 When author and theologian John P. Burgess first travelled to Russia, he was hoping to expand his theological horizons and explore the rebirth of the Orthodox Church since the fall of Communism. But what he found changed some fundamental assumptions about his own tradition of North American Protestantism. In this book, Burgess looks to Orthodoxy to help the North American Protestant church—which has seen membership decline to below 50% of the population for the first time—find new ways to worship, teach, and spread its message. He

considers Orthodox rituals, icons, the attention to saints and miracles, monastic life, and Eucharistic theology and practice. He then explores whether and how Protestants can use these elements of Orthodoxy to help revitalize the mainline church. Burgess helpfully demonstrates the ways in which Orthodoxy calls us back to what is most important in Christian faith and life. *Digital Orthodoxy in the Post-Soviet World* Cornell University Press
Sacred Knowledge is the first well-documented, sophisticated account of the effect of psychedelics on biological processes, human consciousness, and revelatory religious experiences. Based on nearly three decades of legal research with volunteers, William A. Richards argues that, if used responsibly and legally, psychedelics have the potential to assuage suffering and constructively affect

the quality of human life. Richards's analysis contributes to social and political debates over the responsible integration of psychedelic substances into modern society. His book serves as an invaluable resource for readers who, whether spontaneously or with the facilitation of psychedelics, have encountered meaningful, inspiring, or even disturbing states of consciousness and seek clarity about their experiences. Testing the limits of language and conceptual frameworks, Richards makes the most of experiential phenomena that stretch our understanding of reality, advancing new frontiers in the study of belief, spiritual awakening, psychiatric treatment, and social well-being. His findings enrich humanities and scientific scholarship, expanding work in philosophy, anthropology, theology, and religious studies and bringing depth to research in

mental health, psychotherapy, and psychopharmacology.

"Tsar and God" and Other Essays in Russian Cultural Semiotics Yale University Press

Icon and Devotion offers the first extensive presentation in English of the making and meaning of Russian icons. The craft of icon-making is set into the context of forms of worship that emerged in the Russian Orthodox Church in the mid-seventeenth century. Oleg Tarasov shows how icons have held a special place in Russian consciousness because they represented idealized images of Holy Russia. He also looks closely at how and why icons were made. Wonder-working saints and the leaders of such religious schisms as the Old Believers appear in these pages, which are illustrated in halftones with miniature paintings, lithographs and engravings never before published in the English-speaking world. By tracing the artistic vocabulary, techniques and working methods of icon painters, Tarasov shows how icons have been integral to the history of Russian art, influenced by folk and mainstream currents alike. As well as articulating the specifically Russian piety they invoke, he analyzes the significance of icons in the cultural life of modern Russia in the context of popular prints and poster design.

Encounters with Orthodoxy Reaktion Books

In 'The Red Book', compiled between 1914 and 1930, Jung develops his principal theories of archetypes, the collective unconscious & the process of individuation.

The Making of Holy Russia HarperCollins Publishers

The Ku Klux Klan has peaked three times in American history: after the Civil War, around the 1960s Civil Rights Movement, and in the 1920s, when the Klan spread farthest and fastest. Recruiting millions of members even in non-Southern states, the Klan's nationalist insurgency burst into mainstream politics. Almost one hundred years later, the pent-up anger of white Americans left behind by a changing economy has once again directed itself at immigrants and cultural outsiders and roiled a presidential election. In *The Politics of Losing*, Rory McVeigh and Kevin Estep trace the parallels between the 1920s Klan and today's right-wing backlash, identifying the conditions that allow white nationalism to emerge from the shadows. White middle-class Protestant Americans in the 1920s found themselves stranded by an economy that was increasingly industrialized and fueled

by immigrant labor. Mirroring the Klan's earlier tactics, Donald Trump delivered a message that mingled economic populism with deep cultural resentments. McVeigh and Estep present a sociological analysis of the Klan's outbreaks that goes beyond Trump the individual to show how his rise to power was made possible by a convergence of circumstances. White Americans' experience of declining privilege and perceptions of lost power can trigger a political backlash that overtly asserts white-nationalist goals. *The Politics of Losing* offers a rigorous and lucid explanation for a recurrent phenomenon in American history, with important lessons about the origins of our alarming political climate.

How Our Departed Ones Live Simon and Schuster

Vladimir Zhirinovsky's second Bolshevik revolution in October 1993 shocked the world with the strength of the Russian Red-Brown alliance and the danger it poses to Russian democracy and world peace. In this book, Walter Laqueur, an expert on Russian and European history, provides a portrait of the leaders and tenets of the Russian extreme right and their attempts to win over public opinion at a time of grave domestic trouble. It is clear that Russia's long-term fate is far from settled, and this book introduces readers to a movement that may have a fateful impact on Russia in the years to come.

The Politics of Losing InterVarsity Press

In this sweeping history, Alexander Kitroeff shows how the Greek Orthodox Church in America has functioned as much more than a religious institution, becoming the focal point in the lives of the country's million-plus Greek immigrants and their descendants. Assuming the responsibility of running Greek-language schools and encouraging local parishes to engage in cultural and social activities, the church became the most important Greek American institution and shaped the identity of Greeks in the United States. Kitroeff digs into these traditional activities, highlighting the American church's dependency on the "mother church," the Greek Orthodox Patriarchate of Constantinople, and the use of Greek language in the Sunday liturgy. Today, as this rich biography of the church shows us, Greek Orthodoxy remains in between the Old World and the New, both Greek and American.

Opening the Red Door Columbia University Press

A fascinating, vivid, and on-the-ground account of Russian Orthodoxy's resurgence A bold experiment is taking

place in Russia. After a century of being scarred by militant, atheistic communism, the Orthodox Church has become Russia's largest and most significant nongovernmental organization. As it has returned to life, it has pursued a vision of reclaiming Holy Rus' that historical yet mythical homeland of the eastern Slavic peoples; a foretaste of the perfect justice, peace, harmony, and beauty for which religious believers long; and the glimpse of heaven on earth that persuaded Prince Vladimir to accept Orthodox baptism in Crimea in A.D. 988. Through groundbreaking initiatives in religious education, social ministry, historical commemoration, and parish life, the Orthodox Church is seeking to shape a new, post-communist national identity for Russia. In this eye-opening and evocative book, John Burgess examines Russian Orthodoxy's resurgence from a grassroots level, providing Western readers with an enlightening, inside look at the new Russia.

Orbis Books

Ever since its first publication in 1992, the New York Times bestselling *The End of History and the Last Man* has provoked controversy and debate. "Profoundly realistic and important...supremely timely and cogent...the first book to fully fathom the depth and range of the changes now sweeping through the world." —The Washington Post Book World Francis Fukuyama's prescient analysis of religious fundamentalism, politics, scientific progress, ethical codes, and war is as essential for a world fighting fundamentalist terrorists as it was for the end of the Cold War. Now updated with a new afterword, *The End of History and the Last Man* is a modern classic.

The Christianization of Ancient Russia Paris, France : UNESCO

Michael Cafferky sets a new standard in the field of business ethics with this comprehensive textbook from a Christian perspective. Using twelve biblical themes to evaluate contemporary ethical approaches and concerns, he covers consumer behavior, management, accounting, marketing, corporate responsibility and more.

The Story of Russia InterVarsity Press

After the Berlin Wall fell, a group of Christian colleges in the U.S seized the opportunity to help build a faith-based university in Moscow. Told by the school's founder and president, this is the story of the rise and fall of the first accredited Christian liberal arts university in Russia's history, offering unique insight on Russia's post-communist transition and the construction of a cultural-educational

bridge between the two superpowers.

Women of the Catacombs Columbia University Press

What happens when a former Zen Buddhist monk and his feminist wife experience an apparition of the Virgin Mary? "This book could not have come at a more auspicious time, and the message is mystical perfection, not to mention a courageous one. I adore this book."—Caroline Myss, author of *Anatomy of the Spirit* Before a vision of a mysterious "Lady" invited Clark Strand and Perdita Finn to pray the rosary, they were not only uninterested in becoming Catholic but finished with institutional religion altogether. Their main spiritual concerns were the fate of the planet and the future of their children and grandchildren in an age of ecological collapse. But this Lady barely even referred to the Church and its proscriptions. Instead, she spoke of the miraculous power of the rosary to transform lives and heal the planet, and revealed the secrets she had hidden within the rosary's prayers and mysteries—secrets of a past age when forests were the only cathedrals and people wove rose garlands for a Mother whose loving presence was as close as the ground beneath their feet. She told Strand and Finn: The rosary is My body, and My body is the body of the world. Your body is one with that body. What cause could there be for fear? Weaving together their own remarkable story of how they came to the rosary, their discoveries about the eco-feminist wisdom at the heart of this ancient devotion, and the life-changing revelations of the Lady herself, the authors reveal an ancestral path—available to everyone, religious or not—that returns us to the powerful healing rhythms of the natural world.

The Return of Holy Russia Metropolitan Books

How can pastors thrive amid the demands of being preacher, therapist, administrator, and CEO? We need a contemporary pastoral rule: a pattern for ministry that encourages and enables pastors to focus on what is most important in their pastoral task. Written by three veteran pastors, this book gives examples of pastoral rules in communities throughout the church's history, providing concrete advice on how pastors can develop and keep a pastoral rule today.

The Problem of Wealth Peterson Institute for International Economics

Russia is in precipitous decline, which is unlikely to be reversed. This conclusion, based on the research of Russian and American experts, constitutes the bottom

line of The Jamestown Foundation's project, *Russia in Decline*. Moreover, the tempo of Russia's decay is accelerating across virtually every fragment of its politics, economy, society and military, which renders Russia a poor candidate to survive globalization, let alone claim the mantle of a Great Power. This small volume details why Russia's spiraling into decline and disarray should keep strategists awake at night. It should also alert foreign policy, security and military planners, for whom Russia's decline will necessarily become the leitmotif of informed planning.

The Way of the Rose Columbia University Press

The memoirs presented in *Women of the Catacombs* offer a rare close-up account of the underground Orthodox community and its priests during some of the most difficult years in Russian history. The catacomb church in the Soviet Union came into existence in the 1920s and played a significant part in Russian national life for nearly fifty years. Adherents to the Orthodox faith often referred to the catacomb church as the "light shining in the dark." *Women of the Catacombs* provides a first-hand portrait of lived religion in its social, familial, and cultural setting during this tragic period. Until now, scholars have had only brief, scattered fragments of information about Russia's illegal church organization that claimed to protect the purity of the Orthodox tradition. Vera Iakovlevna Vasilevskaia and Elena Semenovna Men, who joined the church as young women, offer evidence on how Russian Orthodoxy remained a viable, alternative presence in Soviet society, when all political, educational, and cultural institutions attempted to indoctrinate Soviet citizens with an atheistic perspective. Wallace L. Daniel's translation not only sheds light on Russia's religious and political history, but also shows how two educated women maintained their personal integrity in times when prevailing political and social headwinds moved in an opposite direction.

The Red Book Holy Rus'

Since Russia has re-emerged as a global power, its foreign policies have come under close scrutiny. In *Russia and the West* from Alexander to Putin, Andrei P. Tsygankov identifies honor as the key concept by which Russia's international relations are determined. He argues that Russia's interests in acquiring power, security and welfare are filtered through this cultural belief and that different conceptions of honor provide an organizing framework that produces policies of cooperation, defensiveness and

assertiveness in relation to the West. Using ten case studies spanning a period from the early nineteenth century to the present day - including the Holy Alliance, the Triple Entente and the Russia-Georgia war - Tsygankov's theory suggests that when it perceives its sense of honor to be recognized, Russia cooperates with the Western nations; without such a recognition it pursues independent policies either defensively or assertively.

A Pastoral Rule for Today Yale University Press

Is the traditional, accepted view of the life of Christ in some way incomplete? • Is it possible Christ did not die on the cross? • Is it possible Jesus was married, a father, and that his bloodline still exists? • Is it possible that parchments found in the South of France a century ago reveal one of the best-kept secrets of Christendom? • Is it possible that these parchments contain the very heart of the mystery of the Holy Grail? According to the authors of this extraordinarily provocative, meticulously researched book, not only are these things possible — they are probably true! so revolutionary, so original, so convincing, that the most faithful Christians will be moved; here is the book that has sparked worldwide controversy. "Enough to seriously challenge many traditional Christian beliefs, if not alter them." — Los Angeles Times Book Review "Like Chariots of the Gods?...the plot has all the elements of an international thriller." — Newsweek *How the Jesuits Survived Their Suppression* Open Book Publishers A history of how mystical and spiritual influences have shaped Russia's identity and politics and what it means for the future of world civilization • Examines Russia's spiritual history, from its pagan origins and Eastern Orthodox mysticism to secret societies, Rasputin, Roerich, Blavatsky, and Dostoyevsky • Explains the visionary writings of the spiritual philosophers of Russia's Silver Age, which greatly influence Putin today • Explores what Russia's unique identity and its history of messianic politics and apocalyptic thought mean for its future on the world stage At the turn of the 20th century, a period known as the Silver Age, Russia was undergoing a powerful spiritual and cultural rebirth. It was a time of magic and mysticism that saw a vital resurgence of interest in the occult and a creative intensity not seen in the West since the Renaissance. This was the time of the God-Seekers, pilgrims of the soul and explorers of the spirit who sought the salvation of the world through art and ideas. These sages and their visions of

Holy Russia are returning to prominence now through Russian president Vladimir Putin, who, inspired by their ideas, envisions a new "Eurasian" civilization with Russia as its leader. Exploring Russia's long history of mysticism and apocalyptic thought, Gary Lachman examines Russia's unique position between East and West and its potential role in the future of the world. Lachman discusses Russia's original Slavic paganism and its eager adoption of mystical and apocalyptic Eastern Orthodox Christianity. He explores the Silver Age and its "occult revival" with a look at Rasputin's prophecies, Blavatsky's Theosophy, Roerich's "Red Shambhala," and the philosophies of Berdyaev and Solovyov. He looks at Russian Rosicrucianism, the Illuminati Scare, Russian Freemasonry, and the rise of other secret societies in Russia. He explores the Russian character as that of the "holy

fool," as seen in the great Russian literature of the 19th century, especially Dostoyevsky. He also examines the psychic research performed by the Russian government throughout the 20th century and the influence of Evola and the esoteric right on the spiritual and political milieus in Russia. Through in-depth exploration of the philosophies that inspire Putin's political regime and a look at Russia's unique cultural identity, Lachman ponders what they will mean for the future of Russia and the world. What drives the Russian soul to pursue the apocalypse? Will these philosophers lead Russia to dominate the world, or will they lead it into a new cultural epoch centered on spiritual power and mystical wisdom?

Sacred Knowledge Ars Rossica
An insider's account of the Eastern Orthodox Church, from its beginning in the era of Jesus and the Apostles to the

modern age In this short, accessible account of the Eastern Orthodox Church, John McGuckin begins by tackling the question "What is the Church?" His answer is a clear, historically and theologically rooted portrait of what the Church is for Orthodox Christianity and how it differs from Western Christians' expectations. McGuckin explores the lived faith of generations, including sketches of some of the most important theological themes and individual personalities of the ancient and modern Church. He interweaves a personal approach throughout, offering to readers the experience of what it is like to enter an Orthodox church and witness its liturgy. In this astute and insightful book, he grapples with the reasons why many Western historians and societies have overlooked Orthodox Christianity and provides an important introduction to the Orthodox Church and the Eastern Christian World.
