PRECIOUS MADDEN

The Thing That Goes Ping! RH Childrens Books

Deep in the forest . . . A bear sharpens her claws on a tree trunk. The scratched bark chips; a tiny hole forms. Timber beetles tunnel inside. The hole grows bigger and bigger. In lyrical prose, Barbara Brenner reveals the fascinating happenings in one small place. She explains how, over many years, the rough hole transforms into a cozy hollow -- home to salamanders, tree frogs, a family of white-footed mice. Tom Leonard's absorbing illustrations take you beneath the bark to a hidden world. His warm, lifelike depictions of squirrels and bluebirds, snakes and spiders show the splendor that dwells in the most unexpected

places. So stop. Observe. Explore your natural world. If you look closely enough, you will surely find . . . one small place that is home for something.

Boo-Hoo Moo Random House Books for Young Readers

"English successfully challenges the established educational community to rethink the current state of research on school leadership in the social sciences...The inclusion of theory, discourse, and stories of recognized leaders followed by chapter learning extensions that include key concepts, movie recommendations, and prompted reflective journaling makes this book a most valuable resource for the educational leadership community." —H.J. Bultinck, CHOICE "The Art of Educational Leadership provides one of the most complete examinations of leadership that I have encountered. I admire the way it urges

students to think and reflect. The format allows individual learners to focus on those materials that best fit their learning style while the numerous presentations of a single topic through the different modalities strengthens the learning. This text is a fresh, new look at leadership..." —Louise L MacKay, East Tennessee State University "Fenwick W. English returns to themes of leadership he explored in more than 20 earlier books and dozens of presentation to educator audiences. He favors "re-centering educational leadership in the humanities," rather than acting on the recommendation of the business literature, and he emphasizes the use of films as a way to humanize leadership concepts." —THE SCHOOL ADMINISTRATOR "Excellent cogent analysis of key concepts of leadership are presented in a reader friendly style." —Saul B. Grossman, Temple University Moves beyond established notions of leadership to recognize that effective leading is about drama and performance—artistry! The Art of Educational Leadership: Balancing Performance and Accountability stresses the human side of leadership. No other text on this topic demonstrates so ably the importance of artistry in leadership in a field that has been lopsidedly dominated by concepts informed by science. Presenting the idea that leadership is an art, this book: Exemplifies a balance between the science and the art of educational leadership: The real improvement of practice is rooted in the art of application, which is about context and represents the key to leadership practice. Connects content material to self-discovery: Exercises at the end of each chapter include creating a personal, reflective journal to engage the reader in and reflect upon theories and practices presented in the book. Films are suggested for viewing to

illustrate the interaction between context, culture, decisions, and outcomes. Portrays multicultural leadership in action: Biography boxes throughout the book share how multicultural educational and political leaders who have been recognized as "expert" practitioners learned the art of leadership in the public arena. This is the first book in educational leadership to sketch out a balance between the science and the art of the field. The text illustrates how performance and practice represent the art, while the delineation of the skills and conceptual models represent the science.

What Was I Scared Of? Knopf Books for Young Readers Say "happy birthday," Dr. Seuss-style! This classic picture book whisks readers away on the most spectacular birthday of all time—and reminds them to celebrate themselves every day of the year! I wish we could do what they do in Katroo. They sure know how to say "Happy birthday to you!" When the Great Birthday Bird of Katroo arrives to usher in your "Day of all Days," you can expect a colorful romp full of fantastical fun that is all about YOU! Treat yourself to flowers that smell like licorice and cheese. Pick out the world's tallest pet—or a nice Time-Telling Fish. Then prepare for a party so grand it will take twenty days just to sweep up the mess. Featuring birthday festivities on every page, this joyful classic from the one and only Dr. Seuss rejoices in the person you were born to be! Today you are you! That is truer than true! There is no one alive who is you-er than you! Realist Magic HarperCollins "... The first book of poems to be published by an Australian aboriginal" -- Foreword. TANZANIA CHANGDER OUTLINE

Successfully Use Storybooks to: Reduce Planning Time Easily Work in Groups Simultaneously Target Communication and Academic Goals Storybooks provide a platform to address academic needs and therapeutic goals simultaneously while accounting for social and cultural factors. This book is over 200 pages of templates, activity ideas, and materials you need to powerfully change how students tell stories. We all love using storybooks in intervention but the question is: How do we do use them effectively? Literacy-Based Speech and Language Therapy Activities makes improving your therapy and reducing your planning time a reality. This 200-page book is full of templates, explanations, and examples for you to experience the same success we do with our busy, diverse caseloads. Section 1 highlights The Research Behind Why Literacy-Based Intervention Works so well. In Section 2 we learn how to decide if language difficulties are due to an impairment, second-language influence, or cultural difference. After reading Section 3, you will be able to take any activity including your favorite storybook and design therapy that will last for several weeks. We provide pre-, during, and post-reading explanations and activities to assist in making your literacy-based intervention applicable to all age groups and disorder classes. Taking data and measuring progress are some of the most difficult things to do well. In Section 4, we walk step-by-step through a child's story to see what is present or missing, and how to write concrete, measurable goals. Section 5 is 50 pages of easily reproducible templates to be used individually or in groups. Lastly, in Section 6, we harness the power of high engagement and make Incredible Games that Match Story Content. And a bonus! We end this book listing some of the best

storybooks for intervention that are divided by age, grade, topic, and goals.

Flight of the Honey Bee Random House Books for Young Readers

Dr. Seuss's infectious rhymes, fanciful creatures, and roundabout plots not only changed the way children read but imagined the world. And to Think That I Saw It On Mulberry Street, Green Eggs and Ham, The Cat and the Hat, these and other classics have sold hundreds of millions of copies and entertained children and adults for decades. After graduating from Dartmouth, Theodor Geisel used his talents as an ad-man, political provocateur, and social satirist, gradually but irrevocably turning to children's books. Theodor SEUSS Geisel tells the unlikely story of this remarkable transformation. In this compact and engrossing biography, Donald Pease reveals the evolution of Dr. Seuss's creative persona while offering an honest appraisal of his life. The book also features many of Dr. Seuss's lesser-known illustrations, including college drawings, insecticide ads, and wartime political cartoons—all of which offer a glimpse of his early artistic style and the visual origins of the more famous creatures that later populated his children's books. As Pease traces the full arc of Dr. Seuss's prolific career, he combines close textual readings of many of Dr. Seuss's works with a unique look at their genesis to shed new light on the enduring legacy of America's favorite children's book author.

Maybe You Should Fly a Jet! Maybe You Should be a Vet!

Routledge

Explore the what, why, and how of close reading to give students in grades 3–5 the tools they need to be successful. In this must-

have guide, teachers will learn the key elements of a close reading lesson as well as strategies for analyzing and selecting a text and how to support students based on their progress and performance. The included lesson template will allow teachers to not only use the provided lessons and texts but also create their own. Correlated to standards, this book includes grade-specific sample close reading lessons and digital copies of teacher and student resources.

Dr. Seuss's Spring Things Teacher Created Materials

Recent scholarship on children's literature displays a wide variety of interests in classic and contemporary children's books. While environmental and ecological concerns have led to an interest in 'ecocriticism', as yet there is little on the significance of the ecological imagination and experience to both the authors and readers - young and old - of these texts. This edited collection brings together a set of original international research-based chapters to explore the role of children's literature in learning about environments and places, with a focus on how children's literature may inform and enrich our imagination, experiences and responses to environmental challenges and injustice. Contributions from Australia, Canada, USA and UK explore the diverse ways in which children's literature can provide what are arguably some of the first and possibly most formative engagements that some children might have with 'nature'. Chapters examine classic and new storybooks, mythic tales, and image-based and/or written texts read at home, in school and in the field. Contributors focus on exploring how children's literature mediates and informs our imagination and understandings of diverse environments and places, and how it might open our eyes

and lives to other presences, understandings and priorities through stories, their telling and re-telling, and their analysis. This book was originally published as a special issue of *Environmental Education Research*.

Horton the elephant babysits an egg in this classic tale of kindness from Dr. Seuss. Enjoy this heartwarming story anytime, anywhere. With audio brilliantly read by actress and comedian Miranda Richardson.

THE LORAX Candlewick Press

This book is a tour de force for helping with reading and counting to ten, using a vocabulary of only 75 words! A lion, dog, and tiger find many interesting ways to balance ten apples vertically on their heads, building up from only one. Then the birds decide they would like the apples, and the fun really begins. The conclusion will leave your child giggling happily.

Happy Birthday to You! Paw Prints

The Journey Home ranges from the surreal cityscapes of Hoboken and Manhattan to the solitary splendor of the deserts and mountains of the Southwest. It is alive with ranchers, dam builders, kissing bugs, and mountain lions. In a voice edged with chagrin, Edward Abbey offers a portrait of the American West that we'll not soon forget, offering us the observations of a man who left the urban world behind to think about the natural world and the myths buried therein. Abbey, our foremost "ecological philosopher," has a voice like no other. He can be wildly funny, ferociously acerbic, and unexpectedly moving as he ardently champions our natural wilderness and castigates those who would ravish it for the perverse pleasure of profit.

Little Miss Sunshine Routledge

The Educational Significance of Human and Non-Human Animal Interactions explores human animal/non-human animal interactions from different disciplinary perspectives, from education policy to philosophy of education and ecopedagogy. The authors refute the idea of anthropocentrism (the belief that human beings are the central or most significant species on the planet) through an ethical investigation into animal and human interactions, and 'real-life' examples of humans and animals living and learning together. In doing so, Rice and Rud outline the idea that interactions between animals and humans are educationally significant and vital in the classroom.

The Great Kapok Tree Teacher Created Materials

Object-oriented ontology offers a startlingly fresh way to think about causality that takes into account developments in physics since 1900. Causality, argues, Object Oriented Ontology (OOO), is aesthetic. In this book, Timothy Morton explores what it means to say that a thing has come into being, that it is persisting, and that it has ended. Drawing from examples in physics, biology, ecology, art, literature and music, Morton demonstrates the counterintuitive yet elegant explanatory power of OOO for thinking causality.
