Why has 'the discursive turn' been sidelined in the development of a social theory of disability, and what has been the result of this? How might a social theory of disability which fully incorporates the multidimensional and multifunctional role of language be described? What would such a theory contribute to a more inclusive

understanding of 'discourse' and 'culture'? The idea that disability is socially created has, in recent years, been increasingly legitimated within social, cultural and policy frameworks and structures which view disability as a form of social oppression. However, the materialist emphasis of these frameworks and structures has sidelined the growing recognition of the central role of language in social phenomena which has accompanied the 'linguistic turn' in social theory. As a result, little attention has been paid within Disability

Studies to analysing the role of language in struggle and transformation in power relations and the engineering of social and cultural change. Drawing upon personal narratives, rhetoric, material discourse, discourse analysis, cultural representation, ethnography and contextual studies, international contributors seek to emphasize the multi-dimensional and multi-functional nature of disability language in an attempt to further inform our understanding of disability and to locate disability more firmly within contemporary mainstream social and cultural theory.

INTERNATIONAL BESTSELLER • A

bestselling dystopian novel that tackles

surveillance, privacy and the frightening intrusions of technology in our lives—a “compulsively readable parable for the 21st century” (Vanity Fair). When Mae Holland is hired to work for the Circle, the world’s most powerful internet company, she feels she’s been given the opportunity of a lifetime. The Circle, run out of a sprawling California campus, links users’ personal emails, social media, banking, and purchasing with their universal operating system, resulting in one online identity and a new age of civility and transparency. As Mae tours the open-plan office spaces, the towering glass dining facilities, the cozy dorms for those who spend nights at work, she is thrilled with the company’s modernity and activity. There are parties that last through the night,

there are famous musicians playing on the lawn, there are athletic activities and clubs and brunches, and even an aquarium of rare fish retrieved from the Marianas Trench by the CEO. Mae can't believe her luck, her great fortune to work for the most influential company in the world—even as life beyond the campus grows distant, even as a strange encounter with a colleague leaves her shaken, even as her role at the Circle becomes increasingly public. What begins as the captivating story of one woman's ambition and idealism soon becomes a heart-racing novel of suspense, raising questions about memory, history, privacy, democracy, and the limits of human knowledge.

The story of Jonah is sacred to all three

Abrahamic faiths and remains a recognizable legend even in the most secularized corners of the West. And yet the maritime prophet's story has been trivialized as a quaint children's tale, his character has been blasted by unsympathetic commentators, and even his alleged tomb has now been destroyed by Islamic State militants who, in 2014, took the city of Mosul on the Nineveh Plains. Now that Nineveh is once again in the grip of tyrannical violence and communities across the West and the Middle East are deep in a time of discord and soul-searching, we might do well to recover the story of Jonah, a guiding light, who marches into the very heart of empire and confronts it with the radical politics of the kingdom of God, even as his own certainties are

shaken to the core. "David Blower has written a marvelous reflection on what may be the Bible's most subversive and misunderstood story. Not only are his insights incisive and needed, his writing is a delight to read." --Brian D. McLaren, author/speaker/activist "I picked it up, started to read it and couldn't stop. . . . It's an irresistible, fanciful, terrifying book: brilliant, beautiful, and colourful, but brutal, awful, and confronting. . . . This is The Gospel According To Jonah for today." --Dave Andrews, Author of Plan Be, and Christi-Anarchy "Elegaic in its writing and prophetic in its message, Blower's study brings the ancient Biblical myth of Jonah back to life with fresh relevance for our times, especially so with Jonah's city so much in the news, and for the same reasons as before: that

to say, Nineveh, or Mosul in northern Iraq." --Alastair McIntosh, Professor, School of Divinity, University of Edinburgh, author of Soil and Soul and Spiritual Activism "Identifying the empire--not the big fish--as the real beast in the book, this powerful and poetic re-telling of the Jonah story brings a familiar tale to life in fresh ways, and invites readers to face the challenge of engaging creatively and vulnerably with the powers that be." --Stuart Murray Williams, Author of The Naked Anabaptist, Multi-Voiced Church and Church After Christendom "I'm still recovering from the prophetic body blow of Blower's first book, Kingdom vs. Empire, but here he is again, ready for round two. His latest is about as unsettling as it gets. I've been following

David's work for some time now. I know how he operates, but he still catches me off guard. So put down whatever you're reading, pick up this book, and brace yourself!" --Tim Nash, Nomad Podcast

"David Benjamin Blower brings us a renewed song of hope--in the shape of Jonah wrapped up in a whale. This is a work of imagination and erudition as well as an elegy that speaks of a way of being that for so long has eluded concerned Christians. At last God has given us a prophet who dares to tell us like it is. Listen up--let Jonah help us to see our task as Christians in troubled times. Read and listen to David Benjamin Blower if you dare--but with assurance that grace is so much in abundance our fretfulness will be transformed into passion." --Ann Morisy, author of

Beyond the Good Samaritan and Journeying Out David Benjamin Blower is a writer, musician, and theological agitator from Birmingham, UK. He is a prolific recording artist and the author of Kingdom vs. Empire (2013).

Multilingual Matters

Examines decadence in our language, especially that language which leads to dehumanization and degradation of human beings. Powerful illustrations may be found in the fact that, for instance, Hitler's "Final Solution" appeared "reasonable" once the Jews were successfully labelled by the Nazis as sub-humans, "parasites," "vermin," or "bacilli." So, too, the subjugation of the American Indian was "defensible" since they were defined as "barbarians" and "savages." The author of this engrossing text that was originally published in 1974 by Public Affairs Press successfully identifies and critically comments on the

racist, sexist, and ethnic slurs still predominant in society today, with the hope that this decadence will be cured. Winner of the 1983 George Orwell Award from the Committee on Doublespeak of the NCTE.

relentless onslaught of modernity and the ancient traditions that endure to this day. **LONGLISTED FOR THE BBC SAMUEL JOHNSON PRIZE**

*Practical Ethics* Vintage

For thirty years, Peter Singer's *Practical Ethics* has been the classic introduction to applied ethics. For this third edition, the author has revised and updated all the chapters and added a new chapter addressing climate change, one of the most important ethical challenges of our generation. Some of the questions discussed in this book concern our daily lives. Is it ethical to buy luxuries when others do not have enough to eat? Should we buy meat from intensively reared animals? Am I doing something wrong if my carbon footprint is above the global average? Other questions

confront us as concerned citizens: equality and discrimination on the grounds of race or sex; abortion, the use of embryos for research and euthanasia; political violence and terrorism; and the preservation of our planet's environment. This book's lucid style and provocative arguments make it an ideal text for university courses and for anyone willing to think about how she or he ought to live.

**The Mask of Benevolence** OUP USA

This special issue examines the stakes of orienting toward or away from disability as a category and as a method. Building on Sara Ahmed's conceptualization of "orientation" as the situating of queer and raced bodies, the contributors ask how the category of disability might also change how we think of bodies orienting

in space and time. Are all paths, desire lines, objects, and interpellations equally accessible? How do we conceptualize access in different spaces? What kind of theoretical and empirical turns might emerge in disorienting disability?

Drawing on feminist studies, critical race studies, and queer studies, the contributors probe the meanings of the term disability and consider disability in relation to other categories of difference such as race, gender, and class. Essays challenge the historicity of disability; push disability studies to consider questions of loss, pain, and trauma; question the notion of disability as another form of diversity; and expand arguments about the ethics of care to consider communities not conventionally defined as disabled. A Journey Into the Deaf-world Harvard University Press

"Inside Deaf Culture relates deaf people's search for a voice of their own, and their proud self-discovery and self-description as a flourishing culture. Padden and Humphries show how the nineteenth-century schools for the deaf, with their denigration of sign language and their insistence on oralist teaching,

shaped the lives of deaf people for generations to come. They describe how deaf culture and art thrived in mid-twentieth century deaf clubs and deaf theatre, and profile controversial contemporary technologies." Cf. Publisher's description.

*The Language of Oppression* Chalice Press

Spurred by ideals of individual liberty that took hold in the Western world in the late nineteenth century, psychiatrists and public officials sought to reinvent asylums as large-scale, totally designed institutions that offered a level of freedom and normality impossible in the outside world. This volume explores the "caged freedom" that this new psychiatric ethos represented by analyzing seven such buildings

established in the Austro-Hungarian monarchy between the late 1890s and World War I. In the last two decades of the Habsburg Empire, architects of asylums began to abandon traditional corridor-based plans in favor of looser formations of connected villas, echoing through design the urban- and freedom-oriented impulse of the progressive architecture of the time. Leslie Topp considers the paradoxical position of designs that promoted an illusion of freedom even as they exercised careful social and spatial control over patients. In addition to discussing the physical and social aspects of these institutions, Topp shows how the commissioned buildings were symptomatic of larger cultural changes and of the modern asylum's straining against its ideological

anchorage in a premodern past of "unenlightened" restraint on human liberty. Working at the intersection of the history of architecture and the history of psychiatry, *Freedom and the Cage* broadens our understanding of the complexity and fluidity of modern architecture's engagement with the state, with social and medical projects, and with mental health, psychiatry, and psychology.

What would you do to bring back

someone you love? After the unexpected loss of his girlfriend, a boy suffering from delusions believes he can travel through time to save her in this gripping new novel from New York Times bestselling author Beth Revis. "A story that's both heartbreaking and hopeful." —Publishers Weekly, starred review "Revis's account of grief, loss, first love, and anguish, presented through a lens of mental illness, is a must-read." —VOYA, starred review "A heartrending, beautifully complex look at mental illness, life, and loss. I tore through the pages, and, days later, this story still has a hold on me." —Alexandra Bracken, #1 New York Times bestselling author of *The Darkest Minds* series and *Passenger* Seventeen-year-old Bo has always had delusions that he can travel through time. When

he was ten, Bo claimed to have witnessed the Titanic hit an iceberg, and at fifteen, he found himself on a Civil War battlefield, horrified by the bodies surrounding him. So when his concerned parents send him to a school for troubled youth, Bo assumes he knows the truth: that he's actually attending Berkshire Academy, a school for kids who, like Bo, have "superpowers." At Berkshire, Bo falls in love with Sofia, a quiet girl with a tragic past and the superpower of invisibility. Sofia helps Bo open up in a way he never has before. In turn, Bo provides comfort to Sofia, who lost her mother and two sisters at a very young age. But even the strength of their love isn't enough to help Sofia escape her deep depression. After she commits suicide, Bo is convinced that she's not

actually dead. He believes that she's stuck somewhere in time — that he somehow left her in the past, and now it's his job to save her. Not since Ned Vizzini's *It's Kind of a Funny Story* has there been such a heartrending depiction of mental illness. In her first contemporary novel, Beth Revis guides readers through the mind of a young man struggling to process his grief as he fights his way through his delusions. As Bo becomes more and more determined to save Sofia, he has to decide whether to face his demons head-on, or succumb to a psychosis that will let him be with the girl he loves.
