...International migration law is an important field of international law, which has attracted exceptional interest in recent years. This book has been written from a wide variety of perspectives for those wanting to understand the legal framework that regulates migration. Foundations of International Migration Law - Immigration - Law As a concept of international law, it comprises three major aspects – external, internal and territorial – each being exercised in accordance with the rules of international law. The external aspect of sovereignty concerns the relationship between States: it is the right of a State to determine freely its relations with

other States or entities without the restraint or control of another State. Foundations of International Migration Law the evolution of international migration law Migration has been an integral part of human activity for as long as people have inhabited the earth. Whether moving as individuals, families or tribes, migration is an age-old response to the physical need for food, shelter and security, and the psychological need for adventure and exploration. Conceptualising international migration law (Chapter 1 ... International law has been defined as consisting of 'rules and principles of general application dealing with the conduct of states and of international

organizations and with their relations inter se, as well as with some of their relations with persons, whether natural or juridical'. As underlined by this definition, international law is no longer exclusively limited to the relations between States. Sources of international migration law (Chapter 3 ...
