Introduction to Arabic Natural Language Processing Course Technology

This book provides system developers and researchers in natural language processing and computational linguistics with the necessary background information for working with the Arabic language. The goal is to introduce Arabic linguistic phenomena and review the state-of-the-art in Arabic processing. The book discusses Arabic script, phonology, orthography, morphology, syntax and semantics, with a final chapter on machine translation issues. The chapter sizes correspond more or less to what is linguistically distinctive about Arabic, with morphology getting the lion's share, followed by Arabic script. No previous knowledge of Arabic is needed. This book is designed for computer scientists and linguists alike. The focus of the book is on Modern Standard Arabic; however, notes on practical issues related to Arabic dialects and languages written in the Arabic script are presented in different chapters. Randy Hames (as Irv Harrigan) co-hosted the last 30 years of the show's run with his on-air partner and life-long friend Fred Olson (Mac Hudson), and together they forged a new format and broke new ground as an early-morning comedy team, with unprecedented tenure and ratings success. Over the decades, much misinformation has been written and circulated about how the behind-the-microphone title characters changed and the format was modified, so Hames has meticulously researched the show's history through endless conversations with its principal players. Houston's Morning Show carefully chronicles the program's wild and sometimes wacky twists and turns with wit and accuracy, and it pulls back the curtain so readers can experience for themselves the demands and rewards of anchoring a blockbuster, major-market team show. From local Texas ownership to CBS, from the fictional Jim Bob Jumpback to Tyrone Tyrone Tyrone, from the original Hudson and Harrigan to the final duo, Hames painstakingly recounts the evolution of one of the most hilarious, iconic and award-winning morning team shows in broadcasting history. A must read for fans and industry insiders alike, Houston's Morning Show is a one-of-a-kind, firsthand, fanciful romp through radio's heyday.

The Old English Dialogues of Solomon and Saturn Course Technology

First modern edition, with facing translation, of two of the most mysterious Old English texts extant.

Written in My Soul D. S. Brewer

Buster Gaines, a naïve, newly minted high school graduate in need of college tuition money ventures out into the world on his own and aboard the Texas Eagle in St. Louis. There he begins a summer adventure in 1966 working as a switchman in the Texarkana rail yards - an often thrilling but always dangerous job. He finds companionship with railroaders who accept him as one of their own and soon he discovers the thrills of being free to make his own decisions. Immersed in the racially charged setting of the mid-1960s, Buster doesn't seem to understand the intractable code for social behavior operating in the South and finds himself at odds with it. He tries to befriend an older black railroad employee, but when warnings against fraternization are ignored, the stationmaster decides to punish him and arranges a transfer to the much rougher rail yards of Shreveport, Louisiana. Preceded by his reputation as a "nigger lover," Buster finds he has been sent to a world alien to him. He is confronted by the contempt of the district railroad superintendent and quickly learns he has no acceptance among the members of his new crews. Their disdain for the young outsider soon manifests itself in acts of ostracism and defamation - and ultimately physical confrontation. Cherishing his job as a railroader while fearing for his safety and even his life, Buster must persevere and adapt to the reality of being alone in a hostile world.

Wicked Designs

The power of design to create a life worth living even in a refugee camp: designs, inventions, and artworks from the Azraq Refugee Camp in Jordan. This book shows how, even in the most difficult conditions--forced displacement, trauma, and struggle--design can help create a life worth living. Design to Live documents designs, inventions, and artworks created by Syrian refugees living in the Azraq Refugee Camp in Jordan. Through these ingenious and creative innovations--including the vertical garden, an arrangement necessitated by regulations that forbid planting in the ground; a front hall, fashioned to protect privacy; a baby swing made from recycled desks; and a chess set carved from a broomstick--refugees defy the material scarcity, unforgiving desert climate, and cultural isolation of the camp. Written in close collaboration with the residents of the camp, with text in both English and Arabic, Design to Live, reflects two perspectives on the camp: people living and working in Azraq and designers reflecting on humanitarian architecture within the broader field of socially engaged art and design. Architectural drawings, illustrations, photographs, narratives, and stories offer vivid testimony to the imaginative and artful ways that residents alter and reconstruct the standardized humanitarian design of the camp--and provide models that can be replicated elsewhere. The book is the product of a three-year project undertaken by MIT Future Heritage Lab, researchers and students with Syrian refugees at the Azraq Refugee Camp, CARE, Jordan, and the German-Jordanian University. "The main goal of this book is to present what could be called Brazilian guitar today, working melodically, harmonically and rhythmically in some of the most important Brazilian musical styles. We have chosen to always use two electric guitars in these arrangements (but in the song "Violeiros e Cantadores", which is for solo electric guitar), so that the essential functions of the guitar - rhythm, melody and harmony - might be expressed in the clearest and best way in each different style. We have made three versions of each piece, for ease of study: a complete one, one without the first electric guitar, and one without the second electric guitar. Therefore the student will be able to listen to the complete version and then practice with the other ones, playing the missing parts of the first guitar and the second guitar. At the end of the book, like an appendix, we have included the bass lines used in the recordings to strengthen the rhythmic and harmonic comprehension of each style." All music is in notation and tablature. A free recording of the music is available as an internet

"The Rabbit on the Face of the Moon is a collection of articles on mythology in the Mesoamerican tradition by Alfredo Lopez Austin, one of the foremost scholars of ancient Mesoamerican thought. Their span is diverse: myths and names, eclipses, stars, left and right, Mexica origins, Aztec incantations, animals, and the incorporation of Christian elements into the living mythologies of Mexico. The title essay relates the Mesoamerican myth explaining why there is a rabbit on the moon's face to a Buddhist image and suggests the importance of the profound mythical concepts presented by each image." "The eighteen pieces in this volume are unified by their basis in Mesoamerican tradition and provide a fascinating look into a system of millennia-old legends and beliefs."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. Notebook for Natures

London, 1940: the Luftwaffe blitzes London every night for fifty-seven nights. Houses, shops and entire streets are wiped from the map. The underworld is in flux: the Italian criminals who dominated the West End have been interned and now their rivals are fighting to replace them. Meanwhile, hidden in the shadows, the Black-Out Ripper sharpens his knife and sets to his grisly work. Henry Irving is a disgraced reporter on a Fleet Street scandal rag. Genius detective sergeant Charlie

Murphy is a fresh face in the Metropolitan police, hunting corrupt colleagues but blinkered by ambition and jealousy. His brother, detective inspector Frank Murphy, searches frantically for his runaway daughter, terrified that she will be the killer's next victim. As the Ripper stalks the terrified streets, the three men discover that his handiwork is not quite what it seems. Conspirators are afoot, taking advantage of the chaos to settle old scores. The murders invade the lives of the victims and victimizers on both sides of the law, as everyone is sucked deeper and deeper into Soho's black heart. Based on a little known true story, *The Black Mile* is a rollercoaster ride of a novel that was previously the most downloaded novel on the Kindle Store. If you enjoy the thrillers of James Elroy, Peter James and Dennis Lehane, you'll love *THE BLACK MILE*. PRAISE FOR MARK DAWSON 'A brilliant debut novel from a very promising writer.' Subject 'Ultra-addictive, super-stylish - a viciously good novel.' Toby Litt. 'A talent to be watched.' Birmingham Post PRAISE FOR THE BLACK MILE 'This is far and above the best small/independently published novel I have ever had the pleasure of reading.' The Kindle Book Review 'Dawson has shown himself to be a true master of suspense'. Siobian Minish 'A first class historical mystery.' Luke Walker 'This book is worth it for the arcane London slang alone. Fascinating. If want to get a feel for what it was like during the early part of WWII this will knock you out. If you like character development you'll love it. If you like peeking in on the lives of people in a long gone world -- you really love it.' David E Johnson
