A tantric massage practice for awakening and honoring male creative energy and allowing a man conscious, loving contact with his own masculinity • Empowers men to expand and deepen their experience of

arousal and sensuality • Demonstrates how deep relaxation is important to a strong and lasting erection • Shows how the lingam connects a man to his dynamic strength while the prostate is linked to his more receptive side Lingam is the Sanskrit word for the male generative organ, the penis. In India, the lingam is revered as an expression of Shiva's clarity, symbolizing the fine sword that differentiates between truth and falsehood. The goal of a lingam massage is to provide a man conscious, loving contact with his own masculinity. Western cultural expectations around

sexual "performance" have created sexual difficulties for many men, including erectile dysfunction and premature ejaculation. Through loving touch, lingam massage provides the deep relaxation that supports sustained erection, putting a man in touch with less familiar aspects of his sexuality, including the energetic responses of his perineum, prostate gland, and anus. Lingam massage is not simply a hands-on technique but involves the conscious direction of energy throughout the body. It allows men to savor longer, deeper orgasms and teaches taoist and tantric practices for conserving sexual energy. Over time, as his consciousness deepens, these practices give a man complete control over his ejaculation.

The Kama Sutra of Vatsyayana by Vatsyayana The Kama Sutra is an ancient Indian Hindu text widely considered to be the standard work on human sexual behavior in Sanskrit literature written by Vātsyāyana. A portion of the work consists of practical advice on sexual intercourse. It is largely in prose, with many inserted anustubh poetry verses. "Kāma" which is one of the four goals of Hindu life, means

desire including sexual desire the latter being the subject of the textbook, and "sūtra" literally means a thread or line that holds things together, and more metaphorically refers to an aphorism or a collection of such aphorisms in the form of a manual. Contrary to popular perception, especially in the western world, the Kama Sutra is not exclusively a sex manual; it presents itself as a guide to a virtuous and gracious living that discusses the nature of love, family life, and other aspects pertaining to pleasure-oriented faculties of human life. The Kama Sutra does reveal that Vatsyayana lived the life of a religious student, likely in Benares, and spent his time engaged in the contemplation of the highest Deity. Scholars believe that the tone Vatsyayana takes towards youth in the Kama Sutra suggests that he likely spent many years studying religion before beginning his life's work compiling the wisdom of the sages. Indeed, Vatsyayana was less of a groundbreaking philosopher and apparently more of a diligent academician. Besides transcribing the Kama Sutra more than 300 years after the Shastras had already been passed down, he also transcribed the Nyaya Sutras, an

ancient Indian text of philosophy that was composed by the buddha Gotama in the 2nd century B.C. Whereas the Kama Sutra tackles kama (or sensual pleasures), the Nyaya Sutra delineates paths for achieving moksha, or spiritual liberation from the cycle of birth and death.

Is massage an expression of man's hunger for the human touch? Can sex be a natural culmination to a pleasurable massage? Is a good masseuse likely to be a passionate lover? How does the massage experience vary from the West to the East? What are the different services that are on offer for the uninitiated? *Massage No Boom Boom* answers all these questions, and more. It is a boisterously funny, no-holds-barred undercover investigation into the complex and explosive world of massage, by someone who has received more than 3,500 massages from more than a thousand women across twenty countries all over the world. A travelogue that begins in uptight America and then moves to hedonistic East Asia, and finally to puritanical India, *Massage No Boom Boom* is a veritable catalogue of the varieties of

massages that one can experience, from the Tantric Massage to the Sandwich Massage and the Lingam and Yoni Massage. Parallel runs the story of the author's own transformation, from being a klutz in the States to gradually becoming a frequent diner at many an Asian woman's breast. Pausing occasionally for philosophical explorations of freedom, identity and desire, this is at once a cross-cultural critique, a humanist sociological text and a laugh-along guide that will amuse, inform, provoke, and above all, delight all true lovers of liberty and unbuttoned, uncensored language.

Couple's Massage Handbook JHU Press

It happened more than 450,000 years ago. Beings from outer space came to planet Earth in search of resources: fuel for a distant planet. It all began in Sumer, in ancient Mesopotamia. You may think this is an outlandish story by someone who has not slept for some days, but everything you will read is well documented in the most ancient writings known to mankind: the Enuma Elish, Atrahasis, the Epic of Gilgamesh, and many more. These writings, made in cuneiform on clay, have served as a source of inspiration for books of such importance as Genesis and Exodus in the Bible... although over time, the true knowledge has been mutated or mutilated for ideological or religious reasons. Over many years of research, Cediél has been able to verify that the facts are clear and

undeniable...it just happens that they are so difficult to believe that science prefers not to accept them, because they do not conform to the historical paradigm. Finally, after years of research, and motivated by a shamanic experience, he has decided to committed his ideas to print: The Verne Code is the result. The Verne Code speaks of penicillin before Fleming, air travel before the first modern plane, of ancient maps of great precision charting places only discovered in the 20th century, of the human genome before Craig Venter, of cloning before Dolly the sheep, of nuclear explosions before Hiroshima and Nagasaki, about the quest for immortality before Geron Corporation; a treasure trove of ancient secrets waiting to be discovered. In The Verne Code, Cediél shows evidence of the extraterrestrial origin of humankind, and argues that the writings of the most ancient civilizations are reliable sources of evidence to allow us to draw objective conclusions. The Verne Code is an exciting journey from the knowledge that existed in the most remote antiquity, to the frontiers of current scientific knowledge. The result is an anthropogenesis, a cosmogenesis, a

theory of aging and a breakthrough theory on Atlantis. Cediél also explains the importance of the Sun and anticipates the intellectual and spiritual paradigm that will rule in the next astrological age of Aquarius-Leo. Cediél denounces the state of hypnotic sleep in which mankind finds itself. He affirms the need for humanity to wake up from its dreams so you can be truly free, and master of your destiny. The author claims that we today are witness to a huge manipulation of history, just at the time in history when there is apparently the greatest freedom for the individual. Everything you know is wrong. "People must believe that they are free and not manipulated in order to be able to handle them efficiently." This is the motto of those whose objective is to reduce the vibration of the human race. Only those who realize this will be in a position to stop being manipulated, as only those who realize that they are asleep can wake up. A psycho-neural code has been implanted in our brains so that we believe we are free; we believe we belong to the tribe, the philosophical system, or the movement that will allow us to be free once and for all...but the reality is very

different: the intelligence that is fed and powered by the dream of humans has infiltrated the forums and places where humans go to stop being manipulated...evil...yes...but true.....WELCOME TO THE UNIVERSE MATRIX."
