Long respected as a manufacturer of sturdy agricultural machinery, the John Deere Company began in the 1960s to build a line of consumer products in a dedicated factory in Horicon, Wisconsin. Starting with a lawn and garden tractor in 1963, Deere soon entered the fast-growing snowmobile market, introducing two models in 1971. The next 13 years would see a succession of models as Deere vied against tough competitors in a weather-dependent market. This detailed history, written by two key participants in the snowmobile program, describes the development of John Deere snowmobiles from start to finish: the design and engineering decisions that shaped each important model; reception of the snowmobiles by consumers; the factory race teams; the introduction of front-engine and water-cooled models; the process of selecting engines and negotiating with suppliers, including when problems developed; and the snowmobiles' impact on product engineering. The text provides an inside view of Deere's Consumer Products Division at a time of rapid growth, and of the people and processes that made it all happen.

"Powerful, profound, and beautifully written, Brand Seduction raises the bar for every marketer to do work that truly matters." —Seth Godin, author of All Marketers Are Liars "Clever, creative, and jam-packed with useful insights, Brand Seduction shows how our brain secretly shapes our choices in ways we may never have realized." —Jonah Berger, Wharton Professor and bestselling author of Contagious and Invisible Influence For many marketing professionals, "science" is a four-letter word. They see brand-building as an unteachable art guided by their intuition and experience. But at its core, marketing aims to seed ideas into people's minds, make them feel a certain way, and, ultimately, get them to act. In Brand Seduction, Daryl reveals the latest psychological and neuroscientific discoveries about how our minds process brand information and make decisions, and the important roles our emotions and unconscious play in our selections. Welcome to the new world of neuromarketing. Through simple language, engaging stories, and real-world examples, Brand Seduction shows you how to decode, build, and use these hidden brand fantasies to grow your brand and business. You'll learn: • The surprising unconscious side of brands. • The biggest myths about consumer psychology. • The real role of emotions in building brands. • Practical tools to use neuroscience to inspire better marketing. Everyone seems to have a different idea of what brands are, how they work, and how they are built. Brand Seduction digs deeper into the nature of brands, how they exist and behave in the mind, and how marketers and business leaders can use this understanding to "seduce" customers and grow their businesses.
