Food at Sea: Shipboard Cuisine from Ancient to Modern Times traces the preservation, preparation, and consumption of food at sea, over a period of several thousand years, and in a variety of cultures. The book traces the development of cooking aboard in ancient and medieval times, through the development of seafaring traditions of storing and preparing food on the world's seas and oceans. Following a largely chronological format, Simon Spalding shows how the raw materials, cooking and eating equipments, and methods of preparation of seafarers have both reflected the shoreside practices of their cultures, and differed from them. The economies of whole countries have developed around foods that could survive long trips by sea, and new technologies have evolved to expand the available food choices at sea. Changes in ship construction and propulsion have compelled changes in food at sea, and Spalding's book explores these changes in cargo ships, passenger ships, warships, and other types over the centuries in fascinating depth of detail. Selected passages from songs and poems, quotes from seafarers

famous and obscure, and new insights into culinary history all add spice to the tale.

Volume 6/2 of the Catalogue of Palaeartic Coleoptera focuses on the second part of the beetle superfamily Chrysomeloidea reported from the Palaeartic biogeographic region. For the genus and species-groups taxa all relevant names are given and all nomenclatural data are cross-checked and the distribution of species and subspecies is given per country or smaller region. A group of 14 experts have worked to collect data based on a critical review of published sources including a significant amount of new information. This volume is also a tool for specialists as well as amateurs, which warrants unambiguous communication.

The legend of St. Tropez starts with a dog, a rooster, and a martyr; and it leads to movie stars, world-renowned artists and distinguished writers. Located on the sparkling French Riviera, St. Tropez has enjoyed the spotlight for more than half a century, for better or worse, with celebrities flocking to this idyllic locale for its beaches and a dose of Mediterranean sun. A picturesque oasis, St. Tropez has served as inspiration for a who's who of notable writers from Françoise Sagan to Colette; as well as renowned artists Paul Signac and Henri Matisse; and even filmmakers. However, St. Tropez would not be the same without then belle du jour Brigitte Bardot, her films and lovers and many other famous couples including Annabel and Bernard Buffet and Bianca and Mick Jagger.

This book is a social history of the ritual and custom of churching, a liturgical rite of purification after childbirth performed on a woman's first visit to church after giving birth. The book describes the development of the rite from its original meaning as a response to blood pollution to its redefinition as a rite that honoured marriage.

The fact that Picasso joined the French Communist Party in 1944

and remained a loyal member to the end of his long life presents puzzling contradictions. How can the image of him as a protean genius be reconciled with his membership in a repressive political organization that maintained an authoritarian hold on its artistic community and all but obliterated the freedom of the creative mind? How could the creator of Guernica, lauded at that time as the champion of civilian victims of totalitarian aggression, support the policies of the Soviet Union? This stimulating book is the first comprehensive examination of Picasso's political commitment, his motivations to join the French Communist Party, and his contributions as an active member. Gertje R. Utley assesses the impact communism had on the artist's life and explores how Picasso's political beliefs and the doctrines of the Communist Party affected his artistic production. Utley provides the first account in English of the intricate relations between the French Communist Party and its artists in the years immediately following the Liberation. She then examines in detail the role Picasso played within the Communist agenda, his financial and moral support, his active participation at Party events, and his artistic endorsement of the Party's most important ideological positions during the Cold War years. Addressing Picasso's unflinching loyalty in the face of both the Party's untenable political positions and the opposition within the Party to his art, this book offers new insight into aspects of the artist's thought and art that have been little considered before.

Large numbers of Greco-Italic and Dressel 1 amphorae were exported to many parts of Gaul during the late Iron Age and they provide a major source of information on the development and growth of the Roman economy during the late Republican period.

French cuisine is considered among the world's best, but its traditional ingredients like butter and cream aren't always appropriate for today's heart-healthy diets. New World Provence is a new-style French cookbook designed with contemporary

North American audiences in mind, featuring healthy, easy-to-find ingredients prepared using traditional French techniques tweaked with the home cook in mind. The book includes beautiful yet simple recipes that take advantage of meats, seafood, and vegetables abundant in North American markets; in keeping with their contemporary flair, pan-cultural influences abound, yet all the while the recipes remain faithful to French traditions. Authors Jean-Francis and Alessandra Quaglia are the husband-and-wife chefs and owners of Provence and Provence Marinaside, two fine dining establishments in Vancouver. Their recipes reflect not only North American sensibilities, but familial ones as well; they are the parents of two young sons, and Jean-Francis' mother owns the famed Le Patalain restaurant in Marseilles, France. These relationships pervade the book, which reveals how a common love and respect for food can be passed on from generation to generation, from the old world to the new. The book features thirty-six stunning, full-color photographs and over 120 recipes, including prawns with chickpea galette, whole rabbit barbecue, bean and wild mushroom ragout, fresh crab with tomatoes and fresh herbs, roasted vegetable tart, poached sea urchin on bread, and new-style bouillabaisse.

'We have two cuisines in France, that of the north and that of the south', boldly stated the first cookbook directly concerned with southern French cuisine in 1830. This book investigates the reasons for and background to these differences, specifically in Provence. In the absence of cookbooks for the region in the 18th century, it uses innovative methodologies relying on a range of hitherto unexplored primary resources, ranging from household accounts and manuscript recipes to local newspapers and gardening manuals that focus on the actuality of the 18th century Provençal table. The sources emphasise the essentially seasonal and local nature of eating in Provence at this time. In many ways eating habits echoed generalised French patterns, according to class, but at the same time the use of particular foods and culinary practices testified to a distinctive Provençal food culture, partly related to geographic and climatic differences but also to cultural influences. This food culture represented the foundation for the Provençal cuisine which was recognised and codified in the early 19th century. From a diverse archive of documents has emerged new evidence for the cultivation and consumption of potatoes and tomatoes in Provence and for the origins and evolution of emblematic dishes such as bourride, bouillabaisse and brandade. In linking the coming-of-age of Provençal cuisine to post-Revolutionary culture, in particular the success of restaurants and the flourishing of gastronomic discourse, this book offers a new understanding of the development and evolution of regional cuisines.

Chrysomeloidea II (Orsodacnidae, Megalopodidae, Chrysomelidae) - Part 2 Penguin

From cities to quaint towns and everything in between, Provence has something for everyone. Swim in the crystal clear waters of the Calanque de Sormiou in Marseille. Drive with the top down through fields of lavender in Valensole. Experience a bite of just-out-of-the-oven fougasse, a Provençal classic. Stand in awe of the beautiful, white Camargue horses native to the area. Located in the South of France, Provence is uniquely positioned to be a cultural blend of the Mediterranean. Roman landmarks still prevail from the 1st century AD alongside châteaux from medieval times—a varied legacy brightened by the indigenous mimosas and cypresses.

Language Politics and Language Survival: Yiddish among the haredim in post-war Britain outlines the history and development of the Yiddish language as it is used among Ultra-Orthodox Jews in contemporary Britain. The language policies of these communities are analysed and placed within the greater socio-historical and religious context of rabbinic justifications for the use of Jewish languages, and of Yiddish in particular. Reasons for the general abandonment of Yiddish outside of the haredi world are also summarized and placed in juxtaposition with the Yiddish language of loyalty of the haredim. Yiddish language and corpus planning in haredi schools is analysed using communal documents and newspaper articles, educational assessments of Jewish schools compiled by Her Majesty's Inspectors, a number of interviews with communal educators, tape recordings of lessons given in Yiddish, and observations made during my own visits to haredi educational institutions. A significant part of this book is dedicated to the analysis of the Yiddish language itself as it is currently used in Britain. The analysis of spoken Yiddish is based on recordings of speech patterns collected in the course of field work in haredi schools in London and Manchester and focuses primarily on dialectal usage based on religious sect and the geographic region within Britain. A brief sociological analysis of haredi literature in Yiddish is provided in order to demonstrate the ideological function of Yiddish language texts in contemporary Britain, and in the haredi world in general. The primary materials used for this are texts produced by, and published within, the haredi communities of Britain.
