did they call Him Rabbi? By what authority did Jesus teach in a synagogue? Why did He command such a great following? Says the author, "As a follower of Christ, what you are about to discover will help establish a cultural context that will enable you to clearly interpret the teachings of God's Son."

Despite the current survivor-affirming awareness around sexual violence, child sexual abuse, most notably when it's a family member or friend, is still a very taboo topic. There are approximately 42 million child sexual abuse survivors in the U.S. and millions of bystanders who look the other way as the abuse occurs and cover for the harm-doers with no accountability. Documentary filmmaker

and survivor of child sexual abuse and adult rape, Aishah Shahidah Simmons invites diasporic Black people to join her in transformative storytelling that envisions a world that ends child sexual abuse without relying on the criminal justice system. *Love WITH Accountability* features compelling writings by child sexual abuse survivors, advocates, and Simmons's mother, who underscores the detrimental impact of parents/caregivers not believing their children when they disclose their sexual abuse. This collection explores disrupting the inhumane epidemic of child sexual abuse, humanely.

The Secret History of the Handbag John Wiley & Sons

For more than three decades, John Simpson has been teaching sniping to military and police civilian shooters. As a staff instructor for Snipercraft and the Director of Precision Rifle Programs for Richland Group's James River Training System, as well as a former adjunct instructor for sniping at both the Smith & Wesson and SigArms academies, Simpson observed over and over that many of the shooters who show up for sniping school lack the marksmanship fundamentals that are essential for success as a professional sniper. Simpson wrote Snipercraft for shooters who want to solidify their marksmanship fundamentals in preparation for attending sniper school or a sniping course. In plain, nontechnical language, it lays the foundation for making a hit every time with your rifle on a four-inch-diameter cranial target when the target is not cooperating with you. It's impossible to learn how to shoot well by simply reading a book, but you can definitely learn to make precision rifle shots with the help of what's in this book. Its target audience is tactical

shooters—not target shooters—who are preparing to take their rifle marksmanship to a new level.

Making & Being National Academies Press

Updated 12/10/2020: In December 2016, the Navy released a force-structure goal that calls for achieving and maintaining a fleet of 355 ships of certain types and numbers. The 355-ship goal was made U.S. policy by Section 1025 of the FY2018 National Defense

Authorization Act (H.R. 2810/P.L. 115- 91 of December 12, 2017). The Navy and the Department of Defense (DOD) have been working since 2019 to develop a successor for the 355-ship force-level goal. The new goal is expected to introduce a new, more distributed fleet architecture featuring a smaller proportion of larger ships, a larger proportion of smaller ships, and a new third tier of large unmanned vehicles (UVs). On December 9, 2020, the Trump Administration released a document that can be viewed as its vision for future Navy force structure and/or a draft version of the FY2022 30-year Navy shipbuilding plan. The document presents a Navy force-level goal that calls for achieving by 2045 a Navy with a more distributed fleet architecture, 382 to 446 manned ships, and 143 to 242 large UVs. The Administration that takes office on January 20, 2021, is required by law to release the FY2022 30-year Navy shipbuilding plan in connection with DOD's proposed FY2022 budget, which will be submitted to Congress in 2021. In preparing the FY2022 30-year shipbuilding plan, the Administration

that takes office on January 20, 2021, may choose to adopt, revise, or set aside the document that was released on December 9, 2020. The Navy states that its original FY2021 budget submission requests the procurement of eight new ships, but this figure includes LPD-31, an LPD-17 Flight II amphibious ship that Congress procured (i.e., authorized and appropriated procurement funding for) in FY2020. Excluding this ship, the Navy's original FY2021 budget submission requests the procurement of seven new ships rather than eight. In late November 2020, the Trump Administration reportedly decided to request the procurement of a second Virginia-class attack submarine in FY2021. CRS as of December 10, 2020, had not received any documentation from the Administration detailing the exact changes to the Virginia-class program funding lines that would result from this reported change. Pending the delivery of that information from the administration, this CRS report continues to use the Navy's original FY2021 budget submission in its tables and narrative discussions.

Do you long to be more like Jesus? Do you desire to live a holy life? Do you seek to answer the Spirit's call: "But as He who called you is holy, you also be holy in all your conduct, because it is written, 'Be holy, for I am holy'" (1 Peter 1:15- 16)? If so, this book was written for you. Unfortunately, many Christians are confused about what the Bible teaches about living a holy life. I've had students who came from good Gospel-preaching churches who were not sure they even believed in what they heard called "holiness." Either their church did not speak much about it or what they heard

seemed legalistic or unattainable. It is sad that there is so much careless and sometimes contradictory teaching about this vital subject. The aim of this book is to be as biblically and contextually accurate as possible in the use of words and phrases such as "holy, holiness, sanctify, the Spirit-filled life, and entire sanctification." Further, I seek to limit my comments to what the Scriptures actually affirm. I do not attempt to answer every question that can be raised when talking about the biblical doctrine of sanctification. Rather, I seek to affirm what Scriptures affirm and leave unsaid what Scriptures do not say. I think any reader of Scripture will agree that God does command Christians to be holy. The burning question is: "What does God mean when He commands us to be holy?" This book is an attempt to answer that question.

Mythical Creatures of Maine River Junction Press, LLC

Maine folklore is rich in tales of humans confronted by strange beasts, both wonderful and terrifying. The Abenaki, or "First People" had their tales of Glooskap and Pamola. Other tales came with European settlers; and others sprang up almost out of nothing around the fires of the logging camps. Based on meticulous research into these legends and folk tales, this volume is an encyclopedia, a field guide to the creatures that can be found in Maine and beyond. While the tales are whimsical and fun, they can also be considered serious scholarship.

Attention has been drawn to the subject of how ocean noise affects marine mammals by a series of marine mammal strandings, lawsuits, and legislative hearings, and most recently, the report from the U.S. Commission on Ocean Policy. One way to assess the impact of ocean noise is to consider whether it causes changes in animal behavior that are "biologically significant," that is, those that affect an animal's ability to grow, survive, and reproduce. This report offers a conceptual model designed to clarify which marine mammal behaviors are biologically significant for conservation purposes. The report is intended to help scientists and policymakers interpret provisions of the federal Marine Mammal Protection Act.
