Storytelling has come of age in the business world. Today, many of the most successful companies use storytelling as a leadership tool. At Nike, all senior executives are designated "corporate storytellers." 3M banned bullet points years ago and replaced them with a process of writing "strategic narratives." Procter Gamble hired Hollywood directors to teach its executives storytelling techniques. Some forward-thinking business schools have even added storytelling courses to their management curriculum. The reason for this is simple: Stories have the ability to engage an audience the way logic and bullet points alone never could. Whether you are trying to communicate a vision, sell an idea, or inspire commitment, storytelling is a powerful business tool that can mean the difference

between mediocre results and phenomenal success. Lead with a Story contains both ready-to-use stories and how-to guidance for readers looking to craft their own. Designed for a wide variety of business challenges, the book shows how narrative can help: \* Define culture and values \* Engender creativity and innovation \* Foster collaboration and build relationships \* Provide coaching and feedback \* Lead change \* And more Whether in a speech or a memo, communicated to one person or a thousand, storytelling is an essential skill for success. Complete with examples from companies like Kellogg's, Merrill-Lynch, Procter Gamble, National Car Rental, Wal-Mart, Pizza Hut, and more, this practical resource gives readers the guidance they need to deliver stories to stunning effect.

"I picked it up out of curiosity and I couldn't put it down."--Eugene Peterson  
Christians are comfortable saying that Christianity is about a relationship with God. Yet many might also say that they sense little meaningful relationship with God in their own

lives. After all, the foundation of good relationship is communication—but conversation with God often seems to go only one way. We may sing of walking and talking with God in the garden, His voice falling on our ears, but few have heard that beloved voice themselves. Sam Williamson acknowledges the fundamental human longing to hear God's voice and offers a hopeful supposition: God is always speaking—we've just never been taught how to recognize His voice. Williamson handles this potentially heady topic with his characteristic straightforwardness and leavening humor. This book deftly bridges the gap between solid biblical theology and practical application, addressing topics such as how to truly pray without ceasing, how to brainstorm with God, how to navigate our emotions, how to answer God's questions, and how to hear God's voice for others. Hearing God in Conversation offers simple, step-by-step lessons on how to hear God. Williamson begins with Scripture meditation. He then expands the practice of listening for

that voice everywhere—in the checkout line, on the job, in a movie theater, and even in silence. From there, he demonstrates how to hear God’s guidance when making any decision. By the end, readers’ eyes and ears will be opened to the limitless methods through which God speaks.

"Inspired me to ask myself why and to stop postponing the forgotten dreams." —Geneen Roth, #1 New York Times bestselling author of *Women Food and God* and *This Messy Magnificent Life* Full of inspirational insights and advice, lifehacks, and real-world examples, *Someday is Not a Day in the Week* is CEO Sam Horn’s motivational guide to help readers get what they want in life today rather than "someday." Are you: • Working, working, working? • Busy taking care of everyone but yourself? • Wondering what to do with the rest of your life? • Planning to do what makes you happy someday when you have more time, money, or freedom? What if someday never happens? As the Buddha said, "The

thing is, we think we have time." Sam Horn is a woman on a mission about not waiting for SOMEDAY ... and this is her manifesto. Her dad’s dream was to visit all the National Parks when he retired. He worked six to seven days a week for decades. A week into his long-delayed dream, he had a stroke. Sam doesn’t want that to happen to you. She took her business on the road for a Year by the Water. During her travels, she asked people, "Do you like your life? Your job? If so, why? If not, why not?" The surprising insights about what makes people happy or unhappy, what they’re doing about it (or not), and why...will inspire you to carve out time for what truly matters now, not later. Life is much too precious to postpone. It’s time to put yourself in your own story. The good news is, there are "hacks" you can do right now to make your life more of what you want it to be. And you don’t have to be selfish, quit your job, or win the lottery to do them. Sam Horn offers actionable, practical advice in short, snappy chapters to show you how to get started on your best life — now.

"A powerful book on an important topic. *Speak Up* helps us understand the subtle elements that contribute to our holding back valuable ideas and observations. Their TRUTH framework – which is as practical as it is rigorous – identifies essential elements to help individuals find their voice." — Amy Edmondson, Professor, Harvard Business School, Author, *The Fearless Organization* (Wiley, 2019) What you say or don’t say in a conversation can have life-defining consequences on ourselves and those around us. *Speak Up* helps you to navigate power differences so you can speak up with confidence and enable others to find their voice in a way that will be heard. Our day-to-day conversations define how we see ourselves and how we’re seen. The choices we make about what to say and who to say it to are decisive factors in whether we get promoted, or side-lined. Whether we

steer clear of trouble, or find ourselves in it up to our necks. With daily scandals hitting the headlines and the continuous need to innovate to survive, creating a more honest, open, fulfilling and productive workplace has never been more pressing. Our conversational choices harness the ideas and intelligence of the people we work with, or result in that revolutionary concept never seeing the light of day. They make us feel proud or ashamed of ourselves for what we have or have not said. They cause us to flourish and feel motivated, or result in us feeling dissatisfied and resentful. *Speak Up* helps you to navigate power differences and speak up with confidence in a way that you will be heard. But it's no good speaking up if there isn't anyone listening so we also help you to understand how your power enables others to speak up and how it might silence them. *Testing for Kindergarten* Sterling Publishers Pvt.
