For years, piano teachers remarked that Dennis Alexander's pieces were great for boys and suggested that he write a book of pieces with boys in mind. Drawing on his own teaching experiences, and recalling the kinds of pieces he would have liked to play at a similar age, he composed these engaging late elementary piano solos that incorporate strong rhythms, athletic leaps of the hands and big sounds. A gratifying collection for students who need a little extra motivation to practice! Illustrated Catalogue of Books, Standard and Holiday Tyndale House Publishers Preludes for Piano: Complete Collection, contains 20 intermediate to late intermediate piano solos that explore and develop lyrical playing. LIBRARY CATALOGUE Andesite Press Charles Lutwidge Dodgson--known better by his pseudonym, Lewis Carroll--was a 19th century English logician, mathematician, photographer, and novelist. He is especially remembered for his children's tale Alice's Adventures in Wonderland and its sequel, Through the Looking Glass. By the time of Dodgson's death in 1898, Alice (the integration of the two volumes) had become the most popular children's book in England. By the time of his centenary in 1932, it was perhaps the most famous in the world. This book presents a complete catalogue of Dodgson's personal library, with attention to every book the author is

known to have owned or read.

Alphabetized entries fully describe each book, its edition, its contents, its importance, and any particular relevance it might have had to Dodgson. The library not only provides a plethora of fodder for further study on Dodgson, but also reflects the Victorian world of the second half of the 19th century, a time of unprecedented investigation, experimentation, invention, and imagination. Dodgson's volumes represent a vast array of academic interests from Victorian England and beyond, including homeopathic medicine, spiritualism, astrology, evolution, women's rights, children's literature, linguistics, theology, eugenics, and many others. The catalogue is designed for scholars seeking insight into the mind of Charles Dodgson through his books.
