Dreaming the Dark Signet Book

Ever since her early days at the Findhorn Community in Scotland, Dorothy Maclean has been helping people attune to nature and connect with their inner divinity. Now, in *Choices of Love*, she discusses the nature of divine love and how each of us can avail ourselves of its power to enrich any aspect of our lives. The immensity of divine love, how to contact it, the nature of the Divine, blocks to understanding, the nature of good and evil, and the angelic world of nature and of human groupings such as cities, states, and nations, are among the topics Dorothy Maclean addresses. *Choices of Love* will leave you with a clearer understanding of yourself and of the universal love in which we all participate.

The Bible Code 2 Dan Millman

The landmark text about the inner workings of the unconscious mind—from the symbolism that unlocks the meaning of our dreams to their effect on our waking lives and artistic impulses—featuring more than a hundred images that break down Carl Jung's revolutionary ideas "What emerges with great clarity from the book is that Jung has done immense service both to psychology as a science and to our general understanding of man in society."—The Guardian "Our psyche is part of nature, and its enigma is limitless." Since our inception, humanity has looked to dreams for guidance. But what are they? How can we understand them? And how can we use them to shape our lives? There is perhaps no one more equipped to answer these questions than the legendary psychologist Carl G. Jung. It is in his life's work that the unconscious mind comes to be understood as an expansive, rich world just as vital and true a part of the mind as the conscious, and it is in our dreams—those personal, integral expressions of our deepest selves—that it communicates itself to us. A seminal text written explicitly for the general reader, *Man and His Symbols* is a guide to understanding the symbols in our dreams and using that knowledge to build fuller, more receptive lives. Full of fascinating case studies and examples pulled from philosophy, history, myth, fairy tales, and more, this groundbreaking work—profusely illustrated with hundreds of visual examples—offers invaluable insight into the symbols we dream that demand understanding, why we seek meaning at all, and how these very symbols affect our lives. By illuminating the means to examine our prejudices, interpret psychological meanings, break free of our influences, and recenter our individuality, *Man and His Symbols* proves to be—decades after its conception—a revelatory, absorbing, and relevant experience.

The Tarot Handbook BoD - Books on Demand

Das Buch zeigt dem spirituell eher noch Unerfahrenen, wie man bodenständige Spiritualität im Alltag für sich nutzen kann. Der Leser findet sich in den lebendig erzählten Erfahrungen der Autorin schnell wieder. Dadurch fällt es ihm leicht, peu à peu eine klitzekleine und dennoch entscheidende Blickwinkelkorrektur vorzunehmen. Ganz besonders in dieser Zeit dürfen wir uns die "Werkzeuge der zweiten Ebene" wieder erschließen um ein selbstbestimmtes Leben nach unseren Wünschen zu führen. Themen wie die Gesetze der Hermetik oder der sechs-gliedrige Weg des Yogi werden fundiert und doch in locker-schmunzelnder Sprache integriert um den Leser in einem Erstkontakt zum Thema neugierig zu stimmen. Jedes Kapitel schließt mit einer Übung und damit dem Angebot einer kleinen Selbsterfahrung zum Thema ab. Über die biographischen Elemente wird eine Identifikation aller Normalos mit der Autorin erreicht. Normalos, die wie die Autorin lieber Kölsch als grünen Tee trinken und die zu spät zum Wirtschaftskongress kommen, weil der Nachwuchs mit einer Wut-Kreis-Schrei-Attacke auf den Babysitter reagiert. In jedes Kapitel lässt sie ihr in zahlreichen Ausbildungen erworbenes energetisches Wissen in unterhaltsamer Sprache einfließen, macht auf die immer wirkenden Gesetze der Hermetik oder die Botschaft Jesu aufmerksam. Die Autorin lädt dazu

ein, in Situationen, in denen man den Wald vor lauter Bäumen nicht sieht, wahllos ein Kapitel des Buches aufzuschlagen, in der Gewissheit, dass das darin enthaltene Thema in Bezug zur eigenen Situation steht und als Hinweis genutzt werden kann. Der Aufruf der Autorin: "Sieh die Wahrheit hinter den Erscheinungen!"

Man and His Symbols Dan Millman

This is the second book in the Peaceful Warrior Saga. Neither a sequel nor prequel, this adventure takes place within the context of the original book, shedding new light on the path he was to travel, and would one day teach. After a period of training with the man he calls Socrates, Dan Millman is sent away by his old mentor to apply what he has learned to everyday life. Struggling with personal failure and growing disillusion, Dan sets out on a worldwide quest to rediscover the sense of clarity, meaning and purpose he found with Socrates. Then a long-forgotten memory drives Dan to seek a mysterious woman shaman in Hawaii. She is the gateway to all his hopes and fears — and the only one who can prepare him for what may follow. Deep in a rain forest on the island of Molokai, Dan encounters mortal challenges, vivid characters, and startling revelations as he ascends the peaceful warrior's path toward the light that shines at the heart of creation. In this compelling tale, the author breathes new life into ancient wisdom and reminds us that all our journeys are sacred, and all our lives an adventure.

Irgendwie magisch Sterling

"Twin Towers" was encoded in the 3000-year-old text. "Airplane" appeared in exactly the same place. "It caused to fall, knocked down" crossed "airplane" and "towers"...But it was not this terrorist attack that really shook me. It was what the Bible code predicted was yet to come. This is the sensational sequel to THE BIBLE CODE, which rocketed to the top of the bestseller charts in 1997. The discovery of a code encrypted in the Bible some 3000 years ago caught the public imagination. But if this code predicted the disastrous events of 9/11, what more can it tell us about our future? And if we are on the road to Armageddon, can it give us the information we need to survive? One word of advice - don't make big plans for 2006...

Spirituality by the Numbers H J Kramer

In this updated edition of *The Tarot Handbook*, now with a new introduction by the author, Angeles Arrien takes tarot beyond the limits of the fortune-telling realm and shows us how this time-honored application is both a visual and symbolic map of consciousness, and a source of ancient wisdom. An exciting handbook for either a beginning or an ardent student of the tarot, it contains a multitude of charts, spreads, illustrations of the Thoth Deck, and other methodology tools for anyone looking for insights into personal and spiritual development. An anthropologist who specializes in cross-cultural myths, Arrien demonstrates how the seventy-eight figures of the tarot are portraits and archetypes that are prevalent in the collective human experience. The author teaches us to use this realization to look beyond our cultural viewpoint or bias when we approach the tarot, and to rely instead on these more important universal principles, thereby deepening the quality and accuracy of our interpretations and expanding our awareness of the human psyche. A significant and classic piece of tarot literature, *The Tarot Handbook* is both a required manual for teachers and students of the subject, and an accessible and fascinating exploration of cultural anthropology.

[Having the Time of Your Life](#) The Wessex Astrologer

Perhaps the most important section in Dan Millman's best-selling book, *The Life You Were Born to Live* was titled *Laws that Change Lives*. These laws, as described, were key to overcoming the specific hurdles on a given individual's life path. Different laws played critical roles for different paths. But the author considers these laws so central to all our lives that they needed a book of their own, and a more universal treatment, since anyone could benefit from applying any of these laws. As he writes: "Within the mystery of our existence, the universe operates according to spiritual laws as real as the law of gravity and as constant as the turning of the heavens. Aligning our lives to these laws can transform our relationships, careers, finances, and health. Simply put, they make life work better." *The Laws of Spirit*, Dan Millman's "little book of big wisdom," offers a teaching tale in which he encounters an ageless woman sage while on a mountain hike. There, in the wilderness, she takes Dan and his readers through experiences and tests in the natural world that demonstrate the power of spiritual laws of balance, choice, process, presence, compassion, faith, action, patience, , surrender, and unity. As the sage relates, "These laws belong to all of us. They rest within our hearts and at the heart of every religion and spiritual tradition." As you make your own journey through the pages of this book, you will find universal solutions to the varied challenges of our lives, leading to perspective and wisdom about the meaning and purpose of our lives here, and our connection with all of creation. It begins with a single step: Open the first page of a book you will refer to again and again for inspiration and guidance on life's journey, up the mountain path.

[The Life You Were Born to Live](#) Beacon Press (MA)

Highly innovative work presenting a piercing interpretation of the tarot in terms of Jungian psychology. Through analogy with the humanities, mythology and the graphic arts, the significance of the cards is related to personal growth and individuation. The major arcana becomes a map of life, and the hero's journey becomes something that each individual can relate to the symbolism of the cards and therefore to the personal life. "Sallie Nichols, in her profound investigation of Tarot, and her illuminated exegesis of its pattern as an authentic attempt at enlargement of the possibilities of human perceptions has . . . performed an immense service for analytical psychology. Her book enriches and helps us to understand the awesome responsibilities laid upon us by consciousness On top of it all, she has done this not in an arid fashion, but as an act of knowing derived from her own experience of Tarot and its strangely translucent lights. As a result her book not only lives but quickens life in whomever it touches." --from the Introduction by Laurens van der Post

Numerology is the belief that numbers have power over events. It is a descendent of number mysticism, the belief the contemplation of numbers can give mystical and non-rational insights into life, the universe, and everything. Twenty-five hundred years ago, Pythagoras originated number mysticism, crediting certain numbers with characteristics, though numerology is a more recent invention that allots numbers, hence, characteristics to individuals. Underwood Dudley outlines here the history of number mysticism and numerology and gives many examples, including biorhythms, Bible-numberists, pyram.
