### **Discovering Reality** Rowman & Littlefield

The essential capabilities organizations need to master turbulent change Rapid and disruptive change threatens the adaptive capacity of organizations, along with the individuals and teams leading them. Based upon over a decade of global research and consulting, Joseph E. McCann and John W. Selsky outline five capabilities

highly agile and resilient systems must possess. They must be: Purposeful, Aware, Action-Oriented, Resourceful, and Networked. In addition the authors illustrate how these capabilities can be assessed across four levels—individuals, teams, organizations, and their business ecosystems. The goal is to develop these capabilities in tandem so that the individual, team, organization and ecosystem have High AR—not just greater agility or resiliency, but both high agility and high resiliency. The authors outline balanced development strategies for creating High AR that can be used to

master turbulent environments for competitive advantage and sustained performance Includes cutting-edge concepts and examples that take readers from the latest advances in neuro-science and executive wellness to global supply chains and innovation strategy Contains illustrative examples and vignettes from leading organizations including Mayo Clinic, Microsoft, Starbucks, Southwest Airlines, TECO Energy, Shell Oil, Walmart, and others Most important, McCann, and Selsky deliver a unique and practical perspective that helps organization leaders make sense of the dynamic world

in which they operate.

The Iberian Peninsula has always been an integral part of the Mediterranean world, from the age of Tartessos and the Phoenicians to our own era and the Union for the Mediterranean. The cutting-edge essays in this volume examine what it means for medieval and early modern Iberia and its people to be considered as part of the Mediterranean.

**The Aramaic Origin of the Fourth Gospel** Routledge

Cardinal Kasper, in an address to the consistory, published in English exclusively by Paulist Press, advocates a stronger appreciation of marriage and the family—even on sensitive issues such as divorce and remarriage.

*Dictionnaire de spiritualité ascétique et mystique* CUA Press

Marked by growing freedom and equality, today's families are also dogged by brokenness and loss of faith. And while the theology of marriage has developed remarkably under the impetus of the Second Vatican Council and Pope John

Paul II, the theology of the family remains in its infancy, only beginning to meet the challenges of contemporary society. In *Divine Likeness* Marc Cardinal Ouellet points the way to a much-needed theology of the family grounded in the doctrine of the Trinity. Cardinal Ouellet understands family life to be a sacrament of Trinitarian communion, a crucial source for revealing and inspiring a new sense of God's presence in the faith community. This book will help theologians, pastors, and believers to develop fruitfully the legacy of Pope John Paul II, carrying forward the quest to let the Trinity and the family illuminate each other for the good of today's world.

*The Nuptial Mystery* Ignatius Press  
Introduction to the Mystery of the Church is an ecclesiological survey presenting a doctrinal synthesis of the Church. The author's intention is to propose an overview of this mystery in connection with the entirety of the Christian mystery. The book is divided into two major parts, the first presenting the foundations in the Bible and the tradition up to our day, and the second being an explanatory proposal introducing the reader to the Church's

definition and personality and concluding with an exposition of the four properties enunciated in the Creed (one, holy, catholic, and apostolic). The value of this way of proceeding is first and foremost in the proposal of a synthesis that allows one to situate each question in its rightful place, such study being oriented toward a better overall grasp of the subject. As the title suggests, the book is an introduction that should allow the reader to apprehend the mystery in its internal coherence in order subsequently, with the aid of other texts, to be able to enter more deeply into the study of one or other specific point. While this ecclesiology treatise is written from a Catholic point of view, an ecumenical perspective is often present, either through the presentation of divergent views from other Christian confessions or through the proposal for a theological convergence.

Dictionnaire de spiritualité ascétique et mystique, doctrine et histoire Liturgical Press

In this magisterial synthesis, Paul A. Rainbow presents the most complete account of the theology of the Johannine corpus available today. Both critical and

comprehensive, this volume includes all the books of the New Testament ascribed to John: the Gospel, the three epistles and the book of Revelation. While not proclaiming a definitive position on the question of authorship, this work seeks to shed light on the theology common to all the New Testament authors. John's root beliefs concerning God, humanity, sin, the world, and the significance of the Christ-event on eschatology unite the examined books with the rest of the New Testament canon. The Johannine corpus also highlights the important areas of christology, soteriology and ecclesiology in a manner that is worth exploration. Organizing John's ideas by the main characters around whom they revolve, the Johannine universe consists of persons divine and human, and their relationships with each other. Father, Son, Holy Spirit, faithful believers and the rest of the world are the main cast of characters that make up the rich set of writings considered in this exhaustive analysis.

*L'eucharistie des premiers chrétiens*

Vanderbilt University Press

Fiction. Short Stories. Translated from the Italian by Barbara De Marco. In SARACEN

TALES, Italian-born Giuseppe Bonaviri brings a wild newness to the tale of the life of Jesus. In this succession of stories, Bonaviri explores all manners of the known and unknown, the archetypal, the mythological, the symbolic--the life of Jesus is both his material and his point of departure. Part surrealism, part folklore, readers will be amazed at the originality and creativity with which a long-familiar tale is presented. "Bonaviri is a myth-maker, looking simultaneously to the historical past and to the future, to arrive at the a-historical, at cosmic universality"--Franco Zangrilli. Giuseppe Bonaviri was born in 1924 in Sicily. He began writing when he was ten and continued through high school, college, and in his professional life as a doctor, health official, and cardiologist. His work has been widely translated.

Gospel of the Family, The Springer Science & Business Media

The passing years, which bury so many once-famous names under deep layers of forgetfulness, are raising Matthias Joseph Scheeben to an eminence reached by very few scholars. Time is the judge of all achievements, and has pronounced its

verdict that Scheeben is the greatest theologian who has written in the German language. The reason for his importance is not hard to find. Scheeben is the chief theologian of the supernatural economy of the world. The intellectual blight known as rationalism had spread widely in the nineteenth century and had made disastrous inroads even in Christian circles. Although preliminary battles waged by Catholics who were turning back the unholy invasion, Scheeben was the champion who finally and decisively drove the enemy out of theology. From the very outset of his theological career, Scheeben had cherished the ambition of making the drab naturalistic world glow again in the light and beauty of grace, of bringing back to the awareness of men the glorious truth that they are God's children. In the first of his major books, *Nature and Grace*, he describes the supernatural as a sharing in the nature of God. This same theme, the splendor of our supernatural life, is the leading idea of all his works. He thought that a deep appreciation of the mysteries revealed by God was so important that he consecrated the tireless powers of his genius to the task of bringing out their

beauty and force, and of emphasizing their meaning for the daily life of man. He insisted that these mysteries are the richest treasure of our spiritual inheritance and that theology is the inspiration of the fullest lie open to use-supernatural life with Christ and in Christ. Scheeben's masterly theological synthesis is best proposed in *The Mysteries of Christianity*, his most original work, but was clearly formulated from the beginning of his literary activity in *Nature and Grace*, the book of his energetic youth.

**Critique of Modernity** Paulist Press

Medieval Hagiography Wm. B. Eerdmans  
Publishing

St. Paul is one of the most important figures in Christian history. As Saul of Tarsus he vigorously persecuted Christianity, even collaborating in the death of Christianity's first martyr, Stephen. His encounter with the resurrected Jesus on the road to Damascus changed Paul's life, the Christian Church, and world history. More than anyone else in the early Church, Paul saw the universal nature of the Christian message. He became the Apostle to the Gentiles and

the "Teacher of the Nations". As the human author of half of the New Testament, Paul is a figure who cannot be overlooked by anyone who wants to understand Jesus Christ and Christianity. In this book, Pope Benedict XVI, a profound spiritual leader in his own right and a first-rate theologian and Bible commentator, explores the legacy of Paul. Pope Benedict follows the course of the Apostle's life, including his missionary journeys and his relationship with the other apostles of Jesus such as St. Peter and St. James, and Paul's martyrdom in Rome. Benedict also examines such questions as: Did Paul know Jesus during his earthly life and how much of Jesus' teaching and ministry did he know of? Did Paul distort the teachings of Jesus? What role did Jesus' death and resurrection play in Paul's teaching? What are we to make of Paul's teaching about the end of the world? What does Paul's teaching say about the differences between Catholic and Protestant Christians over salvation and the roles of faith and works in the Christian life? How have modern Catholic and Protestant scholars come together in their understanding of Paul? What does

Paul have to teach us today about living a spiritual life? These and other important issues are addressed in this masterful, inspirational, and highly-readable presentation of St. Paul and his writings by one of today's great spiritual teachers, Pope Benedict XVI. "The Apostle Paul, an outstanding and almost inimitable yet stimulating figure, stands before us as an example of total dedication to the Lord and to his Church, as well as of great openness to humanity and its cultures." Pope Benedict XVI

*Johannine Theology* Ignatius Press  
Mary Anne Oliver develops an alternate to 'celibate' religious practices, drawing from the experience of couples and diverse sources in the Christian tradition. This work explores the dynamics of conjugal love.

An Introduction to New Testament Textual Criticism Cambridge University Press  
Archbishop Angelo Roncali (later Pope John XXIII) read True and False Reform during his years as papal nuncio in France and asked, "A reform of the church 'is such a thing really possible?'" A decade later as pope, he opened the Second Vatican Council by describing its goals in terms

that reflected Congar's description of authentic reform: reform that penetrates to the heart of doctrine as a message of salvation for the whole of humanity, that retrieves the meaning of prophecy in a living church, and that is deeply rooted in history rather than superficially related to the apostolic tradition. Pope John called the council not to reform heresy or to denounce errors but to update the church's capacity to explain itself to the world and to revitalize ecclesial life in all its unique local manifestations. Congar's masterpiece fills in the blanks of what we have been missing in our reception of the council and its call to "true reform." Yves Congar, OP, a French Dominican who died in 1995, was the most important ecclesiologist in modern times. His writings and his active participation in Vatican II had an immense influence upon the council documents. With a few other contemporaries, Congar pioneered a new style of theological research and writing that linked the great tradition of Scripture and the Fathers to contemporary pastoral questions with lucidity and passion. His key concerns were the unity of the church, lay apostolic life, and a revival of the

church's theology of the Holy Spirit. He was named a cardinal by Pope John Paul II in recognition of his profound contributions to the Second Vatican Council. Pal Philibert, OP, has taught pastoral theology in the United States and abroad. He is a Dominican friar of the Southern Province. His translation of a collection of Congar's essays on the liturgy has recently been published by Liturgical Press under the title *At the Heart of Christian Worship*. His book *The Priesthood of the Faithful: Key to a living Church* (Liturgical Press, 2005) reflects the ecclesiology of Yves Congar and his Vision of the apostolic life of the faithful. "

*The Way of Love* Marion Boyars Publishers  
Translated by Michelle K. Borrás  
The idea of love pervades our society, yet it is nearly impossible to answer the question What is love? especially as we witness the divorce of love from sexuality and of sexuality from procreation. Aware that many people today are skeptical about marriage, Angelo Cardinal Scola nevertheless suggests that only in the category of nuptial mystery do we find a way to adequately describe the phenomenon of love. A bright new leader

in the Catholic Church, Cardinal Scola argues that the male-female relationship lies near the heart of what it means to bear the image of God. Scola's book explores the essential sexual differences that both separate and unite men and women, and it shows how men and women can realize their purpose in marriage or celibacy. Conversant with papal teaching and Catholic writers from Aquinas to von Balthasar, Cardinal Scola writes with a deep regard for marriage and the family. His *Nuptial Mystery* will leave readers with a thoroughly Christian appreciation for incarnate love.

*How the West Really Lost God* Wiley-Blackwell

Combines historical and economic perspectives to examine the economic existence of modern man, the war against subsistence, and shadow work--the underpaid work which is unique to an industrial economy.

*De Apostolatu Laicorum* Wipf and Stock Publishers

For over two hundred years, the notion of modernity has dominated Western social thought. Yet as we approach the end of the millennium, we find the concept under

seige: constantly being challenged, rejected or refined. In *Critique of Modernity*, Alain Touraine, one of our leading social thinkers, offers an outstanding analysis and reinterpretation of the modern for the twenty-first century.

**True and False Reform in the Church**  
Ignatius Press

This book comprises a general survey of the study of New Testament manuscripts, and outlines for students of the New Testament the basic tools and skills involved in studying those manuscripts. The present edition is a thoroughly revised and updated version of Leon Vaganay's *Initiation à la critique du Nouveau Testament*, published in 1933, and each section of that original work has been brought up to date in light of the latest research in the field. In its aim to provide a solid foundation to study of New Testament textual criticism, this comprehensive survey will be of great value to those who are looking for basic information about the subject; while the documentary information it contains about the extant manuscripts, and its original theoretical sections, will ensure that the book has much of value to offer the more

advanced student of the New Testament. Matrimonio - Famiglia nel NT e nei Padri della Chiesa Wm. B. Eerdmans Publishing  
A great Catholic theologian speaks from the heart about the Heart of Christ, in a profound and lyrical meditation on Our Lord's love for his Bride the Church.

**Introduction to the Mystery of the Church** Editions Beauchesne

In response to Benedict XVI's first encyclical, the Pontifical John Paul II Institute for Studies and Marriage and Family reflects, together with the Holy Father, on love. From the very beginning, the fundamental work of the Institute has been pursuing a deeper understanding of God's plan for marriage and family. In these twenty-five years various generations of students and professors, following the legacy of John Paul II, have been able to discover and communicate the beauty of the vocation for which all men have been created: the call to love. Twenty-six professors from the Institute's various sessions express what in their understanding are the main themes of the document, approaching the topics raised by the Holy Father with different theological and philosophical perspectives;

by so doing they have highlighted the significance and fecundity of the lines of thought suggested by the Pope. This book is offered as a path towards a fuller understanding of the profundity and richness of the love with which God fills us and wants us to communicate in our turn. Divine Likeness John Wiley & Sons  
In this magisterial work, leading cultural critic Mary Eberstadt delivers a powerful new theory about the decline of religion in the Western world. The conventional wisdom is that the West first experienced religious decline, followed by the decline of the family. Eberstadt turns this standard account on its head. Marshalling an impressive array of research, from fascinating historical data on family decline in pre-Revolutionary France to contemporary popular culture both in the United States and Europe, Eberstadt shows that the reverse has also been true: the undermining of the family has further undermined Christianity itself. Drawing on sociology, history, demography, theology, literature, and many other sources, Eberstadt shows that family decline and religious decline have gone hand in hand in the Western world in a way that has not

been understood before—that they are, as she puts it in a striking new image summarizing the book’s thesis, “the double helix of society, each dependent on the strength of the other for successful reproduction.” In sobering final chapters, Eberstadt then lays out the enormous ramifications of the mutual demise of family and faith in the West. While it is fashionable in some circles to applaud the decline both of religion and the nuclear family, there are, as Eberstadt reveals,

enormous social, economic, civic, and other costs attendant on both declines. Her conclusion considers this tantalizing question: whether the economic and demographic crisis now roiling Europe and spreading to America will have the inadvertent result of reviving the family as the most viable alternative to the failed welfare state—fallout that could also lay the groundwork for a religious revival as well. *How the West Really Lost God* is both

a startlingly original account of how secularization happens and a sweeping brief about why everyone should care. A book written for agnostics as well as believers, atheists as well as “none of the above,” it will permanently change the way every reader understands the two institutions that have hitherto undergirded Western civilization as we know it—family and faith—and the real nature of the relationship between those two pillars of history.
