Numbers (The Numbers Trilogy, Book 1) Routledge
 Parenting can be a magical journey full of bliss and wonder . . . if you're on the right meds. For the rest of us, it's another thing altogether. Fowl Language Comics takes an unvarnished look at the tedium and aggravation of parenting, while never forgetting that the reason we put up with those little jerks is that we love them so damn much. By poking fun at the daily struggles parents face, these cartoons help all of us feel less alone in our continual struggle to stay sane. Brian Gordon, creator of Fowl Language Comics, has two small children of his own and knows well the trials and tribulations that go along with raising them. With more than eighteen years of experience in humorous illustration, writing, and cartooning, Brian's visual point of view is memorable, authentic, and instantly recognizable. From Brian: "They say 'write what you know.' Well, I don't know much, but I do know what it's like to be the father of two brilliant, beautiful, bat-shit-crazy kids."

 The relationship between sociology and social critique has haunted the discipline since its origins. Does critique divert sociology from its scientific project? Or is critique the ultimate goal of sociology, without which the latter would be a futile activity disconnected from the concerns of ordinary people? This issue has underpinned two divergent theoretical orientations that can be found in the discipline today: the critical sociology that was developed in its most elaborate form by Pierre Bourdieu, and the pragmatic sociology of critique developed by Luc Boltanski and his associates. In critical sociology, description in terms of power relations underscores the potency of mechanisms of oppression, the way the oppressed passively endure them, going so far in their alienation as to adopt the values that enslave them. Pragmatic sociology, by contrast, describes the actions of human beings who rebel but who are endowed with reason. It stresses their ability, in certain historical conditions, to rise up against their domination and construct new interpretations of reality in the service of critical activity. In this major new book Boltanski develops a framework that makes it possible to reconcile these seemingly antagonistic approaches - the one determinist and assigning the leading role to the enlightening science of the sociologist, the other concerned to stick as closely as possible to what people say and do. This labour of unification leads him to rework central notions such as practice, institution, critique and, finally, 'social reality,' all with the aim of contributing to a contemporary renewal of practices of emancipation.

The #1 New York Times bestselling author of the Black Dagger Brotherhood delivers the first novel in an enthralling new series set amid the shifting dynamics of a Southern family defined by wealth and privilege—and compromised by secrets, deceit, and scandal. . . . Upstairs on the sprawling estate of Easterly, the kings of the bourbon capital of the world—the Bradford family—appear to play by the rules of good fortune and taste. Downstairs, the staff works tirelessly to maintain the impeccable Bradford facade. And never the twain shall meet. For Lizzie King, Easterly's head gardener, crossing that divide nearly ruined her life. Falling in love with Tulane, the prodigal son of the bourbon dynasty, was nothing she intended—and their breakup proved her instincts right. Now, after two years, Tulane is coming home. And no one will be left unmarked. . . .

Do you know the top seven things men do that drive women nuts? Or the real reason women cry more than men do? What are men really looking for in a woman—both at first sight and for the long-term? These are only the starting points for Barbara and Allan Pease as they discuss the very real—and often very funny—differences between the sexes. *Why Men Don't Have a Clue and Women Always Need More Shoes* takes a look at some of the issues that have confused men and women for centuries. Using new findings on the brain, studies of social changes, evolutionary biology, and psychology, the Peases teach you how to make the most of your relationships—or at least begin to understand where your partner is coming from. They help women understand why men avoid commitment, what drives them to lie, and how to decode male speech to find out what they are really saying. They explain to men why women nag, how they use emotional blackmail, and how to understand (and take advantage of!) the top-secret scoring system all women apply. They also dish about the top turn-ons--and turn-offs--for both sexes. Laced with their trademark humor, *Why Men Don't Have a Clue and Women Always Need More Shoes* addresses a host of nitty-gritty battlegrounds as well, from channel surfing and toilet seats to shopping and communication. Already a #1 bestseller in the United Kingdom, Germany, Japan, Holland, Spain, Brazil, Portugal, Belgium, Ireland, France, Czech Republic, India, Singapore, Malaysia, South Africa, New Zealand, and Australia, *Why Men Don't Have a Clue and Women Always Need More Shoes* is the answer to understanding the opposite sex.

Ecotopia Harmony

This is a detailed, critical study of the reforms which have been made in recent years to the law in the State of Pakistan with the ostensible objective of bringing it into accord with the requirements of Islam. Special emphasis is given to the period

from 1977 when General Zia ul Haque adopted a period of Islamization. This is a field of investigation of considerable importance both for the advancement of legal and political theory and for practical purposes, especially as regards human rights. The author, trained both in Pakistan law and the concepts and practice of Islamic law, has been able to advance significantly our understanding of the doctrinal developments documented in this book. First published in 1994.

In recent years, a number of chronic diseases have been linked, in some cases definitively, to an infectious etiology: peptic ulcer disease with *Helicobacter pylori*, cervical cancer with several human papillomaviruses, Lyme arthritis and neuroborreliosis with *Borrelia burgdorferi*, AIDS with the human immunodeficiency virus, liver cancer and cirrhosis with hepatitis B and C viruses, to name a few. The proven and suspected roles of microbes does not stop with physical ailments; infections are increasingly being examined as associated causes of or possible contributors to a variety of serious, chronic neuropsychiatric disorders and to developmental problems, especially in children. *The Infectious Etiology of Chronic Diseases: Defining the Relationship, Enhancing the Research, and Mitigating the Effects*, summarizes a two-day workshop held by the Institute of Medicine's Forum on Microbial Threats to address this rapidly evolving field. Participants explored factors driving infectious etiologies of chronic diseases of prominence, identified difficulties in linking infectious agents with chronic outcomes, and discussed broad-based strategies and research programs to advance the field.

Integrative Psychotherapy Harper Collins

#1 New York Times bestselling author J. R. Ward delivers the second novel in her Bourbon Kings series—a sweeping saga of a Southern dynasty struggling to maintain a façade of privilege and prosperity, while secrets and indiscretions threaten its very foundation... In Charlemont, Kentucky, the Bradford family is the crème de la crème of high society—just like their exclusive brand of bourbon. And their complicated lives and vast estate are run by a discrete staff who inevitably become embroiled in their affairs. This is especially true now, when the apparent suicide of the

family patriarch is starting to look more and more like murder... No one is above suspicion—especially the eldest Bradford son, Edward. The bad blood between him and his father is known far and wide, and he is aware that he could be named a suspect. As the investigation into the death intensifies, he keeps himself busy at the bottom of a bottle—as well as with his former horse trainer's daughter. Meanwhile, the family's financial future lies in the perfectly manicured hands of a business rival, a woman who wants Edward all to herself. Everything has consequences; everybody has secrets. And few can be trusted. Then, at the very brink of the family's demise, someone thought lost to them forever returns to the fold. Maxwell Bradford has come home. But is he a savior...or the worst of all the sinners?

During a trip to China, Paul and Christine experience the nightmare of every parent: their four year old son is threatened with kidnap. The only safe place for the family is the US embassy in Beijing, but they are two thousand miles away, with the police searching frantically for them, and all airports, train stations and major roads under surveillance. They'll have no chance without help from strangers, but who will be willing to risk their lives for them? Suspenseful and rife with the page-turning storytelling that has come to define Sendker's work, *Far Side of the Night* is a brilliant and timely thriller that offers a penetrating look into contemporary China.

A groundbreaking guide to raising responsible, capable, happy kids Based on the latest research on brain development and extensive clinical experience with parents, Dr. Laura Markham's approach is as simple as it is effective. Her message: Fostering emotional connection with your child creates real and lasting change. When you have that vital connection, you don't need to threaten, nag, plead, bribe—or even punish. This remarkable guide will help parents better understand their own emotions—and get them in check—so they can parent with healthy limits, empathy, and clear communication to raise a self-disciplined child. Step-by-step examples give solutions and kid-tested phrasing for parents of toddlers right through the elementary years. If you're tired of power struggles, tantrums, and searching for the right “consequence,” look no further. You're about to discover the practical tools you need to transform your parenting in a positive, proven way.

Apollodorus and Stephanos of Athens had faced each other in

court on a number of occasions, but their running feud was brought to a head in the late 340s when Stephanos' lover Neaira was prosecuted for transgressing Athenian marriage laws. Building on Apollodorus' speech from the trial and other source material, Debra Hamel recreates Neaira's life and experiences from her lowly origins in a brothel in Corinth, to a highly paid courtesan and sex slave, her retirement and 30-year relationship with Stephanos. Neaira's story allows Hamel to touch on many aspects of Athenian social history, from issues of prostitution and adultery, to religion and slavery, the life of a female non-citizen, to the legal process of the 4th century. An engaging story through which Hamel offers an extraordinary window onto Athenian society.

Mark McMinn and Clark Campbell present an integrative model of psychotherapy that is grounded in Christian biblical and theological teaching and in a critical and constructive engagement with contemporary psychology. This foundational work integrates behavioral, cognitive, and interpersonal models of therapy within a Christian theological framework. Not only do the authors integrate Christian faith and spirituality with the latest thinking in behavioral science at a theoretical level, they also integrate the theoretical and academic with the pastoral and clinical, offering a practical guide for the practitioner. Christian Association for Psychological Studies (CAPS) Books explore how Christianity relates to mental health and behavioral sciences including psychology, counseling, social work, and marriage and family therapy in order to equip Christian clinicians to support the well-being of their clients.

Deconstructing Sexuality in the Middle East Wentworth Press

The founder of world-systems analysis explores what we can expect in the twenty-first century. The twentieth century has witnessed both the triumphs and failures of the dreams that have informed the modern world. In *Utopistics*, Immanuel Wallerstein argues that the global order that nourished those dreams is on the brink of disintegration. Pointing to the globalization of commerce, the changing nature of work and the family, the failures of traditional liberal ideology, and the danger of profound environmental crises, the founder of world-systems analysis argues that the nation-state system no longer works. The next twenty-five to fifty years will see the final breakdown of that system, and a time of great conflicts and disorder. It will also be a period in which individual and collective action will have a greater impact on the future than has been possible for 500 years.

Utopistics distills Wallerstein's hugely influential work on the modern world-system in an accessible way. This fascinating and provocative look into our collective political destiny poses urgent questions for anyone concerned with social change in the next millennium.

An in-depth investigation of traditional European folk medicine and the healing arts of witches • Explores the outlawed “alternative” medicine of witches suppressed by the state and the Church and how these plants can be used today • Reveals that female shamanic medicine can be found in cultures all over the world • Illustrated with color and black-and-white art reproductions dating back to the 16th century Witch medicine is wild medicine. It does more than make one healthy, it creates lust and knowledge, ecstasy and mythological insight. In *Witchcraft Medicine* the authors take the reader on a journey that examines the women who mix the potions and become the healers; the legacy of Hecate; the demonization of nature's healing powers and sensuousness; the sorceress as shaman; and the plants associated with witches and devils. They explore important seasonal festivals and the plants associated with them, such as wolf's claw and calendula as herbs of the solstice and alder as an herb of the time of the dead--Samhain or Halloween. They also look at the history of forbidden medicine from the Inquisition to current drug laws, with an eye toward how the sacred plants of our forebears can be used once again.

While forgiveness has historically been regarded as a religious concern, it has also become a popular topic in contemporary psychology. Unfortunately, there has been little effort to combine a Christian understanding of forgiveness with psychology. The Faces of Forgiveness, winner of the Narramore Award from the Christian Association for Psychological Studies, steps in to fill this void. The authors fuse Christian forgiveness and psychology with the unifying motif of the face; thereby building on the considerable psychological research linking emotions related to forgiveness with the human face. At a deeper level, the face can serve as a metaphor for integrating forgiveness, wholeness, and salvation. The authors argue that forgiveness should take a central role in our understanding of salvation because it is warranted by the Bible and engages our postmodern context. Pastors, psychologists, family counselors, and students of psychology and theology will find *The Faces of Forgiveness* a helpful resource.

When Time Began Da Capo Press

Exploring the contemporary dynamics of sexuality in the Middle East, this volume offers an in-depth and unique insight into this much contested and debated issue. It focuses on the role of sexuality in political and social struggles and the politicization of sexuality and gender in the region. Contributors illustrate the complexity of discourses, debates and issues, focusing in particular on the situation in Iran, Iraq, Jordan, Lebanon, Pakistan, Palestine and Turkey, and explain how they cannot be reduced to a single underlying factor such as religion, or a simple binary opposition between the religious right and feminists. Contributors include renowned academicians, researchers, psychologists, historians, human rights and women's rights advocates and political scientists, from different countries and backgrounds, offering a balanced and contemporary perspective on this important issue, as well as highlighting the implication of these debates in larger socio-political contexts.
