## RANDALL JUNE

**Zingerman's Guide to Giving Great Service** Dogwise Publishing

From the New York Times bestselling author of *Through a Dog's Eyes*—the inspiration for the PBS documentary—a paradigm-shifting approach to living with and loving our dogs There are few people who understand dogs better than Jennifer Arnold. Twenty-five years after she founded Canine Assistants, a nationally recognized nonprofit that raises and provides service dogs for people with disabilities, Arnold had an epiphany. She'd always approached the education of dogs with kindness and compassion—eschewing the faux science of fear and domination-based training methods. And she'd always understood dogs to be uniquely, uncannily attuned to their human companions; in fact she depended on it—she knew that the bond that developed between a person and their service dog was the single greatest predictor of that partnership's success and, conversely, failure to bond brought about anxiety and distress in dogs. But it wasn't until recent scientific findings confirmed her hands-on experience with dogs' intuitive social skills that she was willing to put this bold idea to the test: Dogs who bond with us completely and unconditionally will seek to please us and, with minimal cues, can learn to make remarkably sophisticated decisions about their own behavior. Sure, dogs can be taught commands such as "sit," "stay," and "heel," but even the kindest reward and punishment models were merely manipulating dogs' behavior, rather than unleashing their unique social genius and innate ability to navigate the world. In this groundbreaking, persuasive, and heartfelt book, Arnold shows us how every dog—no matter their age—can thrive through Bond-Based Choice Teaching. Her proprietary method has been hailed by leading canine behavioral scientists and is being adopted by notable dog trainers, advocates, humane societies, and puppies behind bars programs across the country. For this liberating, revolutionary method to succeed, Arnold says, love really is all you need. Advance praise for *Love Is All You Need* "Jennifer Arnold, who has trained service dogs for the past twenty years for people with physical disabilities, offers a window into the world of 'man's best friend.' Arnold, who believes that dogs are attuned to their owner's needs and emotions, shares tips she thinks every dog owner should know."—ABC News "[Arnold] takes pride in facilitating the powerful relationship between every service dog and its owner—a bond that is as much about companionship and comfort as it is about health and safety."—Everyday Health "Within the world of dogs and canine behavior there are only a handful of people who

truly 'move the needle' when it comes to innovation, novel approaches, and intuitive thinking—Jennifer Arnold is one of those rare few. Constantly pushing boundaries of traditional thought, she not only provides fresh perspectives about how we interact with and learn from man's best friend, she fearlessly forges new paths that stimulate and engage dog lovers as well as behavior experts and explores possibilities which previously may have seemed out of reach."—Victoria Stilwell, star of *Animal Planet's It's Me or the Dog* and CEO of Victoria Stilwell Positively Dog Training

*Training Your Own Service Dog 2021* Simon and Schuster A revolutionary way to raise and train your dog, with "a wealth of practical tips, tricks, and fun games that will enrich the lives of many dogs and their human companions" (Dr. Ian Dunbar, veterinarian and animal behaviorist). Zak George is a new type of dog trainer. A dynamic YouTube star and *Animal Planet* personality with a fresh approach, Zak helps you tailor dog training to your pet's unique traits and energy level—leading to quicker results and a much happier pup. For the first time, Zak has distilled the information from his hundreds of videos and experience with thousands of dogs into this comprehensive dog and puppy training guide that includes: • Choosing the right pup for you • Housetraining and basic training • Handling biting, leash pulling, jumping up, barking, aggression, chewing, and other behavioral issues • Health care essentials like finding a vet and selecting the right food • Cool tricks, traveling tips, and activities to enjoy with your dog • Topics with corresponding videos on Zak's YouTube channel so you can see his advice in action Packed with everything you need to know to raise and care for your dog, this book will help you communicate and bond with one another in a way that makes training easier, more rewarding, and—most of all—fun!

**Allison's American Way of Dog Training** "O'Reilly Media, Inc." What do science and art have to do with dog training? The science teaches you the nuances of how dogs learn. The art helps you to be more clear and inventive if your dog doesn't quite understand what you want. You will learn about breaking down behaviors using a positive, proactive approach which is a big part of the modern process of dog training.

Step by step instructions will help make what may seem insurmountable into something much simpler. This book will take you through it all:

- A look at the science behind modern training techniques and why they really work.
- Expert advice on basic training - sit, down, stay, come, door etiquette and loose leash walking.

- Addressing jumping, biting, stealing and other misbehaviors.
- Helping your dog become a Canine Good Citizen.

There is some truth in the old saying that, "dog is man's best friend." What other animal can be trained to assist man as a dog does? While most dogs can be great companions, service dogs take companionship to another level. Service dogs bring relief to people with disabilities, where human help may easily fail. The service that these dogs bring to their owners cannot be overemphasized. From helping with house chores to guiding in public areas, service dogs are truly beneficial. However, there is a lot that goes into training a service dog. From knowing the basic skills of dog training to the cost of training a single service dog, requires much from you. Due to the fact that service dogs are highly assistive, the demand for them is equally high. As a result, the number of available service dogs is small when compared to the number of people who need them. This and many other reasons have made people to start training their own service dogs. And though there are many materials on how you can train a service dog as a beginner, this book will help to break things to the barest minimum. In this book, you will learn How to go about finding the best breeds for service training Costs of training a service dog Steps you should take to train your service dog basics of training an emotional support dog Advanced training skills and tactics What you should do and shouldn't do And much more... **Selecting And Training Your Service Dog** John Wiley & Sons Good Service Dogs are Both Born and Made! Watching a service dog and her handler working as a team in a busy public space is a thing of beauty. Not every dog has the temperament or genetic make-up to do service work, but with the proper reward-based training, many dogs can succeed in public areas. Succeeding in Public Access Work is the subject of Jennifer Cattet's new book, which is especially important given some of the controversies surrounding poorly or un-trained service dogs being brought into public areas. Jennifer prepares you and your dog to meet the standards of the Public Access Test developed by Assistance Dogs International. While the book focuses on training, it also covers in detail a number of other important questions including: · How much time, effort and cost are involved in acquiring and training a service dog? · Can you train a shelter dog for service work and are there breeds of dogs you should avoid? · What are your rights and the laws relating to service dogs? · How do you deal with the public when working with your service dog?
