Toscani's photography often depicts what no one has ever dared to explore before in advertising, such as homosexuality, racism and anorexia. This magnificent volume explores the creative force behind brands and advertising campaigns, focusing on the finest examples of his work. Interspersed throughout are collected stories of the life of the man behind the lense from some of the major personalities in the creative industries. Contributors include the photographers, David Baily and Rankin, fashion designer Issey Miyake, designers Philippe Starck adn Kenzo Takada, the musician Peter Gabriel and film director and actor, Mathieu Kassovitz, and the entrepreneur Luciano Benetton. The book features Toscani's advertising campaigns, particularly his work with Benetton from 1982 to 2000, which was some of the most shocking advertising ever seen: in some cases provoking lawsuits and the removal of Benetton clothing from stores. However, Toscani worked wonders for the company, making it into one of the world's most recognised clothing brands - despite no items of clothing appearing in the campaigns between 1990 and 2000. Throughout the years he has also created corporate images and campaigns for companies such as Esprit, Chanel, Fiorucci, Prenatal and many more. He has collaborated as fashion photographer for international magazines such as Elle, Vogue, GQ, Harper's Bazaar, Esquire, and Liberation.

Mario Puzo wrote a book and Coppola made a film about the Mafia, but only Letizia Battaglia told the real story, the plain,

harsh story. She told Vice that her mission was "to document everything that acted as testimony against the Mafia." Drago is proud to announce its new project: an anthology, curated by Paolo Falcone, of Letizia Battaglia's extraordinary photographic work, from 1971 to 2016. Letizia Battaglia (Palermo, 1935) is a Sicilian photographer and photojournalist. Although her photos document a wide spectrum of Sicilian life, she is best known for her work on the Mafia. Over the years, Battaglia took some 600,000 images whilst documenting the ferocious internal war of the Mafia, and its assault on civil society. Battaglia sometimes found herself at the scene of four or five different murders in a single day. In a recent interview with CNN, Battaglia claimed that her "archives are full of blood" interspersed with images that capture the "immense beauty" of Sicily. The Daily Beast wrote that her pictures capture "Mafia judges and police officers, many dead in their cars with blood so fresh it glimmers like water." Yet some present daily Sicilian life with "young girls playing on the cobbled streets and wealthy women in fur collars sipping champagne." A large selection of her iconic black and white images will be presented in the catalogue, guiding the reader along a journey into one of post-war Italy's darkest periods. Drawing from Battaglia's personal archive the book also includes more recent projects. It offers a unique approach to her genre-defining photography (often linked to that of American 'crime' photographer Weegee) and a chance to reflect on the role of photography as an individual and collective means for taking action, bearing witness, providing evidence and documenting history.

Photography is a visual language in itself, and therefore lends perfectly to visual explanation. Drawing on his long professional experience as an editorial photographer,

Michael Freeman shows exactly how images work by using a beguilingly simple technique. His unique style of illustration (which he does himself) deconstructs photographs in a way that is clear, elegant and thoughtful. The information in this book can be absorbed in minutes, but last you a lifetime.
