At the turn of the century, Nogowogotoc Lake was considered the Newport of the Midwest, where some of the most affluent families from Milwaukee and Chicago spent their summers in luxurious "cottages" at the water's edge. The Story of the Lake weaves the tale of four of these families over the course of generations. With each decade another net of history, prejudice, love and intrigue is cast over the surface of the water, creating a more and more intricate pattern. Joseph Ulrich of Kreuser Beer and his rival, "Pork Packing Prince" Walter Schraeger vie for the hand of Alicia Bosquet, flamboyant newcomer to the scene. Isabella Wells, the reclusive heiress to Milwaukee's finest department store, becomes dangerously involved with Margaret Sanger's early Planned Parenthood crusade, while her sister, Helen, tries to protest the end of Prohibition, a force too great to contend with in the beer loving city of Milwaukee. This often dark and disturbing American drama is full of gusts of lake air, filling the senses with images and traditions that have mostly slipped away. A personal retelling of family secrets as well as a reflection of the times, The Story of the Lake, is the big passionate family saga that finally gives the Midwest its due.

Experiencing ethics not only refers to being confronted with a situation in which one must choose a course of action; it also makes reference to giving a narrative account of the circumstances and chain of events leading to such crossroads. Between both there is a chasm, a space of indeterminacy into which R. Musil and L. Sterne delve with aesthetic means. Their poetics move in opposite directions, but by following them to their last critical consequences this study reveals a kindred ethical stance. This interpretation sheds light on the ethics revolving around character construction by examining the constraints thwarting any attempt to complete a biographical account or convey a protagonist that led his or her life. Neither Musil nor Sterne posit a narrative agenda that could reach a last chapter or lead to a groundwork determining their ethics. A closer look into their tight-knit prose reveals that both rely on the narrating, on a skill that must be incessantly cultivated through a digressive or essayistic style. Equipped with a vast theoretical repertoire, this approach makes a strong case for a new constellation in comparative literature. Many enthusiasts dream of finding a Bugatti or a Bentley in a barn or a long disused building. In reality, such finds are more likely to be an Austin 7, Ford Popular or a Mini. This book is stuffed with these so called "barn finds". The author has tried to find out the

background to the abandonment and the previous history of the "as found" car when it was in regular use. Why was it put away and apparently forgotten? Many of the stories have appeared in his "Lost and Found" column in "Classic and Sports Car" magazine, but a book gives a chance for the expanded story to be told. The cars featured date from 1900 through till the 1980's, most come from Great Britain and Europe but there are plenty from Australasia and USA. There are well over 200 different cars plus collections featured. Each story has at least one illustration to go with it. Some of the locations are bizarre, a Daimler buried under a rockery, a Porsche sunk in Lake Lucerne, a Rolls -Royce on the roof of a high rise building in Karachi, or a Morris 8 special in a Gloucestershire pond. There is a chapter on collections of cars, put together by seemingly eccentric owners who never got around to restoring them before their death. The author is not critical of any of these owners and is grateful for the number of cars they have saved from almost certain destruction.

From a dented Porsche to a faded Cadillac, a battered VW Beetle to a whole fleet of abandoned military jeeps, Klein's subjects creak with bygone glamour and might. As moss and gnarled branches transform motors into eerie artifacts, Klein's award-winning automobile photography is not only a tribute to classic cars, but also to the transformative power of nature and the enduring intrigue of people and incidents unknown.

For more than a generation after World War II, official government doctrine and many Austrians insisted they had been victims of Nazi aggression in 1938 and, therefore, bore no responsibility for German war crimes. During the past twenty years this myth has been revised to include a more complex past, one with both Austrian perpetrators and victims. Part one describes soldiers from Austria who fought in the German Wehrmacht, a history only recently unearthed. Richard Germann covers units and theaters Austrian fought in, while Thomas Grischan demonstrates how well they fought. Ela Hornung looks at case studies of denunciation of fellow soldiers, while Barbara Stelzl-Marx analyzes Austrian soldiers who were active in resistance at the end of the war. Stefan Karner summarizes POW treatment on the Eastern front. Part two deals with the increasingly difficult life on the Austrian homefront. Fritz Keller takes a look at how Vienna survived growing food shortages. Ingrid Böhler takes a rare look at life in small-town Austria. Andrea Strutz analyzes narratives of Jewish refugees forced to leave for the United States. Peter Ruggenthaler and Philipp Lesiak examine the use of slave laborers. And Brigitte Kepplinger summarizes the Nazi euthanasia program. The third part deals with legacies of the war, particularly postwar restitution and memory issues. Based on new sources from Soviet archives, Nikita Petrov describes the Red Army liberation. Winfried Garscha analyzes postwar war crimes trials

against Austrians. Brigitte Bailer-Galanda and Eva Blimlinger present a survey of postwar restitution of property. And Heidemarie Uhl deals with Austrian memories of the war.

In the large canvases of German painter Till Gerhard (born 1971), hippy-era media images are reworked, gouged and besplattered, enacting a painterly aggression--and sometimes affection--upon the cults, heroes, villains, and the utopian and spiritual ideals of the 1960s and 1970s. This monograph compiles his paintings alongside resource materials, essays and an interview.

The German Revolution of 1848-49 offered a significant literary opportunity for all those interested in politics in general and the progress of women in society in particular. This book explores the work of a number of women who took up the challenge of breaking into the decidedly male preserve of political writing in this period. The focus is on women with very different concerns: Malwida von Meysenbug, the aristocrat who supported the democratic cause, the assimilated Jew Fanny Lewald; the housewife, musician, composer and teacher Johanna Kinkel; and the radical feminist Louise Aston. The work examines the strategies these women employed to negotiate potentially explosive issues such as the politics of the day, class, religion and gender, as well as the way traditional images like the father-child relationship are exploited to express new thoughts. Using a combination of close textual reading and thematically based analysis

the book illuminates the authors' individual works and explores underlying issues that are common to all.

To anyone who is not a keen motoring enthusiast a book about finding often-decaying cars in very unlikely places would be a real turn-off. But to many who profess an enthusiasm for veteran, vintage of classic vehicles the reverse is the case. Every one of them has the secret hope that one day he or she will open that derelict barn or shed and find a very desirable Aston Martin, Jaguar or Rolls-Royce, perhaps even a veteran De Dion Bouton or a Panhard Levassor. In truth if they do have the luck to find a car in such circumstances it's much more likely to be an Austin 7 or Morris Minor!
