Snap! With their new cameras Snap! a brother and sister Snap! take pictures of their vacation. But when they look at their photographs they see: 1. The back of Dad's head 2. Feet 3. A container of noodles That's it? Does 1 + 2 + 3 = summer vacation? What about how it felt to swim in the lake? What about the stories their cousins told and the taste of a just-invented strawberry and whipped cream dessert? For those memories—the memories of summer and the memories of family that mean the most—they need to look someplace else. Someplace deep inside. Someplace permanent.

2018 James Beard Award Winner: Best American Cookbook Named one of the Best Cookbooks of 2017 by NPR, The Village Voice, Smithsonian Magazine, UPROXX, New York Magazine, San Francisco Chronicle, Mpls. St. Paul Magazine and others Here is real food—our indigenous American fruits and vegetables, the wild and foraged ingredients, game and fish. Locally sourced, seasonal, “clean” ingredients and nose-to-tail cooking are nothing new to Sean Sherman, the Oglala Lakota chef and founder of The Sioux Chef. In his breakout book, *The Sioux Chef's Indigenous Kitchen*, Sherman shares his approach to creating boldly seasoned foods that are vibrant, healthful, at once elegant and easy. Sherman dispels outdated notions of Native American fare—no fry bread or Indian tacos here—and no European staples such as wheat flour, dairy products, sugar, and domestic pork and beef. The Sioux Chef's healthful plates embrace venison and rabbit, river and lake trout, duck and quail, wild turkey, blueberries, sage, sumac, timsula or wild turnip, plums, purslane, and abundant wildflowers. Contemporary and authentic, his dishes feature cedar braised bison, griddled wild rice cakes, amaranth crackers with smoked white bean paste, three sisters salad, deviled duck eggs, smoked turkey soup, dried meats, roasted corn sorbet, and hazelnut-maple bites. *The Sioux Chef's Indigenous Kitchen* is a rich education and a delectable

introduction to modern indigenous cuisine of the Dakota and Minnesota territories, with a vision and approach to food that travels well beyond those borders.

Technology-informed approaches to L2 research and teaching have prompted great interest by both researchers and

practitioners alike. This book highlights the relationship between digitally-meditated technologies and second language pragmatics by presenting exemplary applications of technology for both research and pedagogy. Part I presents technology-informed research practices that range from measuring response times when processing conversational implicature to studies examining systematic pragmatic learning via online activities and multiuser virtual environments, as well as analyzing features of pragmatic language use in social networking and longitudinal learner corpora. Part II surveys a variety of technology-assisted tools for teaching pragmatics, including: place-based mobile games, blogging, web-based testing, and automated text analysis software. The volume will be of interest for those interested in technological tools to expand the scope of traditional methods of data collection, analysis, and teaching and critically examining how technology can best be leveraged as a solution to existing barriers to pragmatics research and instruction.

A prominent theme presented in this volume is that symptoms in the bereaved individual have meaning-making significance and that meaning reconstruction in response to loss is the central process in grieving. More scientifically oriented readers will find comprehensive discussions of research programs supporting these tenets, particularly those linking grief with responses to loss involved in trauma. Practitioners will find clinically informed models and ample case descriptions to bridge concepts with real people suffering real loss. All will find new paradigms for approaching loss and reconstruction of meaning in a respectful, revealing way that has significance both personally and professionally. Why you need a writing revolution in your classroom and how to lead it The Writing Revolution (TWR) provides a clear method of instruction that you can use no matter what subject or grade level you teach. The model, also known as The Hochman Method, has demonstrated, over and over, that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback. Insurmountable as the challenges faced by many students may seem, The Writing Revolution can make a dramatic difference. And the method does more than improve writing skills. It also helps: Boost reading comprehension Improve organizational and study skills Enhance speaking abilities Develop analytical capabilities The Writing Revolution is as much a method of teaching content as it is a method of teaching writing. There's no separate writing block and no separate writing curriculum. Instead, teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave them into their content instruction. But perhaps what's most revolutionary about the TWR method is that it takes the mystery out of learning to write well. It breaks the writing process down into manageable chunks and then has students practice the chunks they need, repeatedly, while also learning content.

People We Meet on Vacation Lorenz Educational Press

Travel and tourism 'stories' have been told and recorded within every culture, in every period of oral and written history, and across the breadth of the fact/fiction continuum. Taking two broad themes as its starting point - travellers and their narratives, and place narratives in travel and tourism - the book has a

deliberately wide scope, with different chapters addressing the subject through various relevant 'lenses' and in relation to a number of different contexts. The narratives discussed include both historical and contemporary, as well as 'real-life' and fictional, narratives contained within travel writing, travel and tourism stories and different types of media. In relation to the principal themes of the book, some chapters also explore the importance of collecting memorabilia and image making in the recording, remembering, writing, telling or disseminating of stories about travel and tourism experiences and some examine the ways in which travel and tourism narratives may construct and reinforce personal, collective and place identities. The whole book is marked by an over-arching concern for narrative interpretation as a means of understanding, and providing a new perspective on, travel and tourism.

At least her kidnapper, although cold and distant, visits frequently, often bringing gifts. Before long, Chloe begins to have feelings for him that take her

WINNER OF THE SOUTHERN BOOK CRITICS CIRCLE AWARD FOR NONFICTION • "A landmark work of unflinching scholarship."—The New York Times This extraordinary account of lynching in America, by acclaimed civil rights historian Philip Dray, shines a clear, bright light on American history's darkest stain—illuminating its causes, perpetrators, apologists, and victims. Philip Dray also tells the story of the men and women who led the long and difficult fight to expose and eradicate lynching, including Ida B. Wells, James Weldon Johnson, Walter White, and W.E.B. Du Bois. If lynching is emblematic of what is worst about America, their fight may stand for what is best: the commitment to justice and fairness and the conviction that one individual's sense of right can suffice to defy the gravest of wrongs. This landmark book follows the trajectory of both forces over American history—and makes lynching's legacy belong to us all. Praise for *At the Hands of Persons Unknown* "In this history of lynching in the post-Reconstruction South—the most comprehensive of its kind—the author has written what amounts to a Black Book of American race relations."—The New Yorker "A powerfully written, admirably perceptive synthesis of the vast literature on lynching. It is the most comprehensive social history of this shameful subject in almost seventy years and should be recognized as a major addition to the bibliography of American race relations."—David Levering Lewis "An important and courageous book, well written, meticulously researched, and carefully argued."—The Boston Globe "You don't really know what lynching was until you read Dray's ghastly accounts of public butchery and official complicity."—Time
