Some postcolonial theorists argue that the idea of a single system of belief known as "Hinduism" is a creation of nineteenth-century British imperialists. Andrew J. Nicholson introduces another perspective: although a unified Hindu identity is not as ancient as some Hindus claim, it has its roots in innovations within South Asian philosophy from the fourteenth to seventeenth centuries. During this time, thinkers treated the philosophies of Vedanta, Samkhya, and Yoga, along with the worshippers of Visnu, Siva, and Sakti, as belonging to a single system of belief and practice. Instead of seeing such groups as separate and contradictory, they re-envisioned them as separate rivers leading to the ocean of Brahman, the ultimate reality. Drawing on the writings of philosophers from late medieval and early modern traditions, including Vijñānabhikṣu, Madhava, and Madhusudana Sarasvati, Nicholson shows how influential thinkers portrayed Vedanta philosophy as the ultimate unifier of diverse belief systems. This project paved the way for the work of later Hindu reformers, such as Vivekananda, Radhakrishnan, and Gandhi, whose teachings promoted the notion that all world religions belong to a single spiritual unity. In his study, Nicholson also critiques the way in which Eurocentric concepts—like monism and dualism, idealism and realism, theism and atheism, and orthodoxy and heterodoxy—have come to dominate modern discourses on Indian philosophy.

Exploring homegrown movements and figures, proclaims "American Hinduism" as a distinct religious tradition. Today, a new stage in the development of Hinduism in America is taking shape. After a century of experimentation during which Americans welcomed Indian gurus who adjusted their teachings to accommodate the New World context, "American Hinduism" can now rightly be called its own tradition rather than an imported religion. Accordingly, this spiritual path is now headed by leaders born in North America. Homegrown Gurus explores this phenomenon in essays about these figures and their networks. A variety of teachers and movements are considered, including Ram Dass, Siddha Yoga, and Amrit Desai and Kripalu Yoga, among others. Two contradictory trends quickly become apparent: an increasing Westernization of Hindu practices and values alongside a renewed interest in traditional forms of Hinduism. These opposed sensibilities—innovation and preservation, radicalism and recovery—are characteristic of postmodernity and denote a new chapter in the American assimilation of Hinduism.

Leaders of the country's freedom movement accepted partition of the Indian Sub-continent (albeit reluctantly) as the only solution to Hindu-Muslim problem under conditions then obtaining in the country. Pakistan drove out all Hindus and Sikhs and has, therefore, solved the problem once and for all times. India has sizeable Muslim population even after partition. This population has been steadily growing. The Hindu-Muslim problem remains far from solved so far as India is concerned. Mahatma Gandhi spent his life-time in solving the problem but failed completely. Will the small men who shout Gandhis name from the house-top succeed where the formidable Mahatma had himself failed? What are the implications of a second failure on the Hindu-Muslim front?

Originally published in Marathi in 1989, this contemporary classic details the history of women's participation in the Dalit movement led by Dr B.R. Ambedkar, for the first time. Focusing on the involvement of women in various Dalit struggles since the early twentieth century, the book goes on to consider the social conditions of Dalit women's lives, daily religious practices and marital rules, the practice of ritual prostitution, and women's issues. Drawing on diverse sources including periodicals, records of meetings, and personal correspondence, the latter half of the book is composed of interviews with Dalit women activists from the 1930s. These first-hand accounts from more than forty Dalit women make the book an invaluable resource for students of caste, gender, and politics in India. A rich store of material for historians of the Dalit movement and gender studies in India, *We Also Made History* remains a fundamental text of the modern women's movement.

The West has drawn upon Hinduism on a wide scale, from hatha yoga and meditation techniques, to popular culture in music and fashion, yet the contribution of Hinduism to the counter-culture of the 1960s has not been analysed in full. *Hinduism and the 1960s* looks at the youth culture of the 1960s and early 1970s, and the way in which it was influenced by Hinduism and Indian culture. It examines the origins of the 1960s counter-culture in the Beat movement of the 1950s, and their interest in Eastern religion, notably Zen. When the Beatles visited India to study transcendental meditation, there was a rapid expansion in interest in Hinduism. Young people were already heading east on the so-called 'Hippie Trail', looking for spiritual enlightenment and an escape from the material lifestyle of the West. Paul Oliver examines the lifestyle which they adopted, from living in ashrams to experimenting with drugs, sexual liberation, ayurvedic medicine and yoga. This engaging book analyses the interaction between Hinduism and the West, and the way in which each affected the other. It demonstrates the ways in which contemporary Western society has learned from the ancient religion of Hinduism, and incorporated such teachings as yoga, meditation and a natural holistic lifestyle, into daily life. Each chapter contains a summary and further reading guidance, and

a glossary is included at the end of the book, making this ideal reading for courses on Hinduism, Indian religions, and religion and popular culture.

America is in trouble. Out of control spending! Massive debt! Political ineptness! Constitutional indifference! Corporate greed! Union corruption! Moral chaos! Biblical faith under attack! Militant Islam! Fifth column foes within and powerful enemies without! National weakness from top to bottom! Our very survival is at stake. Is there a way out or is it too late? Our founding Fathers would be appalled, but not surprised, at the depth to which our once legitimately proud nation has plunged. Understanding the biblical view of fallen human nature they built a cultural foundation based on Judeo-Christian Law and values unknown in the world before or since. But as brilliant as they were they could not win the battle to keep the foundation intact for posterity. They charged each generation with that. *Restoring Cultural Foundations: A Wake Up Call to America* shows through a study of the Ten Commandments that a return to the Judeo-Christian principles on which the Founders built our nation is imperative for an orderly society and lasting liberty. Departing from God's ways, they believed, courted certain disaster. Written for families, businesses and churches the author lays out ways our nation can return to our foundation and regain our lost dignity, security and well-being.

This book focuses on Hindu images and their worship with special reference to Vaiṣṇavism, a major strand of Hinduism. Concentrating largely, but not exclusively, on Sanskritic source material, the author shows in the course of the book that Hindu image-worship may be understood via three levels of interpretation: the metaphysical/theological, the narrational or mythic, and the performative

or ritual.

Our Hindustan or say India is in eclipse we do not know what will happen to it in future if the birth rate of minorities is getting increased 9% to 15% where as Hindu Population has come down from 93% to 85% since Independence. Hence I call the present generation or youth to adapt a policy of enforcement of Uniform Law and order in the wake call our country as Hindustan. Minority people should not be given any weight in field of administration as is done to Hindus in Pakistan or other Muslim countries. Even China has recently banned long beards and veil for Muslim woman ,Madarasas (Muslim Institutions) and conversion. Those (non-Hindus) who want to continue to stay in India/Hindustan should adopt HINDUNESS or else ask them to leave the country and settle in Muslim countries. They should adopt Hindu Nationalism. A new syllabus on Nationalism should be curriculum in Educational System "Too much tolerance and wooing Muslims for the sake of Vote Bank needs ban and for this electioneering system should be amended"

India, once a major civilizational and economic power that suffered centuries of decline, is now newly resurgent in business, geopolitics and culture. However, a powerful counterforce within the American academy is systematically undermining core icons and ideals of Indic culture and thought. For instance, scholars of this counterforce have disparaged the Bhagavad Gita as a dishonest book ; declared Ganesha s trunk a limpphallus ; classified Devi as the mother with apenis and Shiva as a notorious womanizer who incites violence in India.

Wake Up! They Control Us from Other Dimensions!!! Oxford University Press, USA

There has always been a commotion among people on Creation Vs. Evolution. Some people believe they are souls, and some advocate the importance of the body. Suppose humans send autonomous robots to Mars for an expedition. They are connected with humans via programming. If robots evolved to be conscious, would they take humans as their souls? If we think deeply, we see that we are similar to them, and some beings from other dimensions control us. Robots are sent to Mars to send humans data via all installed devices. Similarly, humans constantly feed information to the subconscious mind via the senses. Are humans a different species of robots created by entities from higher dimensions? Buddha denounced the idea of us being souls. Instead, he suggested all humans listen to the body's vibration to get rid of suffering. We don't reincarnate; the entities learning through our senses and thoughts reincarnate. Thus, when this body dies, we die, and there is no coming back; that is the game over! This book provides several profound thought experiments and scientific analyses of conspiracy theories, spirituality, religions, time, universe, and philosophy to realize who we really are.

Changing Homelands offers a startling new perspective on what was and was not politically possible in late colonial India. In this highly readable account of the partition in the Punjab, Neeti Nair rejects the idea that essential differences between the Hindu and Muslim communities made political settlement impossible. Far from being an inevitable solution, the idea of partition was a very late, stunning surprise to the majority of Hindus in the region. In tracing the political and social history of the Punjab from the early years of the twentieth century, Nair overturns the entrenched view that Muslims were responsible for the partition of India. Some powerful Punjabi Hindus also preferred partition and contributed to its adoption. Almost no one, however, foresaw the deaths and devastation that would follow in its wake. Though much has been written on the politics of the Muslim and Sikh communities in the Punjab, Nair is the first historian to focus on the Hindu minority, both before and long after the divide of 1947. She engages with politics in post-Partition India by drawing from oral histories that reveal the complex relationship between memory and history—a relationship that continues to inform politics between India and Pakistan.
