Poetry. In her debut

collection DAYS, poet and visual artist Simone Kearney has created a text that is almost a substance, a mutable, fidgeting feminist masterwork that challenges us to dwell in ambiguities and resist limiting frameworks of narrative completion. Kearney has been at work on this text for many years, during which it has become a site of near-constant revision and living process. In this way, we might understand DAYS as a kind of "living document" or "life work" in addition to its status as a long poem. Kearney's mobile fragments amass and arrange towards a flood of fractured and lush perception, calling to mind Gertrude Stein's imperative from

5 years ago, I knew nothing about Workamping. To be honest, I knew nothing about RVing and had never slept in an RV, for that matter. I just knew there had to be a way to travel full-time in an RV and make money while we did it! I wanted to live an adventurous life and RV across America, but before we could go we needed to figure out how to either work remote, start our own location independent business or find work

along the way. We choose the last one, which was the fastest route to traveling full-time! We fell into the life of Workamping! It's a simple concept that made perfect sense allowing people from all backgrounds and all ages to RV and make money along the way. ABOUT THE BOOK: Live Camp Work is a practical guide full of information we obtained throughout our RV travel adventure. We learned early on, that securing reliable income was the biggest challenge for RVing full-time. Once we solved this problem, through working jobs as we traveled, the rest fell into place. In this guide, I detail the ins and outs of the Workamping life and show you how anyone

at any age can 'retire' to an RV and live life on the road. I also answer common questions, explain the biggest myths and mistakes while detailing employer programs that hire RVers to work at their businesses. To wrap it all up, I'll provide you with a vast resource of 1000+ employers you can contact for RV jobs out on the road! Everyone interested in learning about how to start RVing by working along the way needs to read this book! If you are interested in Workamping and need information on the lifestyle and how to get jobs while you travel, then this book is for you! If you've been RVing for years and just need some ideas of possible work, then you'll also find a lot of

useful information in this book, that you can use now rather than later!

Education is the key to America's economic growth and prosperity and to our ability to compete in the global economy. It is the path to higher earning power for Americans and is necessary for our democracy to work. It fosters the cross-border, cross-cultural collaboration required to solve the most challenging problems of our time. The National Education Technology Plan 2010 calls for revolutionary transformation. Specifically, we must embrace innovation and technology which is at the core of virtually every aspect

of our daily lives and work. This book explores the National Education Technology Plan which presents a model of learning powered by technology, with goals and recommendations in five essential areas: learning, assessment, teaching, infrastructure and productivity.

Secrets of Top Students Simon and Schuster

Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B. Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported

an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to

live well.
