Albania In Transition Rowman &
Littlefield

This text presents the concepts,
theories, methods, and traditions of

ethical analysis and then applies them to
case studies in the areas of human
rights, military force, foreign
intervention, economic statecraft, and
global political justice.

Economics of Travel and Tourism

OECD Publishing

This book focuses on the trials and

tribulations of Albania's efforts to create a democratic political order. It assesses the degree and significance of changes since the early 1990s, providing a detailed account of the transition from Communist Party rule to multiparty competition.

Professor van Caenegem's new book addresses fundamental questions of constitutional organization--democracy versus autocracy, unitary versus federal organization, pluralism versus intolerance--by analyzing different models of constitutional government through a historical perspective. The approach is chronological: constitutionalism is explained as the result of many centuries of trial and error through a narrative that begins in the early Middle Ages and concludes with contemporary debates, focusing on Europe, the United States, and the Soviet Union.

The Kosovo Crisis Manchester University Press

This text offers a clear seven-goal model for creating effective instruction in culturally diverse classrooms. The model, based on a set of field-tested planning questions, is linked to a series of curriculum case studies. Strong coverage of ethnic identity, empowerment, the social construction of knowledge, and equity-based learning.

Conversion to Islam in the Balkans Allyn & Bacon

This report describes recent trends in the international migration of doctors and nurses in OECD countries. Over the past decade, the number of doctors and nurses has increased in many OECD countries, and foreign-born and foreign-trained doctors and nurses have contributed to a significant extent. New in-depth analysis of the

internationalisation of medical education shows that in some countries (e.g. Israel, Norway, Sweden and the United States) a large and growing number of foreign-trained doctors are people born in these countries who obtained their first medical degree abroad before coming back. The report includes four case studies on the internationalisation of medical education in Europe (France, Ireland, Poland and Romania) as well as a case study on the integration of foreign-trained doctors in Canada.

"Pierre Hazan, in a brilliant and erudite book beautifully written, analyzes the fascinating account of the judicial and cultural revolution that started after the end of the Cold War."---Le Monde Diplomatique --

Përdorimi politik i fesë në rindërtimin e identiteteve Amsterdam University Press

Upon her arrival in Tirana, Albania, in April 1994, the author found a city unlike any other she had experienced. Rotting trash was piled in the center of the streets, animals shared the rutted roads with cars, and housing, when it could be found, was crowded and crumbling. But she found a people full of optimism, particularly the women. Despite the subservient role forced by tradition on nearly all Albanian women, they have increasingly become the foundation upon which the country exists. Not only are they responsible for caring for extended households, these women are now also becoming vital parts of the country's economy. Most importantly, however, they maintain a faith in Albania that belies the country's turbulent past and widely predicted future. Through interviews with over 200 Albanian women, this work is an insightful, often poignant, look at a country that remains

a mystery to most in the West.

"Legal Research and Writing, Third Edition" seeks to explain the practical skills needed for print and online legal research and for legal writing. It provides a current and comprehensive look at the topic, consolidating information on legal research and writing into one handy, easy-to-use resource. The book is written for both seasoned practitioners, seeking to add the latest sources and techniques to their research arsenals, and for beginning law students who face a bewildering array of information. It includes chapters on legal research malpractice, the acquisition of research resources, and knowledge management. In addition, it covers searching the new platforms of the major proprietary online legal databases, the increasing digitization of legal materials, and the Web 2.0. "Legal Research and Writing" is the most up-to-date book of its kind available in Canada today.

Women in Modern Albania AIIS Press

In many industrial applications, the existing constraints mandate the use of controllers of low and fixed order while typically, modern methods of optimal control produce high-order controllers. The authors seek to start to bridge the resultant gap and present a novel methodology for the design of low-order controllers such as those of the P, PI and PID types. Written in a self-contained and tutorial fashion, this book first develops a fundamental result, generalizing a classical stability theorem – the Hermite-Biehler Theorem – and then applies it to designing controllers that are widely used in industry. It contains material on: • current techniques for PID controller design; • stabilization of linear time-invariant

plants using PID controllers; • optimal design with PID controllers; • robust and non-fragile PID controller design; • stabilization of first-order systems with time delay; • constant-gain stabilization with desired damping • constant-gain stabilization of discrete-time plants.

Serbs and Albanians BRILL

Brzezinski provides a stark and realistic look at the world's economy and moral crisis in a brilliant analysis of today's geopolitical order. If America is to reassert its moral legitimacy, Brzezinski argues, it must address its basic dilemmas, including deepening poverty, inadequate health care and education, a greedy wealthy class opposed to progressive taxation, and the mass media's promotion of sex and violence. In the new world of rival global power clusters, Brzezinski urges a greater role for the United Nations and "redistribution of responsibilities" within the trilateral nexus of Europe, America and East Asia (Publisher's Weekly).

An Historical Introduction to Western Constitutional Law McFarland

In all major regions of the world, the economic recession is deep-seated, resulting in mass unemployment, the collapse of state social programs and the impoverishment of millions of people. The meltdown of financial markets was the result of institutionalized fraud and financial manipulation. The economic crisis is accompanied by a worldwide process of militarization, a "war without borders" led by the U.S. and its NATO allies. This book takes the reader through the corridors of the Federal Reserve, into the plush corporate boardrooms on Wall Street where far-reaching financial transactions are routinely undertaken. Each of the authors in this timely collection digs beneath the gilded surface to reveal a

complex web of deceit and media distortion which serves to conceal the workings of the global economic system and its devastating impacts on people's lives.

The Effective Local Government

Management Structure and Synthesis of PID Controllers

Released for the first time in the English language, and marking the centennial of Albania's independence, Serbs and Albanians delivers an at once refreshing and comprehensive insight into the cultural composition of Southeast Europe. A wider audience can now appreciate the work of Milan ufflay, a controversial figure of his time whose assassination was denounced by leading intellectuals, Albert Einstein and Heinrich Mann. With a measured and often poetic voice, ufflay takes us on a journey through the Middle Ages as it unfolded on a land where opposing cultures were distilled and interwoven, dynasts and whole cities upturned and reborn.

The Justice Cascade W. W. Norton & Company

This book looks at the legacy of the 1998-99 Kosovo crisis for European security affairs. It examines the debates about the nature and justification of intervention in the affairs of sovereign states. It also considers the impact of the crisis on NATO and on relations between western states and Russia both during and since Kosovo. Well-known "facts" are critically assessed and

challenged. The authors argue that the NATO attacks on Serbia were not a "war," nor did the crisis directly lead to moves to endow the European Union with its own military dimension. They place the Kosovo crisis in the context of the long-term evolution of a transatlantic "community of values" between Europe and North America.

The book is accompanied by a web site where students and lecturers alike can access updates on major developments in the law as well as pointers to the exercises contained in the text.

The Danube-Oder-Elbe Canal promised to create an integrated waterway system across Europe, linking Black Sea ports to Atlantic markets and giving landlocked Czech nation its own connections to the ocean. The fascinating history of this never-completed project, *European Coasts of Bohemia* tells the story of the experts who confronted and contributed to different and often conflicting geopolitical visions of Europe. Jíra Janáč shows how the canal-backers adapted themselves to various political developments, such as the break-up of the Austrian-Hungarian Empire and the integration into the Soviet Bloc, while still managing to keep the canal project alive.

Marketing Management Penguin International Management: Managing in a Diverse and Dynamic Global Environment offers a modern perspective of international management rooted in a recognized framework. The framework follows the generally accepted course structure beginning with the macro-environment, then moves to the firm level, and concludes with the individual manager in the international setting. This traditional framework is embellished with modern chapters on collaborative strategies, managing technology and knowledge, and ethics and corporate social responsibility. Each chapter has several mini-case examples and full-length,

comprehensive cases conclude each part.

Kosovo Routledge

Over the past three decades, hundreds of government officials have gone from being immune to any accountability for their human rights violations to being the subjects of highly publicized trials in Latin America, Europe, and Africa, resulting in enormous media attention and severe consequences. Here, renowned scholar Kathryn Sikkink brings to light the groundbreaking emergence of these human rights trials as a modern political tool, one that is changing the face of global politics as we know it. Drawing on personal experience and extensive research, Sikkink explores the building of this movement toward justice, from its roots in Nuremberg to the watershed trials in Greece and Argentina. She shows how the foundations for the stunning, public indictments of Slobodan Milošević and Augusto Pinochet were laid by the long, tireless activism of civilians, many of whose own families had been destroyed, and whose fight for justice sometimes came at the risk of their own lives and careers. She also illustrates what effect the justice cascade has had on democracy, conflict, and repression, and what it means for leaders and citizens everywhere, including the policymakers behind our own "war on terror."--From publisher description.
