 Remotely
 Colonial is a
 monograph
 that examines
 tribalism and

nationalism as
 historical
 processes in
 Kalat, which is
 today
 incorporated
 in the
 Balochistan
 Province of
 Pakistan. Kalat
 was 'remotely
 colonial' in
 two ways. It
 was located
 on the far
 reaches of the
 Indian Empire,
 and British
 interests were
 geostrategic
 rather than
 economic. The
 British
 designated
 Kalat a native
 state, but
 proceeded to
 marginalize
 the ruler in
 favour of

sardars (chiefs) and tribal governance through jirga (tribal court) deliberations. This led to tensions between local officials dealing with events on the ground and the central government, which was determined that the facade of Kalat State be maintained. Colonial subject status - tribal, client or British Protected Subject - determined rights and obligations. The

fragmentation of subjecthood produced a situation in which Kalat State became a polity with situationally defined subjects. Although Kalat State ceased to exist in 1955, its colonial structures persist today. Sardars and jirgas have become signifiers of entrenched tradition, a tribal 'other' of the national state. This is a convenient image for the Pakistani government, enabling blame for

present conditions to be pinned on the tribal sector, deflecting attention away from the state's failure to provide basic services. *Kit's Wilderness* HarperCollins UK Meet Unicorn. A powerful, blazingly honest memoir: the story of an eleven-hundred-mile solo hike that broke down a young woman reeling from catastrophe—and built her back up again. At twenty-two, Cheryl Strayed thought she had lost everything. In the wake of her mother's death, her

family scattered and her own marriage was soon destroyed. Four years later, with nothing more to lose, she made the most impulsive decision of her life. With no experience or training, driven only by blind will, she would hike more than a thousand miles of the Pacific Crest Trail from the Mojave Desert through California and Oregon to Washington State—and she would do

it alone. Told with suspense and style, sparkling with warmth and humor, Wild powerfully captures the terrors and pleasures of one young woman forging ahead against all odds on a journey that maddened, strengthened, and ultimately healed her.] Oprah's Book Club 2.0 selection: This special eBook edition of Cheryl Strayed's national best seller, Wild, features exclusive content,

including Oprah's personal notes highlighted within the text, and a reading group guide.

How can I hold myself together, when everything around me is falling apart?
Neena's always been a good girl - great grades, parent-approved friends and absolutely no boyfriends. But ever since her brother

Akash died, she's been slowly falling apart - and uncovering a new version of herself who is freer, but altogether more dangerous. As her wild behaviour spirals more and more out of control, Neena's grip on her sanity begins to weaken too. And when her parents announce not one but two life-changing bombshells, she finally reaches breaking point. But as Neena is about to

discover, when your life falls apart, only love can piece you back together. Unicorn and Rainbow Poop Scholastic UK Just as WASPs, Irish-Catholics and Our Crowd Jews once made the ascent from immigrants to powerbrokers, it is now the Indian-American's turn. Citigroup, PepsiCo and Mastercard are just a handful of the Fortune 500 companies led by a group known as the "Twice

Blessed." Yet little is known about how these Indian emigres (and children of emigres) rose through the ranks. Until now... The collapse of the Galleon Group--a hedge fund that managed more than \$7 billion in assets--from criminal charges of insider trading was a sensational case that pitted prosecutor Preet Bharara, himself the son of Indian immigrants, against the best and

brightest of the South Asian business community. At the center of the case was self-described King of Kings, Galleon's founder Raj Rajaratnam, a Sri-Lankan-born, Wharton-educated billionaire. But the most shocking allegation was that the éminence grise of Indian business, Rajat Gupta, was Rajaratnam's accomplice and mole. If not for Gupta's nose-to-the-grindstone

rise to head up McKinsey & Co and a position on the Goldman Sachs board, men like Rajaratnam would have never made it to the top of America's moneyed elite. Author Anita Raghavan criss-crosses the globe from Wall Street boardrooms to Delhi's Indian Institute of Technology as she uncovers the secrets of this subculture--an incredible tale of triumph, temptation and tragedy. *Wild (Oprah's*

PREVIOUS BOOK IN SERIES: IT ENDS WITH US, ISBN 9781501110368. Before 'It Ends with Us', it started with Atlas. Colleen Hoover tells fan favourite Atlas side of the story and shares what comes next in this long-anticipated sequel to the glorious and touching (USA

TODAY) 'It Ends With Us'. [Olive Witch](#) Penguin UK "Love Trumps All!" is a work of fiction that takes the reader, along with its protagonists, on a journey that waves of Indian immigrants have made to the US and back, and many American businessmen have made to India in search of cheap labor since the Y2K phenomenon. It is an illuminating interwoven story of five unlikely friends in a

global setting across Silicon Valley, Manhattan, Mumbai, Pune, Khamgaon (representative of small-town India full of youth with stars-and-stripes in their eyes!), Hyderabad and Nepal, as they explore their liberal progressive identities in a world powered by immigration and divided by nationality, religion, and politics. A story that spans the Y2K opportunities of 1990s to the current backdrop of

US 2016 presidential election. With rising nationalism and protectionism, uncertainties and anxieties that immigrants to the US face, the story takes on a particularly poignant hue. Universally recognizable dilemmas of patriotism vs global citizenship, traditionalism vs modernity, alienation vs fitting-in make this story one that will be read with equal interest and identification

by readers in the US as well as in India. Life-changing events alter the perspectives of the Indian as well as American characters in the book, as their search for identity and the expansion of their horizons takes them half way around the world and back, in search of their true selves. Anant Joshi, a dreamer who chases the American dream during Y2K rush and leapfrogs from a small Indian

town to set up one of the hottest and innovative Silicon Valley ventures. Chris O'Brian, an energetic and creative high-tech sales leader from New York who is driven by his passion for life, creativity and making it big. Sameera Qureshi, a young gynecologist from Hyderabad attending her medical residency in California and trying to find love and her true human identity. Amy Cohen, a

lively, articulate, compassionate pediatrician who is ready to ride on waves larger than life.

The Shade of Swords is the first cohesive history of Jihad, written by one of India's leading journalists and writers. In this paperback edition, updated to show how and why Saddam Hussein repositioned himself as a Jihadi against America, M.J.

Akbar explains the struggle between Islam and Christianity. Placing recent events in a historical context, he tackles the tricky question of what now for Jihad following the collapse of Saddam Hussein's regime. With British and American troops in Afghanistan, Pakistan, and once again in Iraq, the potential for Jihadi recruitment is ever increasing. Explaining how Jihad

thrives on complex and shifting notions of persecution, victory and sacrifice, and illustrating how Muslims themselves have historically tried both to direct and control the phenomenon of Jihad, Akbar shows how Jihad pervades the mind and soul of Islam, revealing its strength and significance. To know the future, one needs to understand the past. M.J. Akbar's The Shade of Swords holds

the key.
