### KEENAN GILLIAN

*Commentaries on the Law of Contracts* Kluwer Law International B.V.

A Guide to State Succession in International Investment Law provides a comprehensive analysis of State succession issues arising in the context of international investment law. The author examines whether a successor State is bound by the investment treaties and State contracts which the predecessor State had signed with other States and foreign investors before the date of succession. Actors who are called upon to apply rules of State succession in investment arbitration cases will find this book a valuable source of practical guidance with strong theoretical foundations.

*New York Staff Directory* BRILL

This book charts the path to revitalisation for trade unions in Australia, the USA, the UK, and Italy. It examines the examples of innovation and digital campaigning that are enabling unions to build

new forms of worker power – and overcome decades of declining membership wrought by neoliberalism, globalisation, and hostility from employers and the state. The study evaluates the responses of unions in each country to falling membership levels since the 1980s. It considers the US 'organising model' and its adoption in Australia and the UK, comparing this with the strategies of Italian unions which have been more deliberately focused on precarious and migrant workers. The increasing reliance of US unions on community alliances, as seen in the 'Fight for \$15' and similar campaigns, is scrutinised along with new union prototypes like Hospo Voice in Australia, the Independent Workers' Union of Great Britain and SI Cobas in Italy. The book includes an in-depth analysis of union responses to the gig economy in the four countries, and the emergence of self-organised worker collectives to combat this exploitative business model. The vital role played by unions in defending the interests of workers during the COVID-19 pandemic is also examined. As well as highlighting the most successful union initiatives to meet the challenges of the past 30 years, the book assesses the strengths and deficiencies of the legal framework for union representation in the four nations. It identifies the labour law reforms needed to rebuild

collectivism, but argues that more is needed than favourable laws. This cross-national study provides a rich basis for identifying the combination of reforms, strategies and linkages required to ensure that unions can remain relevant for a new generation of digitally-active workers.

*Contract Law in England and Wales* Kluwer Law International B.V.

Disputes about intellectual property (IP) rights are frequently multinational, with allegations of infringement and arguments about validity and ownership spanning numerous jurisdictions. As an alternative to expensive, risk-prone and time-consuming litigation, out-of-court settlements conducted through mediation are becoming more common, with the added advantage that they are not tied to the geographical scope of the IP rights at stake. This book is the first work of its type devoted to the practical A to Z of IP mediation. It is written in a reader-friendly style which makes it accessible to a wide readership. With numerous case study examples demonstrating the kind of challenges that arise and how they can be met, a team of internationally recognized mediators and IP experts offers in-depth discussion of how mediation mitigates difficulties in such IP areas as the following: • disputes on trademarks, designs, patents, copyrights and other IP

rights; • allegations of breach of contract; • licences and transfers; and • R&D cooperation agreements. The authors provide analysis and recommendations about drafting settlement agreements, including standard clauses and enforcement, as well as an overview of the main mediation services which may be used to settle IP disputes. Showing how mediation offers a dispute resolution process at a human level where parties can not only discuss and resolve their differences but also create added value to the existing IP rights and the business surrounding them, the book will be warmly welcomed by lawyers, both in-house and outside counsels, IP professionals in general and rights holders and licensees.

**The International Compendium of Construction Contracts** CQ Press

This book provides an in-depth examination of the theoretical, legal, social and economic foundations to disclosure and concealment of information in relation to the formation of consumer insurance contracts. A comparative treatment of this issue is undertaken with particular attention given to the judicial and legislative approaches adopted in the United Kingdom, the United States of America, Australia and New Zealand. It will be relevant to those researching and studying insurance law, all legal practitioners involved with the formation of consumer insurance contracts and non-legal practitioners working within the field of insurance.

*Verbatim Record of the Proceedings* Springer Nature

Arbitration and International Trade in the Arab Countries examines international trade arbitration in the MENA region and analyses legal sources, decisions and practices through the prism of freedom and safety requirements. The work is an essential guide to the body of arbitration law at both the practical and theoretical levels.

*Contract Law in South Africa* Oxford University Press

This is a topical area for the courts, which have moved to imply various limitations or tests on decision makers powers and when they can be challenged. This is made more difficult for lay users and lawyers alike in that implied restrictions are (by definition) not apparent from the words of the relevant contract itself. These limits are applied by the courts not just to fiduciaries (such as trustees or directors), but also to non-fiduciaries (eg banks and employers). Recent case law includes: • Pitt v Holt (SC) – trustee decisions (2013) • Braganza (SC) – contractual discretions (2015) • Eclair (SC) – directors powers: proper purposes (2015) • IBM UK Holdings v Dalgleish (CA) – employer powers under pension plans (2017) • British Airways (CA) – pension plan – proper purposes (2018) The book reviews the relevant doctrines of: • Interpretation rules • Proper purposes; • Due consideration of relevant factors • Full perversity (no reasonable decision maker)

**Disclosure and Concealment in Consumer Insurance Contracts** Edward Elgar Publishing

An authoritative and detailed account of contract law; this is a widely renowned and well-respected textbook for students of contract law, and a trusted source of reference for practitioners and academics.

**Verbatim Record of the Proceedings of the Temporary National Economic Committee** OECD Publishing

This Handbook provides a comprehensive overview of local governance in China, and offers original analysis of key factors underpinning trends in this field drawing on the expertise of scholars both inside and outside China. It explores and analyzes the dynamic interaction and collaboration among multiple governmental and non-governmental actors and social sectors with an interest in the conduct of public affairs to address horizontal challenges faced by the local government, society, economy, and civil community and considers key issues such as governance in urban and rural areas, the impact of technology on governance and related issues of education, healthcare, environment and energy. As the result of a global and interdisciplinary collaboration of leading experts, this Handbook offers a cutting-edge insight into the characteristics, challenges and trends of local governance and emphasizes the promotion of good governance and democratic development in China.

**The Law of Contracts** Government Printing Office

This scholarly Research Handbook captures key observations and analyses within the field of public financial management. It offers much-needed insights into possible future research ventures while presenting contemporary summaries of past studies in this ever-evolving field.

*Pensions, Contracts and Trusts: Legal Issues on Decision Making* Routledge

This comprehensive Research Handbook investigates the success of EU law enforcement processes. Going beyond traditional analyses of administrations and courts in isolation, it focuses on the increased cooperation seen between national and EU authorities, and on the widening variety of means used to enhance compliance with EU norms.

*Equity & Trusts: Text, Cases, and Materials* John Wiley & Sons

This book highlights the importance of optional choice of court agreements, and the need for future research and legal development in this area. The law relating to choice of court agreements has developed significantly in recent years, reflecting their increased use in practice. However, most recent legal developments concern exclusive choice of court agreements. In comparison, optional choice of court agreements, also called permissive forum selection clauses and non-exclusive jurisdiction clauses, have attracted little attention from lawmakers or commentators. This collection is comprised of 19 National Reports, providing a critical analysis of the legal treatment of optional choice of court agreements, including asymmetric choice of court agreements, under national laws as well as under multilateral instruments. It also includes a General Report offering an overview of this area of the law and a synthesis of the findings of the national reporters. The contributions to this collection show that the legal treatment of optional choice of courts differs between legal systems. In some countries, the law on the effect of optional choice of court agreements is at an early stage in its development, whereas in others the law is relatively advanced. Irrespective of this, the national reporters identify unresolved issues with the effect of optional choice of court agreements, where the law is unclear or the cases are conflicting, demonstrating that this topic warrants greater attention. This book is of interest to judges, legislators, lawyers, academics and students who are concerned with private international law and international civil procedure.

*Good Faith and Insurance Contracts* Bloomsbury Publishing

The Sixth Edition of ERISA: A Comprehensive Guide provides a thorough and authoritative analysis of the principal statutory provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and the corresponding provisions of the Internal Revenue Code (Code) dealing with employee benefits. It also discusses and explains the multitude of regulations, rulings, and interpretations issued by the Department of the Treasury, the Internal Revenue Service, the Department of Labor, and the Pension Benefit Guaranty Corporation in explanation of ERISA; the Code provisions relating to the requirements for tax-qualified retirement plans; and the subsequent legislation amending or supplementing ERISA and such Code provisions. Cited by the Supreme Court, ERISA: A Comprehensive Guide discusses and explains the multitude of regulations, rulings, and interpretations issued by the Department of the Treasury, the Internal Revenue Service, the Department of Labor, and the Pension Benefit Guaranty Corporation in explanation of ERISA and the subsequent legislation amending or supplementing ERISA. ERISA: A Comprehensive Guide has been updated to include: The Setting Every Community Up for Retirement Enhancement (SECURE) Act of 2019 and the Coronavirus Aid, Relief, and Economic Security (CARES) Act of 2020 Discussion of improvements in the ability for plan sponsors to take advantage of electronic disclosure opportunities for participant notices and disclosures. Updates to fiduciary duties and best practices based on litigation outcomes Analysis of the rising role of arbitration in the resolution of disputes between plan sponsors and participants Discussion of COBRA notice requirements due to COVID-19, pursuant to CARES Act Discussion of the impact of COVID-19 on union contracts and multiemployer plans Impact of CARES Act on bankruptcy filings and procedures

*United States Code* Walter de Gruyter GmbH & Co KG

"The United States Code is the official codification of the general and permanent laws of the United States of America. The Code was first published in 1926, and a new edition of the code has been published every six years since 1934. The 2012 edition of the Code incorporates laws enacted through the One Hundred Twelfth Congress, Second Session, the last of which was signed by the President on January 15, 2013. It does not include laws of the One Hundred Thirteenth Congress, First Session, enacted between January 2, 2013, the date it convened, and January 15, 2013. By statutory authority this edition may be cited "U.S.C. 2012 ed." As adopted in 1926, the Code established prima facie the general and permanent laws of the United States. The underlying statutes reprinted in the Code remained in effect and controlled over the Code in case of any discrepancy. In 1947, Congress began enacting individual titles of the Code into positive law. When a title is enacted into positive law, the underlying statutes are repealed and the title then becomes legal evidence of the law. Currently, 26 of the 51 titles in the Code have been so enacted. These are identified in the table of titles near the beginning of each volume. The Law Revision Counsel of the House of Representatives continues to prepare legislation pursuant to 2 U.S.C. 285b to enact the remainder of the Code, on a title-by-title basis, into positive law. The 2012 edition of the Code was prepared and published under the supervision of Ralph V. Seep, Law Revision Counsel.

Grateful acknowledgment is made of the contributions by all who helped in this work, particularly the staffs of the Office of the Law Revision Counsel and the Government Printing Office"--Preface.

*The Parliamentary Debates (Official Report)*, Edward Elgar Publishing

"First Published in 2002, Routledge is an imprint of Taylor & Francis, an informa company."

*Mediation and Commercial Contract Law* Oxford University Press

Derived from the renowned multi-volume International Encyclopaedia of Laws, this practical analysis of the law of contracts in South Africa covers every aspect of the subject-definition and classification of contracts, contractual liability, relation to the law of property, good faith, burden of proof, defects, penalty clauses, arbitration clauses, remedies in case of non-performance, damages, power of attorney, and much more. Lawyers who handle transnational contracts will appreciate the explanation of fundamental differences in terminology, application, and procedure from one legal system to another, as well as the international aspects of contract law. Throughout the book, the treatment emphasizes drafting considerations. An introduction in which contracts are defined and contrasted to torts, quasi-contracts, and property is followed by a discussion of the concepts of 'consideration' or 'cause' and other underlying principles of the formation of contract. Subsequent chapters cover the doctrines of 'relative effect', termination of contract, and remedies for non-performance. The second part of the book, recognizing the need to categorize an agreement as a specific contract in order to determine the rules which apply to it, describes the nature of agency, sale, lease, building contracts, and other types of contract. Facts are presented in such a way that readers who are unfamiliar with specific terms and concepts in varying contexts will fully grasp their meaning and significance. Its succinct yet scholarly nature, as well as the practical quality of the information it provides, make this book a valuable time-saving tool for business and legal professionals alike. Lawyers representing parties with interests in South Africa will welcome this very useful guide, and academics and researchers will appreciate its value in the study of comparative contract law.

*Care Homes in a Turbulent Era* Edward Elgar Publishing

"This book has emerged ... from Maudsley and Burn's trusts and trustees: cases and materials, the seventh edition of which was published in 2008"--Preface.

*State, Foreign Operations, and Related Programs Appropriations for 2015* Routledge

Good Faith and Insurance Contracts sets out an exhaustive analysis of the law concerning the duty of utmost good faith, as applied to insurance contracts. Now in its fourth edition, it has been updated to address the arrival of the Insurance Act 2015, as well as any references to new case law. In addition, it synthesises all known judicial decisions by the English Courts concerning good faith in this area. This book is still the only text devoted to a discussion of the duty of utmost good faith applicable to insurance contracts. As good faith is an issue which arises in respect of all insurance contracts, it is a book which will be extremely useful to lawyers involved in insurance as well as insurance practitioners.

*Parliamentary Debates* Kluwer Law International B.V.

The most practical, authoritative guide to GAAP Wiley GAAP 2013 contains complete coverage of all levels of GAAP, indexed to the ASC. Wiley GAAP renders GAAP more understandable and accessible for research, and has been designed to reduce the amount of time and effort needed to solve accounting research issues. Providing interpretive guidance and a wealth of real-world, content-rich examples and illustrations, this invaluable guide offers clear, user-friendly guidance on every pronouncement including FASB Technical Bulletins, AcSEC Practice Bulletins, FASB Implementation Guides, AICPA Statements of Position, and AICPA Accounting Interpretations. Offers insight into the application of complex financial reporting rules Contains detailed index for easy reference use Includes a comprehensive cross-reference of accounting topics to the FASB codification system With easy-to-access information, this reliable resource offers complete coverage of the entire GAAP hierarchy.

*Arbitration and International Trade in the Arab Countries* Wolters Kluwer Law & Business

Derived from the renowned multi-volume International Encyclopaedia of Laws, this practical analysis of the law of contracts in England and Wales covers every aspect of the subject – definition and classification of contracts, contractual liability, relation to the law of property, good faith, burden of proof, defects, penalty clauses, arbitration clauses, remedies in case of non-performance, damages, power of attorney, and much more. Lawyers who handle transnational contracts will appreciate the explanation of fundamental differences in terminology, application, and procedure from one legal system to another, as well as the international aspects of contract law. Throughout the book, the treatment emphasizes drafting considerations. An introduction in

which contracts are defined and contrasted to torts, quasi-contracts, and property is followed by a discussion of the concepts of 'consideration' or 'cause' and other underlying principles of the formation of contract. Subsequent chapters cover the doctrines of 'relative effect', termination of contract, and remedies for non-performance. The second part of the book, recognizing the need to categorize an agreement as a specific contract in order to determine the rules which apply to it, describes the nature of agency, sale, lease, building contracts, and other types of contract.
