The Night Is Young takes us past the stereotypes of macho hombres and dark-eyed señoritas to reveal the complex nature of sexuality in modern-day

Mexico. Drawing on field research conducted in Guadalajara, Mexico's second-largest city, Héctor Carrillo shows how modernization, globalization, and other social changes have affected a wide range of hetero- and homosexual practices and identities. Carrillo finds that young Mexicans today grapple in a variety of ways with two

competing tendencies. On the one hand, many seek to challenge traditional ideas and values they find limiting. But they also want to maintain a sense of Mexico's cultural distinctiveness, especially in relation to the United States. For example, while Mexicans are well aware of the dangers of unprotected sex, they may also prize the

surrender to sexual passion, even in casual sexual encounters—an attitude which stems from the strong values placed on collective life, spontaneity, and an openness toward intimacy. Because these expectations contrast sharply with messages about individuality, planning, and overt negotiation commonly promoted in global public health efforts, Carrillo argues that they demand a new approach to AIDS prevention education in Mexico. A Mexican native,

Carrillo has written an exceptionally insightful and accessible study of the relations among sexuality, social change, and AIDS prevention in Mexico. Anyone concerned with the changing place of sexuality in a modern and increasingly globalized world will profit greatly from *The Night Is Young*.

Looking Backward: 2000-1887 HarperCollins (UK)

Throughout this splendid book, grounded in the intimate joys and trepidations of new

motherhood, there is an undercurrent of foreboding about the kind of world we are bequeathing to our children—a world ravaged by environmental degradation and political strife. But Meghan Sterling's unflinching depiction of the imperiled world that her daughter will likely inherit is tempered by the abiding lessons of her Jewish ancestral history, a reverence for the natural world in all its seemingly unstoppable splendor, and an unquenchable

hope that the future is ours to redeem: ". . . to you I bequeath / all the courage / of birds and flowers, / water and stones, / to love enough, / to love with the toughness of trees." -Richard Foerster

Geoff Kersey's Pocket Book for Watercolour Artists HarperCollins

It's been 21 days since the hundred landed on Earth. They're the only humans to set foot on the planet in centuries... or so they thought. Book 2 in The 100 series, now a popular show on the CW

network. Facing an unknown enemy, Wells attempts to keep the group together. Clarke strikes out for Mount Weather, in search of other colonists, while Bellamy is determined to rescue his sister, no matter the cost. And back on the ship, Glass faces an unthinkable choice between the love of her life and life itself. In this pulse-pounding sequel to The 100, secrets are revealed, beliefs are challenged, and relationships are tested. And the hundred will

struggle to survive the only way they can-- together.

Developing Your Watercolours McGraw-Hill Companies

Developing Your Watercolours is a practical, structured course for watercolour painters with some experience - continuing where the very successful Watercolour Landscape Course (published in 1993 and reprinted 7 times) left off.

The Isabella Stewart Gardner Museum B. T. Batsford Limited

First reviewing the roots of the English watercolor tradition, the author then takes a practical and informative look at materials, subject choice, how to paint landscape features, weather conditions, buildings (including advice on perspective), and different methods and techniques of composing paintings and using color--Jacket.

Timothy Morton argues that ecological awareness in the present Anthropocene era takes the form of a strange loop or Möbius strip, twisted to have only one side. Deckard travels this oedipal path in Blade Runner (1982) when he learns that he might be the enemy he has been ordered to pursue. Ecological awareness takes this shape because ecological phenomena have a loop form that is also fundamental to the

structure of how things are. The logistics of agricultural society resulted in global warming and hardwired dangerous ideas about life-forms into the human mind. Dark ecology puts us in an uncanny position of radical self-knowledge, illuminating our place in the biosphere and our belonging to a species in a sense that is far less obvious than we like to think. Morton explores the logical foundations of the ecological crisis, which is suffused with the melancholy and negativity

of coexistence yet evolving, as we explore its loop form, into something playful, anarchic, and comedic. His work is a skilled fusion of humanities and scientific scholarship, incorporating the theories and findings of philosophy, anthropology, literature, ecology, biology, and physics. Morton hopes to reestablish our ties to nonhuman beings and to help us rediscover the playfulness and joy that can brighten the dark, strange loop we traverse.

The Wages of

Whiteness DIANE Publishing
In this second book in a series covering elements of the landscape, renowned watercolourist, David Bellamy shows how to paint skies, light and atmosphere and how choices involving these three key elements can affect a painting. Starting with skies, David Bellamy covers basic techniques, composition, clouds, special effects like silver linings, sunsets and shafts of light, and much more, then there is a step by step dramatic sky

demonstration. Next comes light, with plenty of advice including warm and cool light, using glazes, cast shadows, light from different directions, painting the sun and reflected light, followed by a step by step demonstration featuring strong light and shadow. The atmosphere section covers haze and mist, fog, mountains in cloud, smoke and steam, rain, storms and tranquil moods, and is followed by an atmospheric step by step painting of a waterfall. David Bellamy's

extensive travels and much admired painting style ensure that there are plenty of beautiful, inspiring paintings of skies, light and atmosphere throughout the book.

Elizabeth Hall began writing I HAVE DEVOTED MY LIFE TO THE CLITORIS

in the summer of 2010 after reading Thomas Laqueur's Making Sex. She was particularly struck by Laqueur's bold assertion: "More words have been shed, I suspect, about the clitoris, than about any other organ, or at least, any organ its size." How was it possible that Hall had been reading compulsively for years and never once stumbled upon this trove of prose devoted to the clit? If Lacquer's claim was correct, where were all these "words"? And more:

what did size have to do with it? Hall set out to find all that had been written about the clit past and present. As she soon discovered, the history of the clitoris is no ordinary tale; rather, its history is marked by the act of forgetting. "Marvelously researched and sculpted... Bulleted points rat-tat-tatting the patriarchy, strobing with pleasure." Dodie Bellamy "Freud, terra cotta cunts, hyenas, anatomists, and Acker, mixed with a certain slant of light on a windowsill and a leg thrown open

invite us... Bawdy and beautiful." Wendy C. Ortiz "Gorgeous little book about a gorgeous little organ... Mines discourses as varied as sexology, plastic surgery, literature and feminism to produce an eye-opening compendium... The 'tender button' finally gets its due." Janet Sarbanes "God this book is glorious... You will learn and laugh and wonder why it took you so long to find this book." Suzanne Scanlon "The luxury of lingering in pleasure is what Hall's book gives its

readers, not only because the subject is at once sexy and scientifically compelling, but because it is rendered with graceful care, delivering in small bites an investigation of the clit that is simultaneously a meditation on the myriad ways in which smallness hides power." The Rumpus"

From 70s ritual performances to the post-feminism of a new century, Mary Beth

Edelson has been destabilizing preexisting representations of women. Whether in her version of the Last Supper, in which Georgia O'Keeffe plays Christ to disciples Lee Krasner, Nancy Graves, Louise Bourgeois, and Yoko Ono; or in her isolation and re-narrativization of stereotypical images of Hollywood femmes fatales, Edelson never loses sight of what is at stake in her work: the construction, representation, and consumption of images of

women. This book, a virtual scrapbook of the feminism movement, includes conversations between Edelson and such seminal feminist figures as Carolee Schneemann, Nancy Spero, and Miriam Schapiro. Designed by the artist and full of 30 years worth of her multidisciplinary feminist and community-based work, *The Art of Mary Beth Edelson* offers Edelson the ultimate control over the construction of her own image in the present and

the opportunity to recontextualize her past. *Painting with Watercolour* Univ of California Press Tim Fisher makes the most of the superbly versatile qualities of acrylics and demonstrates his own innovative and inspiring techniques for painting a gorgeous selection of popular flowers. The reader learns how to select the right paints and the best brushes for the great range of techniques, including negative painting, masking, washes, impasto

methods, texturing and much more. There are richly illustrated sections on using colour and sketching and planning paintings, and many handy tips throughout. A fantastic book for artists of all skill levels who want to create atmosphere, experiment with colour and paint accomplished, beautiful paintings.

A 2015 Whitney Award Nominee! A powerful

story of loss, second chances, and first love, reminiscent of Sarah Dessen and John Green. When Oakley Nelson loses her older brother, Lucas, to cancer, she thinks she'll never recover. Between her parents' arguing and the battle she's fighting with depression, she feels nothing inside but a hollow emptiness. When Mom suggests they spend a few months in California with Aunt Jo, Oakley isn't sure a change of scenery will alter anything, but she's willing to give it a

try. In California, Oakley discovers a sort of safety and freedom in Aunt Jo's beach house. Once they're settled, Mom hands her a notebook full of letters addressed to her—from Lucas. As Oakley reads one each day, she realizes how much he loved her, and each letter challenges her to be better and to continue to enjoy her life. He wants her to move on. If only it were that easy. But then a surfer named Carson comes into her life, and Oakley is blindsided. He makes her

feel again. As she lets him in, she is surprised by how much she cares for him, and that's when things get complicated. How can she fall in love and be happy when Lucas never got the chance to do those very same things? With her brother's dying words as guidance, Oakley knows she must learn to listen and trust again. But will she have to leave the past behind to find happiness in the future? Sky Pony Press, with our Good Books, Racehorse and Arcade imprints, is proud to

Starlight on Willow Lake National Geographic Books

What if when you died, no one would ever know you were all that stood between man and the enemy? When Jonathan Tibbs awakes in a puddle of his own blood, there isn't a scratch on him to explain it. In the weeks to follow, he comes to find he's been drafted for a war with a violent otherworldly species. A war that only he can remember. Now, the man

Jonathan imagined himself becoming is no longer the man who can endure his future. The first installment in this science fiction action adventure series, *The Never Hero* is a gritty and honest look at the psychological journey of a man forced to forge himself into a weapon. Abandoned with little guidance, and at the mercy of a bargain struck far outside his reach, Jonathan races to unlock the means to surmount the odds, and understand the mystery behind a

conflict raging outside of time and memory. In the end, the real question is what Jonathan is willing to become to save a planet that will never see his sacrifice.
