This book offers a unique way of exploring the world of vintage jewelry for experts, newcomers, and anyone with an interest in the topic. Every piece of jewelry tells a story, and none more so than the exquisite pieces in this book, which have passed through several notable owners before arriving at Joseph Saidian & Sons, an antique jeweler's shop nestled in the Manhattan Art and Antiques Center. Each chapter is centered around a particular piece of jewelry and the way in which it is emblematic: a previous owner, an exemplary design or dominant material. From an array of historic pieces from Van Cleef & Arpels to a discussion of Indian royalty and its relationship with jewelry to pages filled with exquisite pearl jewelry, this book satisfies both the casual fan and the devotee with full-

color photographs and informative themed chapters. The eclectic choice of jewels and objets makes this a book unlike any other, with myriad entry points to larger discussions on broader themes and trends that the pieces figure into. This publication features beautiful full-color photographs of jewelry from various historical eras up to the present day, with a wide range of materials and styles. Each piece offers a different entry point for discussing the history of jewelry and various design elements, techniques, materials, and societal implications.

Hot & Cold Jewelry Connections is the perfect tool for encouraging jewelry makers to branch out and develop new skills. Kieu Pham Gray's unique approach

to metalwork begins with a design concept, then shows how to execute it using either cold connections (riveting, tabbing, wire wrapping), or hot connections (easy soldering with a small butane torch), teaching essential techniques of both along the way. These hot and cold options help jewelry makers understand how to evaluate and choose the right technique for their jewelry pieces based on their desired end result.
